## **Changes in the Structure of the Publication of International Applications**

As part of an ongoing effort to improve the availability of patent information, the International Bureau (IB) will publish international applications with an international filing date on or after 1 January 2008, in a slightly different manner. In respect of those international applications, certain documents which, under PCT Rule 48.2(a), are to be "contained" in the publication of the international application, will be presented and disseminated as separate documents. In respect of those international applications, the publication of the international application, available through WIPO's PATENTSCOPE® Search Service and on PCT Article 20 and PCT Rule 87 DVDs, will consist of the following documents:

- 1. A single document, containing:
  - the standardized front page;
  - description, claims and drawings (if any);
  - the international search report, or the declaration under Article 17.2(a);
  - amended claims and the associated statement filed under Article 19, if any; and

2. the following documents which form part of the publication of the international application but which are presented and disseminated as separate documents:

- the sequence listing part of the description, whether filed on paper or filed in electronic form;
- indications relating to the deposited biological material filed separately from the description;
- requests from the applicant under PCT Rule 91.3(d) to publish information concerning the request for the rectification of an obvious mistake where the International Searching Authority has refused to authorize the rectification;
- requests from the applicant under PCT Rule 26*bis*.2(e) to publish information concerning priority claims which the applicant wished to correct or add but for which the time limit under PCT Rule 26*bis*.1 had expired;
- declarations under PCT Rule 4.17;
- information concerning a priority claim referred to in PCT Rule 26bis.2(d);
- information concerning a request under PCT Rule 26bis.3 for the restoration of right of priority;
- information concerning incorporation by reference of missing parts and/or elements (Form PCT/RO/114);
- information concerning one or more priority claims considered void (Form PCT/IB/318); and
- information concerning authorization of a rectification of an obvious mistake under PCT Rule 91.1.

All of the documents listed above will be made available, where applicable, in the PATENTSCOPE<sup>®</sup> Search Service (www.wipo.int/pctdb/en/) on the "Documents" tab of the international application concerned.

Note that, while the changes are applicable to international applications filed on or after 1 January 2008, the majority of those applications will, pursuant to the normal PCT publication timeline, not be published before the expiration of 18 months from the priority date, that is, not before 1 July 2008. However, in the exceptional case that the applicant requests early publication under PCT Article 21(2)(b), the IB would publish the international application before 1 July 2008, using the revised structure.

#### **PCT Information Update**

#### **BR Brazil (Internet address)**

Further to the information published in *PCT Newsletter* No. 11/2007, the National Institute of Industrial Property has notified its Internet address, as follows:

The International Bureau acting for the Department of Intellectual Property, Standardization and Metrology (Lao People's Democratic Republic) has specified the European Patent Office as competent International Searching and Preliminary Examining Authority for international applications filed by nationals and residents of the Lao People's Democratic Republic with the International Bureau as receiving Office.

(Updating of PCT Applicant's Guide, Annex C (IB))

#### **NO Norway (competent International Searching and Preliminary Examining Authorities)**

The Norwegian Patent Office has specified the Nordic Patent Institute, in addition to the European Patent Office and the Swedish Patent and Registration Office, as competent International Searching and Preliminary Examining Authority as from 1 January 2008 for

international applications filed by nationals and residents of Norway with the Norwegian Patent Office as receiving Office.

(Updating of PCT Applicant's Guide, Annex C (NO))

## Search fee (Nordic Patent Institute)

Further to the publication in *PCT Newsletter* No. 12/2007 of the amount in DKK of the fee for an international search carried out by the Nordic Patent Institute, payable with effect from 1 January 2008, the equivalent amounts of that fee have now been established in CHF, EUR, ISK, NOK and USD, as indicated in Table I(b).

(Updating of PCT Applicant's Guide, Annex D (XN))

# PCT-SAFE Update

### Release of new version of the PCT-SAFE Client software

A new version of the PCT-SAFE Client software (version 3.51.026.201), dated 1 January 2008, may now be downloaded from the PCT-SAFE website at:

www.wipo.int/pct-safe/en/download/download\_client.htm

This version ("build 201") includes the following changes:

- Croatia (HR) and Norway (NO) are included in the EP designation;
- Information on the Nordic Patent Institute as International Searching Authority (ISA/XN);
- New PCT Contracting State Angola (AO) as from 27 December 2007;
- All fee schedules have been updated;
- Compatibility with Windows® Vista; and
- Other minor functionality and graphic user interface enhancements and PCT updates.

#### Important:

It is necessary to install this new build to be able to file fully electronic applications with the International Bureau as receiving Office (RO/IB) as of 6 January 2008, on which date the RO/IB server digital certificate enabling secure communications changed.

Further details are available on the PCT-SAFE website at:

www.wipo.int/pct-safe/en/index.html

# Note concerning PCT applications in Japanese prepared using the Windows® Vista environment

Following the release of the new Windows® Vista-compliant PCT-SAFE client build 201 (see above), applicants filing international applications containing Japanese characters prepared using the PCT-SAFE software in a Windows® Vista environment or a JIS2004 environment are advised that the Microsoft Corporation has changed the appearance of some of the Japanese Kanji characters to comply with the JIS2004 standard. Since the PCT-SAFE client software uses the font information available on the applicant's computer, the appearance of the Japanese Kanji on the computer screen and on printouts will comply with JIS2004, but will be different from those which are contained in the published international application. This is due to the fact that, for the time being, the JIS2004 Kanji characters will be replaced by JIS90 Kanji

characters in the published application. Furthermore, levels 3 and 4 Kanji characters will not be shown in the JIS90 environment.

Further information on this change and a list of the Kanji characters affected are available at:

www.wipo.int/pct-safe/en/support/user\_documentation.htm

#### **Practical Advice**

# Consequence of excluding a designation of a State under PCT Rule 4.9(b) where there is no claim of priority of an earlier national application filed in that State

Q: I filed a number of international applications claiming the priority of earlier applications filed in Germany. In those applications, the relevant check-box in Box No. V of the request form was marked, in accordance with the provisions of PCT Rule 4.9(b), to exclude the designation of Germany. I subsequently filed another international application in which that box was marked, even though the international application did not claim the priority of an earlier application filed in Germany (it claimed the priority of an application filed in Austria). What will be the consequence of the box being checked? Is it still possible to designate Germany?

A: It is recalled that PCT Rule 4.9(b) was adopted to accommodate the situation where the national law of certain countries (at the time of writing this: Germany, Japan, the Republic of Korea and the Russian Federation) provides for automatic withdrawal of an earlier national application if a later-filed international application claims the priority of that earlier national application and designates that State; in such cases, the applicant can exclude the State concerned from the automatic and all-inclusive designation of all PCT Contracting States under PCT Rule 4.9(a), thereby maintaining the priority application.

Even though you have excluded the designation of Germany, under PCT Rule 4.9(b) you may only exclude the designation of such a State in Box No. V *if the priority of an earlier national application filed in that State is claimed in Box No. VI*. Therefore, if, on the date of filing, the request part of your international application contains an indication under Rule 4.9(b) that the designation of Germany is not made, but does not contain a priority claim to an earlier national application filed in that State, you should be notified by the receiving Office, and your attention drawn to Rule 26bis ("Correction or Addition of Priority Claim") to give you the opportunity to add any missing priority claim, in case the lack of priority claim is due to an omission on your behalf. In accordance with Section 319 of the Administrative Instructions under the PCT, if, by the expiration of the time limit under Rule 26*bis*.1(a), the receiving Office has not received any notice correcting or adding a priority claim to an earlier national application filed in Germany, it will cancel *ex officio* the indication in Box No. V, and the designation of Germany would thereby be reinstated. The receiving Office would then notify you and the International Bureau, by way of PCT Form PCT/RO/146, that it had cancelled *ex officio* the indication in Box No. V. It would therefore not be necessary for you to take any action in this situation.

Notwithstanding, there would be nothing to prevent you from notifying the receiving Office as soon as you realize that the designation of Germany has been erroneously excluded, and confirming to them that the international application does not claim the priority of an earlier national application filed in Germany. This would streamline the correction procedure (the receiving Office would not have to issue the first notice referred to in the preceding paragraph) and ensure that the receiving Office applied Section 319(b) of the Administrative Instructions directly.

Note that the above would equally apply should a similar situation arise where the designations of Japan, the Republic of Korea or the Russian Federation have been erroneously excluded.

For further information on the implications of PCT Rule 4.9(b), see the Practical Advice published in *PCT Newsletter* Nos. 11/2003 and 04/2006.

## PCT Fee Tables

#### (amounts on 1 January 2008, unless otherwise indicated)

The following Tables show the amounts and currencies of the main PCT fees which are payable to the receiving Offices (ROs) and the International Preliminary Examining Authorities (IPEAs) during the international phase under Chapter I (Tables I(a) and I(b)) and under Chapter II (Table II). Fees which are payable only in particular circumstances are not shown; nor are details of certain reductions and refunds which may be available; such information can be found in the *PCT Applicant's Guide*, Annexes C, D and E. Note that all amounts are subject to change due to variations in the fees themselves or fluctuations in exchange rates. The international filing fee may be reduced by CHF 100, 200 or 300 where the international application, or part of the international application, is filed in electronic form, as prescribed under Item 3(a), (b), (c) and (d) of the Schedule of Fees (annexed to the Regulations under the PCT) and the *PCT Applicant's Guide*, paragraph 202(A). A 75% reduction in the international filing fee (including the fee per sheet over 30) and the handling fee, as well as an exemption from the transmittal fee payable to the International Bureau as receiving Office, is also available to applicants from certain States—see footnotes 2 and 12. (Note that if the CHF 100, 200 or 300 reduction, as the case may be, and the 75% reduction are applicable, the 75% reduction is calculated **after** the CHF 100, 200 or 300 reduction.) The footnotes to the Fee Tables follow Table II.

#### Footnotes to fee tables:

- 1 Payable to the receiving Office in the currency or one of the currencies prescribed by it.
- 2 This fee is reduced by 75% where the applicant or, if there are two or more applicants, each applicant fulfills the criteria indicated on the PCT Resources page of PatentScope at: www.wipo.int/pct/en/fees/fee\_reduction.pdf
- 3 Where the PCT application as filed contains a sequence listing part in computer readable form only, or both in that form and on paper, under Section 801 of the Administrative Instructions under the PCT, and where that application is filed with a receiving Office which is prepared to accept such filings, a fixed component of 400 times the fee per sheet over 30 is payable for the sequence listing part, irrespective of the actual length of that part (see Section 803(ii) of the Administrative Instructions).
- 4 For the search fee payable to the receiving Office, consult the entry in Table I(b) for the competent International Searching Authority.
- 5 If the international application is filed on paper together with a copy in electronic form, in character coded format, of the request and the abstract.
- 6 If the international application is filed in electronic form, the request not being in character coded format.
- 7 If the international application is filed in electronic form, the request being in character coded format.
- 8 If the international application is filed in electronic form, the request, description, claims and abstract being in character coded format.
- 9 The amounts are not yet known or, where known, are subject to periodical revision. The Office or the agent should be consulted for the latest applicable schedule of fees.
- 10 This fee is reduced by 80% where the applicant is a natural person.
- 11 The first amount of the transmittal fee is applicable to individuals or entities employing less than 25 persons. The second amount is applicable to entities employing 25 persons or more.
- 12 This fee is not payable in respect of international applications filed by applicants fulfilling the conditions indicated on the PCT Resources page of PatentScope at: www.wipo.int/pct/en/fees/fee\_reduction.pdf
- 13 The competent International Searching Authority(ies) for an international application filed with the International Bureau as receiving Office is (are) the Authority(ies) which would have been competent if the international application had been filed with the receiving Office of, or acting for, the Contracting State of which the applicant (or any of the applicants) is a resident or national. See also *PCT Applicant's Guide*, Annex C (IB).
- 14 The Japan Patent Office is competent only for international applications in Japanese.
- 15 Plus EUR 1.50 for the preparation of additional copies, for each page and each copy.
- 16 Plus MYR 45 for each sheet in excess of 30.
- 17 Plus 12.5% GST (Goods and Services Tax) for New Zealand residents.
- 18 The Korean Intellectual Property Office is competent for international applications, the declared priority date of which or, if there is no declared priority date, the date of filing of which is on or after 2 June 2006.
- 19 The search fee payable to the EPO and the Spanish Patent and Trademark Office, as well as the preliminary examination fee payable to the EPO, are reduced by 75% where the applicant or, if there are two or more applicants, each applicant is a natural person and is a national of and resides in a State not party to the European Patent Convention, which fulfils the requirements for the corresponding reduction of certain PCT fees as specified in Item 4(a) of the Schedule of Fees annexed to the PCT Regulations, and in accordance with the decision of the EPO's Administrative Council of 11 October 2000, the text of which was included in *PCT Newsletter* No. 11/2000. The States concerned are those indicated in part 1 of the table on the PCT Resources page of PatentScope at: www.wipo.int/pct/en/fees/fee\_reduction.pdf, with the exception of Bulgaria, Croatia, the Czech Republic, Estonia, Hungary, Lithuania, Poland, Romania, Slovakia and Turkey.
- 20 The applicant may, instead of paying the USD amount, pay the equivalent amount in RUR at the exchange rate applicable, on the date of payment, at the Central Bank of the Russian Federation, provided that, in the case of the search fee, the receiving Office accepts payment in RUR.
- 21 Payable to the International Preliminary Examining Authority in the currency or one of the currencies prescribed by it.
- 22 Payable when the international search report was not issued by the Australian Patent Office.
- 23 Payable when the international search report was established by the Federal Service for Intellectual Property, Patents and Trademarks (Russian Federation).
- 24 In all cases where footnote 23 does not apply.
- 25 Payable when the international search was not carried out by the United States Patent and Trademark Office (USPTO) (provided that the USPTO is a competent International Preliminary Examining Authority in the particular case—see PCT Applicant's Guide, Annex C (US)).

#### PCT Contracting States and Two-letter Codes (138 on 1 January 2008)

1 Extension of European patent possible.

2 May only be designated for a regional patent (the "national route" via the PCT has been closed).

Where a State can be designated for a regional patent, the two-letter code for the regional patent concerned is indicated in parentheses (AP = ARIPO patent, EA = Eurasian patent, EP = European patent, OA = OAPI patent).

#### Important:

This list includes all States that have adhered to the PCT by the date shown in the heading. Any State indicated in **bold italics** has adhered to the PCT but will only become bound by the PCT on the date shown in parentheses; it will not be considered to have been designated in international applications filed before that date.

Note that even though the filing of a request constitutes under PCT Rule 4.9(a) the designation of all Contracting States bound by the PCT on the international filing date, for the grant of every kind of protection available and, where applicable, for the grant of both regional and national patents, applicants should always use the latest versions of the request form (PCT/RO/101) and demand form (PCT/IPEA/ 401) (the latest versions are dated April 2007) or, if filing the request using the PCT-EASY features of the PCT-SAFE software, the latest version of that software (which is available at: www.wipo.int/pct/safe). The request and demand forms can be printed from the website, in editable PDF format, at: www.wipo.int/pct/en/forms/, or obtained from receiving Offices or the International Bureau, or, in the case of the demand form, also from International Preliminary Examining Authorities.
