C. SCIT 2456
03

Le 2 août 1999

Objet : Citation, selon la norme ST.14 de l'OMPI, des documents de propriété industrielle autres que les documents de brevet (tâche n° 40)

Madame,
Monsieur,

Lors de sa deuxième session, le SCIT plénier a examiné une proposition du Groupe de travail sur les normes et la documentation (SDWG) relative à la citation des documents de propriété industrielle autres que les documents de brevet. Le SCIT plénier a convenu de créer la tâche n°40 ainsi libellée :

“Étudier s’il y a lieu de faire figurer dans la norme ST.14 des directives concernant la manière de citer les documents de propriété industrielle autres que les documents de brevet, par exemple les documents de dessin ou modèle industriel”

et de l’assigner au SDWG (voir le paragraphe 14 du document SCIT/2/8).

La version actuelle de la norme ST.14 (qui a été adoptée par le SCIT plénier le 12 février 1999) contient des directives concernant la manière de citer des documents de brevet et la littérature non-brevet. Le Bureau international suppose que les examinateurs de brevets des offices de propriété industrielle préfèrent élargir la portée de la norme ST.14 de manière qu’elle vise aussi les documents de dessin ou modèle industriel, plutôt que d’élaborer une nouvelle norme de l’OMPI contenant des directives sur la manière de citer ces documents. Le Bureau international est favorable à l’idée que les examinateurs de brevets n’aient qu’une seule source à consulter lorsqu’ils cherchent des directives applicables à la citation des documents.

/...

C'est pourquoi le Bureau international a élaboré une version modifiée de la norme ST.14, qui figure à l'annexe de la présente circulaire (voir le dossier de projet SCIT/P 4/99). Dans ce nouveau texte, les parties nouvelles, modifiées ou supprimées sont signalées par un trait vertical dans la marge de droite de chaque page. Le Bureau international saurait gré à votre office de lui communiquer des exemples supplémentaires destinés à figurer dans le paragraphe 3.b) du texte proposé de la norme ST.14.

Si votre office juge nécessaire de faire figurer des dispositions relatives à d'autres documents de propriété industrielle dans la norme ST.14 de l'OMPI, je vous serais reconnaissant de faire parvenir au Bureau international des exemples pertinents déjà utilisés comme références par les examinateurs de brevets, dans un rapport de recherche joint à un document de brevet ou sur la première page de ce document. Vous voudrez bien noter qu'il est envisagé d'examiner la version modifiée de la norme ST.14 lors de la deuxième réunion commune des groupes de travail du SCIT, qui doit se tenir dans la semaine du 6 au 10 décembre 1999.

Votre office est invité à faire parvenir au Bureau international, le 30 octobre 1999 au plus tard, des observations sur le mode d'approche choisi et les modifications qu'il est proposé d'apporter à la norme ST.14. Vous voudrez bien, de préférence, faire parvenir ces observations par courrier électronique à notre adresse "scit.mail@wipo.int", en indiquant le numéro de la présente circulaire.

Veillez agréer, Madame, Monsieur, les assurances de ma considération distinguée.

K.-P. Wittig
Directeur adjoint
du Département des services
d'information interoffices

SCIT/P 4/99 Rev.1

ANNEX 3/ANNEXE 3

From: <Dave.Herald@ipaustrialia.gov.au>
To: "(SCIT.mail)" <scit.mail@wipo.int>
Date: Tue, Aug 17, 1999 2:56 PM
Subject: re Circular C.SCIT 2456

To: "(SCIT.mail)" <scit.mail@wipo.int>
cc: Bill Major, Vivienne Thom, Ed Knock

We have reviewed the proposed changes to ST14, and offer the following observations.

1. The example given of how to cite an industrial design document appears to provide extra information over the elements which the guidelines state must be indicated in that it gives the name of the document in which publication takes place, namely International Designs Bulletin February 1995 N0. 2.
2. Our office does not often cite industrial design documents in patent searches. If a design is cited, it will only be an Australian registered design. According to draft ST.14 the manner of citing of those documents would seem to be analogous to the citing of patent documents except that there is no symbol provided indicating the kind of document. We are thus unable to provide you with any useful additional examples for inclusion in paragraph 13(b) of ST.14.
3. At this time we do not see any need for including provisions concerning other IP documents in ST.14

Re.: Citation of industrial property documents other than patent documents within WIPO
Standard ST.14 (Task No. 40)
Your Circular C.SCIT 2456/03 of August 2, 1999

Dear Mr. Wittig,

On principle, the German Patent and Trademark Office welcomes the proposal of introducing rules for the citation of registered industrial designs in WIPO Standard ST.14. Nevertheless, we would like to suggest some amendments:

- The heading of subparagraph 13 b) should read
“In the case of registered industrial designs”
since most of the offices do not publish respective documents.
- Since industrial designs registrations often are published in respective gazettes we propose rewording subparagraphs (iv) and (v) as follows:

(iv) where applicable, title of the gazette in which the registration was announced and the issue designation of the gazette

(v) date of publication using four digits for the year designation (where year, month and day are available, the provisions of WIPO Standard ST.2 should be applied)

In addition the following new subparagraphs are proposed:

- (vi) where applicable, the pagination of the announcement of the registration
- (vii) if considered necessary; the standard identifier and number assigned to the item, e. g. ISSN 0250-7730.

In the following please find an additional example for the citations of registered industrial designs.

DE M 94 01 995.9, Geschmacksmusterblatt, Heft 15, 10.08.1994, S. 3810

This citation was taken from an existing DE patent document and reformatted according to the rules above. Copies of the title page of the patent document and the respective page of the gazette are attached to the paper version of this letter.

Sincerely yours,

For the absent head of Department of Information, Documentation, DEPATIS,
Mr. Thomas Hammer

Joachim Pretzsch
Head, Information Services Division

Re: Citation of Industrial property documents other than patent documents
Within WIPO Standard ST 14 (Task No.40)

Dear Mr.Wittig,

In reply to your letter C.SCIT 2456/03 of August 2, 1999 I would like to express the approval of the Bulgarian Patent Office on the approach taken and the proposed amendments in Standard ST.14 in general. However we have noticed that on page 5, Annex 1 (page 3.14.1 of the Standard ST.14) in item (b) the kind of the industrial design document is not included. As this information on our opinion is necessary for data completeness and clarity in the search process we feel that it should be inserted into this item. According to our proposal item (b) may be changed as follows:

"(b) In the case of an industrial design document

- (i) the industrial property office that issued the cited document*
- (ii) the serial number of the registration of the number*
- (iii) the kind of industrial design document (plain language designation)
- (iv) the name of the applicant or owner*
- (v) the date of publication of the cited document*
- (vi) where applicable, the pages*"

We think that in this form item (b) is more appropriate for the needs of industrial property information.

Thank you very much for your kind attention and our good cooperation.

Sincerely yours,
Anna Nenova
Head Patent Information and
Documentation Department

Re: Citation of industrial property documents other than patent documents within WIPO Standard ST. 14

Dear Sir,

According to your letter C. SCIT 2456/03 we would like to inform you that there are no comments to the proposed version of the WIPO Standard ST. 14.

For the purposes of inclusion in the text of the Standard, we are sending you the following examples of the Czech industrial designs published in the Official Buřietin "Vestník".

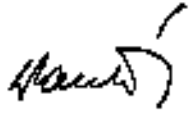

Example No. 1:

CZ 28743 (KOLÁR.L. and LEMBERK, L.) 1999-07-14. Vestník část A - Úřad průmyslového vlastnictví - Česká republika, No. 7/1999, page 139, designs 1.1 and 1.2, ISSN 1211-4197

Example No. 2:

CZ 28814 (CRYSTALEX A. S.) 1999-08-11, Vestník část A - Úřad průmyslového vlastnictví - Česká republika, No. 8/1999, pages 168 and 169, designs 1.1, 5.1, 8.1, 10.1, ISSN 1211-4197.

Sincerely yours,

Re: Citation of industrial property documents other than patent documents
within WIPO Standard ST.14 (Task No. 40)

Dear Deputy Director,

In response to your Circular SCIT 2456 dated August 2, 1999, I would like to submit the comments of the Austrian Patent Office on the proposed amendments of WIPO Standard ST.14 as set out below.

We support the proposed approach of the International Bureau to include new guidelines for the citation of industrial design documents in WIPO Standard ST.14 rather than to elaborate a new WIPO Standard because of the same reasons which were mentioned in your Circular.

With regard to drafted amended version of ST.14 as given in project file SCIT/P 4/99 we can agree on it in general but would like to propose the following minor amendments:

Paragraph 4, third line: insertion of "and 4(b)" after "4(a)".

Annex 1, page 6, example 4: replacement of "EPO" by "EPOQUE" which is the commonly used name for the EPO database.

At present we regrettably cannot provide respective examples for the citation of documents referring to industrial designs.

Sincerely yours,

i.A. HR Dipl.-Ing. K. Wolf
Presidential Department II
Austrian Patent Office

Dear Sir,

With relation to the circular SCIT 2456/03 of August 2, 1999, the Netherlands Industrial Property Office would like to inform you that it has no objection to the approach taken by the International Bureau in amending WIPO Standard ST. 14.

It should, however, be reminded that WIPO Standard ST.14 only deals with the inclusion of references cited in patent documents (emphasis added by NL). The Standard therefore is not the general place for provisions how to cite industrial design documents.

Yours sincerely,

S. de Vries
Head Chemical Division

Re: Citation of industrial property documents other than patent documents
within WIPO Standard St.14 (Task No. 40)

Dear **Mr. Wittig**,

Referring to the Circular C.SCIT 2456 of the International Bureau, please find below our comments.

Hungarian Patent Office fully agrees with the extension the scope of WIPO Standard ST.14 to also industrial design documents, but does not see a need for including provisions concerning other I.P. documents in it.

Our Office supports the text of the amended version of Standard ST.14 drafted by the International Bureau, and provides additional examples for possible inclusion in paragraph 13(b) of the proposed text of the said Standard.

Example

to SCIT/P 4/99, Annex 1, page 5, 13(b)

HU D9900111 (HAJDÚTEJ TEJIPARI RT, DEBRECEN) 1999-09-28, Gazette of Patents and Trademarks of the HPO September 1999, Vol. 103, No. 9, page 2055, HU ISSN 0039-8071.

Example

to SCIT/P 4/99, Annex 1, page 10. Paragraph 14

Re: WIPO SCIT Circular 2456 – Citation of industrial property documents other than patent documents within WIPO Standard ST.14 (Task No. 40)

Dear Mr. Wittig:

The U.S. Patent and Trademark Office (USPTO) agrees with the proposal by the International Bureau to expand the scope of WIPO Standard ST.14 to cover industrial design documents. The proposed text changes and examples suggested by the International Bureau will be helpful to examiners in citing industrial design documents in a consistent manner.

After a review of US patent documents, a number of other intellectual property documents were found to have been cited by US examiners. Registered trademarks, published pending trademark applications, service marks, published service mark applications and copyright registrations are some of the intellectual property documents which have been cited by US utility and design examiners (see examples enclosed). It is expected that examiners from other offices probably have made citations for other types of intellectual property documents.

In order to avoid creating additional paragraphs in Standard ST.14 to cover each type of intellectual property office document, it would be better to provide a single subparagraph similar to the proposed subparagraph 13(b) for industrial designs. In fact, with only minor modifications, proposed subparagraph 13(b) could cover a wide variety of intellectual property office documents instead of just industrial designs. Please note that the term “intellectual” rather than “industrial” property office is used intentionally so that a wider variety of documents, e.g., copyright registrations, etc., can be covered. The industrial design example, as modified, can remain unless additional examples are available.

It is hoped that the suggested text will cover all remaining intellectual property documents so that WIPO Standard ST.14 does not need to be continually modified to take into account each different type of publication. Likewise, it is desirable to minimize the number of different subparagraphs under paragraph 13. This is particularly a concern when the contents of the subparagraphs are nearly identical.

Sincerely,

/Robert W. Saifer/

Robert W. Saifer, Director
International Liaison Staff

Enclosures

- Proposed revision to subparagraph 13(b)
- US utility patent US 5920970 A showing a citation of a US trademark registration
- US design patent US D298144 S showing a citation of a US service mark registration
- US design patent US D395021 S showing citations of US copyright registration, US trademark application and US service mark application documents.

Suggested modifications to the text of proposed subparagraph 13(b) follow.

(Additions are underlined and deletions are in ~~strike through~~ font.)

"(b) *In the case of an published intellectual property office document, e.g., industrial design, registered trademark, published pending trademark and registered copyright documents, not specifically provided for elsewhere under paragraph 13:*

(i) the ~~industrial~~intellectual property office that issued the cited document, by the two-letter code (WIPO Standard ST.3);

(ii) the serial number of the registration or the number of the document as given to it by the ~~industrial~~intellectual property office that issued it;

(iii) the type of intellectual property office document (e.g., Industrial Design, Trademark Registration, Trademark Application; Copyright Registration, etc.);

(~~iii~~iv) ¹ the name of the applicant or owner (in capital letters and, where appropriate, abbreviated); ³

(iv) the date of publication of the cited document (using four digits for a year designation according to the Gregorian Calendar);

(vi) ¹ where applicable, the pages, columns or lines where the relevant passages appear, or the relevant reproduction of ~~the industrial~~ a design (e.g., drawings, photographs).

The following examples illustrate the citation of an industrial design document according to paragraph (b), above:

Hypothetical Example-4: WO DM/032099, Industrial Design, (POWER-PACKER EUROPA B.V.) ~~13.02-1995-02-13~~, International Designs Bulletin February 1995, No. 2, pages 752 and 753, deposits 1.1 and 1.3, ISSN 0250-7730."

[57] **ABSTRACT**

Method of making an anti-slip lace for tying wearing apparel items such as shoes comprises an elongated woven tubular member that has internal spaced raised projections along its length wherein the raised projections are blobs of acrylic paint and a round lace is formed by inverting a flat woven tubular lace that had the paint blobs applied to the exterior surface.

[57] **CLAIM**

The ornamental design for a novelty duck call, as shown and
described.

DESCRIPTION

FIG. 1 is a front side elevational view of a novelty duck call,
according to the invention;
FIG. 2 is a right side elevational view thereof;
FIG. 3 is rear side elevational view thereof;
FIG. 4 is a left side elevational view thereof;
FIG. 5 is a bottom plan view thereof;
FIG. 6 is a top plan view thereof; and,
FIG. 7 is a perspective view thereof.

[57] **CLAIM**

The ornamental design for an icon for voice file or the like, as shown and described.

DESCRIPTION

FIG. 1 is a face view of an icon for voice file or the like showing our new design in display position;
FIG. 2 is a face view of the icon alone;
FIG. 3 is a face view of a smaller embodiment of the icon; and
FIG. 4 is a face view of the icon on an enlarged scale. The broken line showing of a partial half tone display screen in FIG. 1 is for illustrative purposes only and forms no part of the claimed design.

ANNEX 17/ANNEXE 17

From: "Zuzana Hanculakova" <zhanculakova@indprop.gov.sk>
To: <SCIT.mail@wipo.int>
Date: Thu, Oct 28, 1999 2:45 PM
Subject: C. SCIT 2456/03

Dear Mr. Wittig,

In response to your circular C.SCIT 2456/03 we are pleased to inform you, that Industrial Property Office of the Slovak Republic agrees with the proposed text of amended ST.14, which contains provisions on how to cite apart from patent documents and non-patent literature also industrial design documents. We suppose, that patent examiners will appreciate expanding the scope of the Standard in this sense.

Sincerely yours,
Rastislav Mar_ok
Director of Patent

Documentation Dept.

SCIT/P 4/99 Rev.1

ANNEX 18/ANNEXE 18

From: _____ <MKryukova.ag@rupto.ru>
To: <scit.mail@wipo.int>
Date: Fri, Oct 29, 1999 4:38 PM
Subject: C.SCIT 2456

Dear Mr.Wittig,

Referring to the circular C.SCIT 2456 of August 2, 1999 I would like to inform you that the Russian Agency for Patents and Trademarks has no objection against inserting to the version of WIPO Standard ST.14 provisions on how to cite industrial design documents.

Nevertheless, regarding the process of industrial design examination, this Office considers it advisable to amend the text drafted by the International Bureau according to the notes below.

1. The heading of the Standard may be given in the following wording: "Recommendation for the inclusion of references cited in patent and industrial design documents".
2. Paragraph 12 needs to be added with another example providing a sequence of documents cited for industrial designs.
3. Since the category codes under paragraph 15 are intended for inventions it would be recommended to consider the necessity to develop and add another list of category codes specified for industrial designs.

Sincerely yours,

A.Gvinepadze
First Deputy Director
Federal Institute of
Industrial Property
Rospatent

[Annex 19 follows/
L'annexe 19 suit]

Ref: Circular C. SCIT 2456/03, fechada el 2 de agosto de 1999, sobre citación de documentos de propiedad industrial distintos de los documentos de patente, en el marco de la Norma ST.14 de la OMPI (Tarea N° 40).

Tenemos los siguientes comentarios a la Circular de la referencia, en relación con el texto revisado de la ST.14 presente en el documento SCIT/P 4/99:

- En el ph. 13(b) (ii) se debería reflejar la posibilidad de citar el número de la solicitud del modelo o dibujo industrial, por ser la solicitud en algunas Oficinas las que se publican de forma mas completa, como en el caso de España que efectúa dicha publicación para oposiciones y por implicar el número de solicitud el código identificador del título de propiedad industrial previsto en la Norma OMPI ST.13 (códigos “f” y “q” para dibujos u modelos industriales respectivamente) . Por ello, proponemos sustituir el texto de dicho apartado por el siguiente:
 - (ii) *“the serial number of the application with the code of type of industrial property right as indicated on the document under WIPO Standard ST.13;”*

- Dado que los modelos y dibujos industriales se publican frecuentemente como entradas en boletines oficiales de propiedad industrial proponemos la inclusión en el ph. 13(b) de un nuevo apartado (v) con el siguiente texto:
 - “(v) *where applicable, identification of the serial publication where the industrial design has been published;”*
