

PatSeer

Redefining Patent Research, Analysis,
Project Management & Collaboration

Gridlogics is glad to provide access to PatSeer Premier Edition as a part of the World Intellectual Property Organization's (WIPO) Access to Specialized Patent Information (ASPI) program

About Gridlogics

Gridlogics is a pioneering end-to-end intellectual property solutions provider whose solutions use proprietary and cutting edge text mining and visualization capabilities to aid IP research and analysis. The company has been involved in providing specialized patent search and analysis software solutions to the Intellectual Property community over the last decade.

Gridlogics has more than 100 man- years of experience in Intellectual Property Software and has a strong in-house team of developers and engineers who understand the complexities involved in designing very large patent databases, patent management systems, and searchable index with all associated features around it. For more information visit: www.gridlogics.com

Gridlogics has two key products for patent professionals - PatSeer™ (Online Patent Research Platform) and Patent iNSIGHT Pro™ (Patent Analytics Software). Its flagship product [Patent iNSIGHT Pro](#) is a comprehensive patent research and analysis platform.

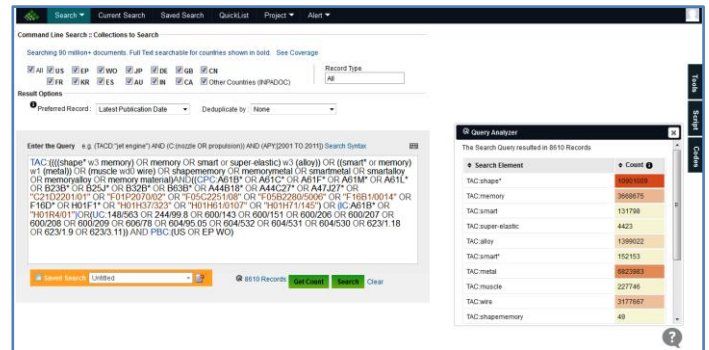

PatSeer Introduction

[PatSeer](#) is a complete online global patent database and research platform with integrated analytics, project workflow, and collaboration capabilities. It provides the following business benefits to users:

- Coverage includes 19+ countries full-text coverage and 102+ countries Bibliography data, Corporate Tree, Machine translations, Legal Status, and more
- Finalize search strategy quickly with more than 187+ search fields
- Different views to quickly scan through large result sets or dig deeper into details of each record thus reducing time to analyze
- Powerful analytics capabilities built from feedback of reputed analysts from the industry, as a result solving complex IP questions with ease
- Get work done with PatSeer Projects where you invite collaborators (external search firm/counsels), setup Patent Dashlets™ (business dashboards) for R&D/management, and create workflows for ongoing tasks
- Easily involve stakeholders, implement project workflows, and reduce your collaboration and project management costs with PatSeer Project Sharing

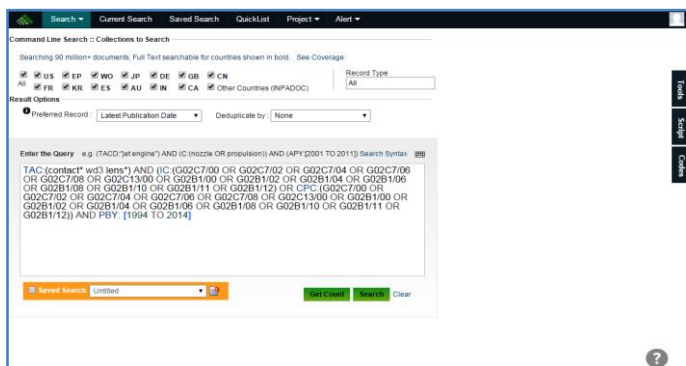

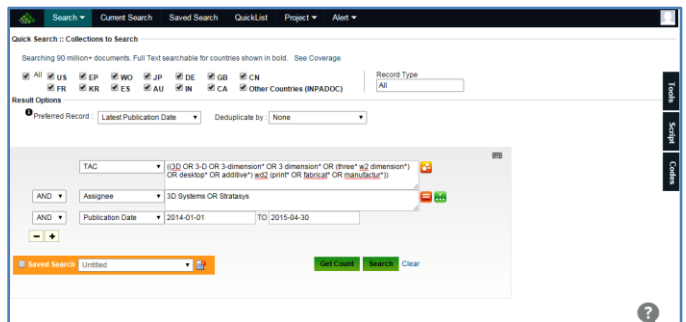

Searching in PatSeer

- Easy to use search forms to suit different types of users
- Search full-text in Original Language (incl. Non Latin Text) and English. Legal Status Search enhancements include date range, Event, Event Country (Incl. Designated Country Code events for EP,WO)
- Fully featured Search Syntax with 187+ search fields
- No compromise on search techniques – Proximity, complex Boolean with proximity, command line searching, Search Scripting, wildcards, left & middle truncation, hit count cutoff, Natural Language Search
- Integrated Multi-lingual Stemmer that supports stemming across English, German, French, Spanish, Russian and Swedish language content

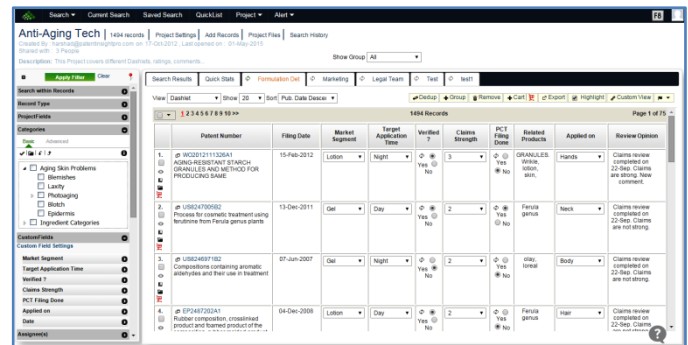

Tools to make Patent Searching easier

- Collapse results by Simple/Extended family or by Application Number
- Convert search queries from other databases to PatSeer using the Syntax converter
- View the exact count contributed by each element in search query
- Lookup a compound, drug or registry number and view name equivalents
- Look up Matching Assignee /Inventor names
- See keywords or concepts that are related to search term and improve search precision
- IPC/US/CPC Classification Definition Search
- Term Index Lookup & integrated search term translator to quickly translate any search term

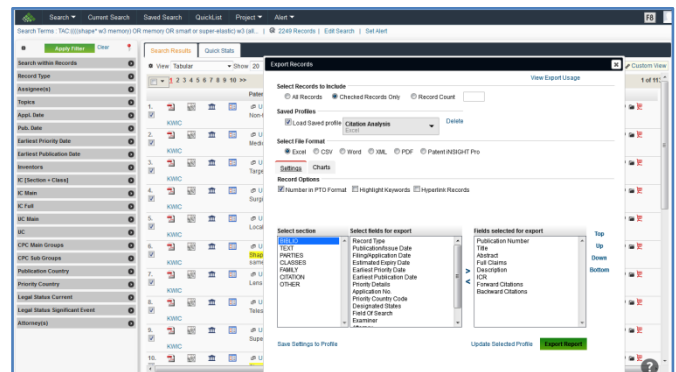

Sharing and Collaborating using PatSeer Projects

- Save and analyze up to 50K records in a project
- Import your Meta data from CSV /Excel files
- Import external records/ journals/ non-patent literature from list of supported files.
- Leverage flags, ratings, custom fields, hierarchical categories to add context to your analysis
- Share and Collaborate project data effectively using Patent Dashlets™

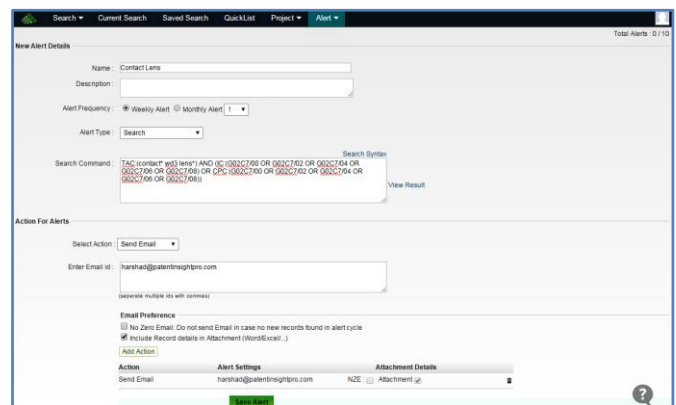

Exporting Results

- Multiple Export formats including Word/Excel/CSV/PDF/XML/Patent iNSIGHT Pro format
- Charts can also be included in Word and Excel exports
- Export all the family members for each record instead of just the record in the result set when working with SFAM/EFAM deduped results sets
- Export the publication number of the record as per the format followed by its respective patent office

Monitoring and Alerts

- Create weekly or monthly search alerts
- Setup Record Monitors to track changes to any record
- Receive record details of each alerts result in the form of Word/Excel/CSV and XML files

PatSeer Customer Testimonial

“We find Gridlogics support excellent – platform issues are resolved quickly while our new feature requests were either road mapped into their product – and actually delivered or workarounds offered.”

- IP Searcher

“We have been utilizing PatSeer from couple of years and find it to be very useful. It has a very easy to use interface, and has enough customization to fit a variety of needs.

We have also been extremely pleased with the regular updates to the software and the seamless service provided by Gridlogics. I would highly recommend this for anyone who manages a patent portfolio or needs organized access to patent filings.”

- VP, Software Company
