Registration of the International Trademark

Dear Sirs,

Trademarks are the important components of any successful business marketing strategy. They are indispensable for businesses in the design of their marketing strategies allowing them to identify, license and promote their goods or services in the marketplace and to distinguish these goods or services from those of their competitors, thereby cementing customer loyalty. We offer you to store your Trade-, Service- or Designmark in our database. The registration is the base of our Trademark Services. This offer is not an invoice. You have not to pay the fees unless you accept the registration. The registration is valid for one year. We refer to our general terms and conditions. The registration does not include responding substantive USPTO challenges or third party opposition to the trademark application.
