Invention: **Wheel Chair with Lights**

Organizer: Office of the Registrar-General and Master of the High Court

Other information: This invention relates to a wheel chair, more particularly, to a wheel chair with lights. The invention has attached to it lights that can be easily switched on by the wheelchair operator. The inventor foresees that the disabled operator can switch on the lights in the event that there is a power failure of main lights in the buildings or the operator is in dark areas.
