

This document has been prepared to provide detailed information regarding the changes to wo-published-application.dtd when migrating from version 1.5 to 1.6 (July 2008).

It also contains information pertaining to pag.lst, declaration-v-1-5.dtd and the DVD index file.

The table below lists the changes in wo-published-application.dtd, referencing their PFC item numbers and giving the a short description as to whether the users of wo-published application can expect to see a substantive change in the delivered XML files as a result. In the cases where the DTD elements have been changes for use in other patent documents and the elements are optional child elements of elements used in wo-published-application it is normal to expect that the resultant XML files will not be different from those conforming to the previous DTD. Such changes are identified in the table below as 'No change' in the third column of the table.

Specific comments (repub codes)

Reference	Change from PFC	wo-published application XML practical change
PCT/EF/PFC 08/001	<p>Updates to DTD relating to power of attorney (attorney-or-agent Multiple addresses)</p> <p>Change: <!ELEMENT attorney-or-agent (addressbook , range-of-authority*)> To: <!-- addresssbook is referenced one or more times to support multiple representations of the same address in the case where it is necessary to supply transliterations of the same address. --> <!ELEMENT attorney-or-agent (addressbook+ , range-of-authority*)></p>	No Change

PCT Circular 1127-76	<p>Republication codes – the republication code R7 will no longer be used. At the time of authoring of the Circular more extensive changes were envisaged; however these changes have been deferred until a later date.</p>	<p>R7 republication code will no-longer be used.</p>
PCT Circular 1127-76	<p>Changes to pag.lst</p>	<p>The only practical change to this file is to the contents (not format) and is consequential to the removal of the page with indications relating to the deposit of biological material. This change will cause the count of drawings pages to be reduced (normally by 1) for cases that have a biological indications page (no longer included in the single document to which pag.lst pertains).</p>
PCT Circular 1127-76	<p>Changes to index files on DVDs</p>	<p>The DTD for this file has changed as the list of kinds of documents supported has been extended. Please refer to the document PCT publication products content matrix.pdf, and the DTD: dvd-index.dtd version 1.2 both of which are available on the</p>

		page referring to the 2008 publication changes on the WIPO website.
Correction	Changes to declaration document WADs	Declarations have been sent until this change using a superseded DTD (declaration_c.dtd). This will be corrected in this change and the Annex F DTD declaration-1-5.dtd (supplied in draft form as declaration-1-4a.dtd until formally promulgated) will be used.
Correction	Change to package data XML when other-doc elements are present	In the existing XML the document-name element was being incorrectly placed as a child of other-documents elements; this will be changed so that it is correctly sent as a child of other-doc elements.
