Name: **Yuen-May Choo**  
Date of birth: December 1955

Category: Best Woman Inventor

Title of award: WIPO Gold Medal

Occasion of award: 22nd International Exhibition of Inventions, New  
Techniques and Products  
Place: Geneva, Switzerland  
Date: April 15 to 24, 1994

Invention: **A novel process for the production of carotene  
enriched red palm oil**

Organizer: Organizing Committee of the International Exhibition of  
Inventions, Geneva, Switzerland

Other information: Palm oil and its products, which are marketed, are light  
gold in color and devoid of carotenes, as the current  
physical refining process destroys all carotenes (pro-  
vitamin A) present in crude palm oil. Thus a novel  
process for the production of carotene-enriched red palm  
oil has been developed. Red palm oil is a new nutritious  
product enriched in carotenes and vitamin E - the only  
commercially available oil with these two micronutrients.
