

Release Notes

For Version 2.0 of Annexes A and C to WIPO Standard ST.36

(adopted on September 15, 2008)

1. The ST.36 Task Force revised Annexes A and C to WIPO Standard ST.36 to align with the changes made to Annex F of the PCT Administrative Instructions via the Annex F Proposals For Change (PFCs) process from 2005 to 2007. The said Annexes were also revised to reflect the five PFRs ST.36/2008/001, 003, 004, 006 and 008 that were adopted by the ST.36 Task Force from March to August 2008 (see paragraph 3, below).

2. With reference to the changes made to the above-mentioned Annex F, the ST.36 Task Force investigated all PFC files processed from the years 2005 to 2007. Those PFC files that were processed in 2008 and that could impact on the revision of WIPO Standard ST.36, have been submitted as PFR files to the ST.36 Task Force for consideration by the Task Force.

Further information on PFCs is available at:

http://www.wipo.int/efiling_standard/en/pfc_intro.htm.

3. The following eight PFRs were submitted for consideration by the ST.36 Task Force from March to August 2008. Further information on PFRs is available at:

<http://www.wipo.int/scit/en/taskfrce/st36/pfr-intro.html> :

1. PFR ST.36/2008/001 regarding “previously filed application”;
2. PFR ST.36/2008/002 regarding “second last name”;
3. PFR ST.36/2008/003 regarding “correction information”;
4. PFR ST.36/2008/004 regarding “power of attorney” related to PCT/EF/PFC_08/001;
5. PFR ST.36/2008/005 regarding “earlier search request” related to PCT/EF/PFC_08/003;
6. PFR ST.36/2008/006 regarding “package data” related to PCT/EF/PFC_08/004;
7. PFR ST.36/2008/007 regarding “e-mail” related to PCT/EF/PFC_08/006; and
8. PFR ST.36/2008/008 regarding “Common Application Format (CAF)” related to PCT/EF/PFC_08/008.

Summary of the revision of Annex A

4. Annex A has been revised to reflect the agreements related to the four PFRs ST.36/2008/001, 003, 004 and 008 and one PFC 06/001.

Summary of the revision of Annex C

5. With regard to the revision of Annex C, 37 new elements have been added to, 48 elements changed in, and nine elements deprecated from, ICES to reflect the adopted PFRs ST.36/2008/001, 003, 006 and 008, and processed PFC 06/001. Some new elements proposed by

PFC which were processed from the years 2005 to 2007 are not included in the revised ICEs because they are office-specific elements, i.e., wo-specific elements which were only used by wo-specific DTDs of Annex F. Office-specific elements cannot be included in ICEs. Some of the wo-specific elements include ‘wo’ prefix in their element names and others do not, e.g., *elected-office*, *made-by*, *wo-amended-claims*. However, the elements have been used in the published PCT data. For interoperability reasons, using the elements for another purpose should be avoided as far as possible. To acquaint users with the elements, the list of wo-specific elements can be found at http://www.wipo.int/standards/en/xml_material/st36/.

6. The set of ICEs has been also revised to take into account editorial changes. All wo-specific elements have been removed from the column *Used By* because the wo-specific element is not an item of ICEs. The element "bulletin-gazette" has been deleted from the column *Used By* of elements "serial" and "text" because the element "bulletin-gazette" was not an item of ICEs. The element "ro-request-receiving-info" element was changed to "ro-request-~~r~~ceiving-info" to correct the word “receiving”. The "ep-chg-info" was removed from the column *Uses* of the element "B002EP" because it is an office-specific element. It is noted that, for reference purposes, the wo-specific DTDs remain in the column *In DTD* of the new ICEs' table, as in the previous version of ICEs.

7. The descriptions of some elements in the column *Description* of the ICEs' table (Annex C) have been updated to provide further information regarding implementation guidelines of the corresponding elements (e.g., cardinality, attribute). The updating has been applied only to the description of the revised or newly added elements. The description of other elements will be updated whenever the elements are revised, if necessary.

8. In addition, the format of the ICEs' table has been revised to add two new columns, namely, *Entry(E)/ Revision Date* and *Remarks*. The column *Entry(E)/Revision Date* is to provide the version information of individual elements by adoption date. The “Entry(E) Date” means the first adoption date of the corresponding element and the “Revision Date” indicates the adoption date(s) of revision(s) of the corresponding element. For example, if an element contains three dates, 2004-11-11(E), 2008-03-01 and 2010-09-01, in the column, this information means that the element was adopted as an item of ICEs on November 11, 2004, and revised two times on March 1, 2008 and September 1, 2010. The column “Remarks” is to provide further information regarding changes such as the deprecated date and relevant PFR number of the corresponding element.

9. Furthermore, the file name of ICEs has been renamed “st36-ices” from “epct-element-encyclopedia”. The version of ICEs is identified by version number, e.g., “st36-ices-v2-0”.

10. The changes made to Annex C reflecting the PFCs and PFRs are summarized in the attached tables.

[Tables follow]

Revision related to PFCs (Proposals For Change) processed from 2005 to 2007

Element Name	Description	Uses	Used By	In DTD	INID Code (ST9)	ST32	Category	Entry(E) / Revision Date	Remarks (Deprecated Date, PFR no., etc.)
address-4	Address, fourth line			package-data, request, application-body, declarations, power-of-attorney, fee-sheet, bio-deposit, ro-request-rceiving-info, table-external, pkgheader, xmit-receipt, demand, ipea-demand-receiving-info, fee-sheet-chapter2, priority-doc, search-report, iprp, amendment-request, wo-bibliographic-data, wo-published-application, xx-patent-document			Parties	2008-09-15(E)
