Cameroon endorses the proposals concerning the exclusive right of broadcasting organizations to authorize or prohibit the acts specified in paragraph 59 of the International Bureau memorandum (document SCCR/1/3 of September 7, 1998).⁹

⁹ Paragraphs 58 and 59 of the document SCCR/1/3 read as follows: “58. From April 28 to 30, 1997, WIPO organized, in cooperation with the Government of the Philippines and with the assistance of the *Kapisanan ng mga Brodkaster ng Pilipinas* (KBP) (National Association of Broadcasters of the Philippines) the WIPO World Symposium on Broadcasting, New Communication Technologies and Intellectual Property, in Manila. (The proceedings of the Symposium are published in WIPO publication No. 757 (E/F/S).) At this symposium, representatives of broadcasting organizations pointed out a number of issues which they proposed to be addressed at the international level. Some of these issues are listed in the following paragraph.
59. According to these proposals, broadcasters should be granted exclusive rights to authorize or prohibit the following acts:

- simultaneous or deferred rebroadcasting of their broadcasts, whether these are retransmitted via satellite or by any other means;
- simultaneous and deferred retransmission of their broadcasts in cable systems;
- the making available to the public of their broadcasts, by any means, including interactive transmissions;
- the fixation of their broadcasts on any media, existing or future, including the making of photographs from television signals;
- the transmission to the public of programs, transmitted by cable;
- the decoding of encrypted signals; and

In the case of cable distribution organizations, we propose that those which distribute their own programs be entitled to the rights granted to broadcasting organizations.

Program-carrying signals should also be given protection. They should not be received by broadcasting organizations for which they are not intended, on pain of civil or criminal sanctions or both, depending on the seriousness of the infringement.

Moreover, a general right of communications should be recognized to cover communication by interactive transmission.

CERTAIN CENTRAL EUROPEAN AND BALTIC STATES

50. The Representative of Certain Central European and Baltic States has proposed the following wording:

The country representatives consider that the rights of performers and phonogram producers have been updated through the WIPO Performances and Phonograms Treaty (WPPT) and that the Rome Convention of 1961 needs updating also in respect of the rights of broadcasters, in order to cope with new technological and market developments in the field of broadcasting. In particular, they take the view that an enhanced protection of related rights of broadcasters at the international level is needed in order to fight piracy of broadcast programs. When updating broadcasters' rights the proper balance between the various groups of right holders should be taken into consideration.

CERTAIN STATES OF AFRICA

51. The Representative of Certain States of Africa has proposed the following wording:

The country representatives, having carefully studied the proposals submitted by Switzerland (SCCR/2/5) and a group of broadcasting organizations (SCCR/2/6), highlighted the following issues for further study and discussion:

- the balancing, also with reference to socio-cultural factors in the various regions, of the rights of all interested parties, including authors, broadcasting organizations, performers and producers of phonograms;
- the scope of the new instrument, with special reference to:
 - the exclusive rights granted to broadcasting organizations, with specific reference to the nature of the rights required by broadcasting organizations to protect their legitimate interests

[Footnote continued from previous page]

- the importation and distribution of fixations or copies of fixations of broadcasts, made without authorization.
In addition, broadcasters should be granted a right of remuneration for private copying, and it should be clarified that the protection applies not only to the sounds and/or images of broadcasts, but also to (digital) representations of such sounds and/or images.”

CERTAIN STATES OF ASIA AND THE PACIFIC

52. The Representative of Certain States of Asia and the Pacific has proposed the following wording:

The countries present agreed that there was a need to study the possibility of updating the rights of broadcasting organizations, taking into account the technological changes that have occurred between the adoption of the Rome Convention in 1961 up to the present. In any such study, it is important to strike a balance between the interests of the different stakeholders (i.e. the big and small broadcasting organizations, the authors, the performers, the producers and the public). At the same time, the interests of the developing and least developed countries should be a primary concern. In this context, the special circumstances of least developed countries should be kept in mind.

such a way that members of the public may access them from a place and at a time individually chosen by them.

MEXICO

55. The Delegation of Mexico has proposed the following wording:

It considers it important that the subsequent negotiations and discussions leading to a Treaty on the Protection of the Rights of Broadcasting Organizations should take into consideration the drafts submitted by the various unions and associations of broadcasting organizations and distributed at the meeting of the Standing Committee on Copyright and Related Rights in November 1998.¹¹

SWITZERLAND

56. The Delegation of Switzerland has proposed the following wording:

Article 4¹² Right of Retransmission

Broadcasting organizations shall enjoy the exclusive right to authorize the retransmission of their broadcasts in any manner or form whatsoever.

Article 5¹³ Right of Communication to the Public

Broadcasting organizations shall enjoy the exclusive right to authorize the communication to the public of their broadcasts in any manner or form whatsoever.

Article 6¹⁴ Right of Decoding

Broadcasting organizations shall enjoy the exclusive right to authorize the decoding of their encrypted broadcasts.

¹¹ See WIPO document SCCR/2/6.

¹² [Note on Article 4 contained in the proposal:] "This Article is drafted in a sufficiently broad manner to include at the same time – in particular – rebroadcasting, cabled distribution and distribution of carrier signals. Moreover, it covers both simultaneous and recorded retransmission."

¹³ [Note on Article 5 contained in the proposal:] "Contrary to Article 13(d) of the Rome Convention, the concept of communication to the public is defined herein in a broad sense and is not restricted to those instances where an entrance fee is required. The cases concerned are, in particular, public reception of broadcasts in hotels, restaurants and other public premises of like nature. This right corresponds to the right "to make broadcasts perceivable" under Article 37(b) of the Swiss Copyright Law."

¹⁴ [Note on Article 6 contained in the proposal:] "Faced with the advance of technology, broadcasting organizations must be given the right to combat the fraudulent decoding of their broadcasts. What is basically aimed at is the making available to individuals of the means of decoding encrypted broadcasts. Decoding by an individual would normally take place within the private circle of that individual and could therefore be permitted by the national provisions that authorize private use (see Article 11 of this draft Protocol on limitations and exceptions).

Article 7¹⁵
Right of Fixation

Broadcasting organizations shall enjoy the exclusive right to authorize the fixation in whole or in part, direct or indirect, of their broadcasts on phonograms, videograms or other data carriers.

Article 8¹⁶
Right of Reproduction

Broadcasting organizations shall enjoy the exclusive right to authorize the director in indirect reproduction or fixation of their broadcasts in any manner or form whatsoever.

Article 9¹⁷

(b) Nothing in this Protocol shall affect the freedom of Contracting Parties to determine the conditions, if any, under which the exhaustion of the right in paragraph (a) applies after the first sale or other transfer of ownership of the original or a copy of the fixation with the authorization of the author.

Article 10¹⁸
Right of Making Available to the Public

Broadcasting organizations shall enjoy the exclusive right to authorize the making available to the public, by wire or wireless means, of fixations of their broadcasts in such a way that members of the public may access them from a place and at a time individually chosen by them.

¹⁵ [Note on Article 7 contained in the proposal:] “By specifying that fixation may be in whole or in part, this Article also covers the making of a still photograph from an individual image in a broadcast. Additionally, the proposed right also covers both the direct fixation of a broadcast and a fixation on the basis of a simultaneous rebroadcast.”

¹⁶ [Note on Article 8 contained in the proposal:] “This Article specifies the requirement to obtain authorization not only for the direct fixation of a broadcast, but also for indirect fixation.”

¹⁷ [Note on Article 9 contained in the proposal:] “This Article corresponds to Article 6 of the WCT and Articles 8 and 12 of the WPPT.”

¹⁸ [Note on Article 10 contained in the proposal:] “This Article corresponds to the right of making available to the public contained at the end of Article 8 of the WCT and in Articles 10 and 14 of the WPPT. To ensure concordance with those provisions, it therefore reproduces exactly the same formulation, particularly the term “by wire or wireless means.” However, there is no fundamental difference intended with the term “in any manner or form whatsoever” used in Articles 4 and 5 of this draft Protocol with respect to retransmission and communication to the public.
