This international-type search report has been prepared by this International Searching Authority and is transmitted to the applicant.

This international-type search report consists of a total of __________ sheets.

☐ It is also accompanied by a copy of each prior art document cited in this report.

1. **Basis of the report**
   a. With regard to the **language**, the international-type search was carried out on the basis of:
      ☐ the application in the language in which it was filed.
      ☐ a translation of the application into _____________________________ which is the language of a translation furnished for the purposes of the international-type search.

   b. ☐ This international-type search report has been established taking into account the **rectification of an obvious mistake** authorized by or notified to this Authority under Rule 91.

   c. ☐ With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, see Box No. I.

2. ☐ **Certain claims were found unsearchable** (See Box No. II).

3. ☐ **Unity of invention is lacking** (See Box No. III).
1. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, this international-type search was carried out on the basis of a sequence listing filed or furnished:

   a. (means)
      - on paper
      - in electronic form

   b. (time)
      - in the application as filed
      - together with the application in electronic form
      - subsequently to this Authority for the purposes of search

2. In addition, in the case that more than one version or copy of a sequence listing has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

3. Additional comments:
Box No. II  Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international-type search report has not been established in respect of certain claims for the following reasons:

1.  □  Claims Nos.:  because they relate to subject matter not required to be searched by this Authority, namely:

2.  □  Claims Nos.:  because they relate to parts of the national application that do not comply with the prescribed requirements to such an extent that no meaningful international-type search can be carried out, specifically:

Box No. III  Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this national application, as follows:

1.  □  As all required additional search fees were timely paid by the applicant, this international-type search report covers all searchable claims.

2.  □  As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.

3.  □  As only some of the required additional search fees were timely paid by the applicant, this international-type search report covers only those claims for which fees were paid, specifically claims Nos.:

4.  □  No required additional search fees were timely paid by the applicant. Consequently, this international-type search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest  □  The additional search fees were accompanied by the applicant’s protest and, where applicable, the payment of a protest fee.

□  The additional search fees were accompanied by the applicant’s protest but the applicable protest fee was not paid within the time limit specified in the invitation.

□  No protest accompanied the payment of additional search fees.
INTERNATIONAL-TYPE SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base, and, where practicable, search terms used)
