EXPERIENCE IN INTELLECTUAL PROPERTY

Advises on many aspects of e-commerce and in particular protecting clients' intellectual property rights on the Internet, domain names (registration, management and recuperation) website design and development, content liability, data protection and privacy issues, encryption regulation and security issues, together with software licensing and development agreements.

Attends ICANN & INTA meetings regularly.

EXPERIENCE WITH RESPECT TO DOMAIN NAMES

Speaks regularly on domain names, Internet related intellectual property issues and E-Commerce;
Co-ordinates a world wide domain name registration and protection service for clients, using dedicated servers and has developed an extranet facility for clients to view their portfolios on line. Head of a team which manages domain name registrations in 160 jurisdictions, totalling well over 10,000 names to date. Frequently advises on the resolution of domain name disputes across the globe, either for the Complainant or the Respondent in over 100 cases.
