

## MANUAL DE INFORMACIÓN Y DOCUMENTACIÓN EN MATERIA DE PROPIEDAD INDUSTRIAL

Ref.: Archivos

**NOTA:** Este documento contiene información previamente publicada en el *Manual de Información y Documentación en materia de Propiedad Industrial* de la OMPI que ya no está más al día.

página: 0

### EJEMPLOS DE CORRECCIONES, MODIFICACIONES Y SUPLEMENTOS RELATIVOS A LA INFORMACIÓN DE PATENTES

En este documento se ofrecen ejemplos de correcciones, modificaciones y suplementos relativos a la información de patentes publicada en papel o en soportes legibles por máquina. Para mayor información relacionada con estos temas, véase la Norma ST.50 de la OMPI.

#### SECCIÓN 1 EJEMPLOS DE PRIMERAS PÁGINAS O REIMPRESIONES DE DOCUMENTOS DE PATENTE CORREGIDOS

- Ejemplo 1: Primera página corregida de una solicitud de patente (hipotética)  
Ejemplo 2: Primera página corregida de un documento de patente alemán (hipotética)

#### SECCIÓN 2 EJEMPLO DE CORRECCIÓN DE PUBLICACIONES ELECTRÓNICAS

- Ejemplo 1: Utilización de códigos adicionales de corrección en un índice de búsqueda de un CD-ROM

#### SECCIÓN 3 EJEMPLOS DE CORRECCIONES ANUNCIADAS EN UN BOLETÍN DE PATENTES

##### *Correcciones de anuncios en un boletín de patentes*

- Ejemplo 1: Corrección de datos publicados en un boletín de patentes y utilizados como clave para efectuar una búsqueda  
Ejemplo 2: Anuncio relativo a una corrección con presentación estructurada  
Ejemplo 3: Anuncio de correcciones relativas a la adición de información omitida por error y a la supresión de información falsa, empleando corchetes  
Ejemplo 4: Anulación del anuncio de una reimpresión de un documento de patente (hipotética)

##### *Anuncios de correcciones en un boletín de patentes*

- Ejemplo 5: Anuncio relativo a la sustitución de dibujos, con presentación estructurada  
Ejemplo 6: Anuncio de la reimpresión de un documento de patente (hipotético)

#### SECCIÓN 4 EJEMPLOS DE MODIFICACIONES

- Ejemplo 1: Anuncio en la Gaceta del PCT de la publicación posterior de las reivindicaciones modificadas  
Ejemplo 2: Primera página de un folleto del PCT que contiene una referencia a la publicación de reivindicaciones modificadas  
Ejemplo 3: Página de muestra de un folleto del PCT que contiene reivindicaciones modificadas  
Ejemplo 4: Anuncios de los nombres de nuevos solicitantes publicados en el Boletín Oficial (patentes) del Reino Unido  
Ejemplo 5: Anuncios publicados en el Boletín de Patentes Europeas referentes a cambios en el nombre o la dirección del cesionario de la patente  
Ejemplo 6: Anuncios publicados en el Boletín de Patentes Europeas relativos a modificaciones respecto de la transferencia de derechos de titularidad  
Ejemplo 7: Anuncios publicados en el Boletín de Patentes de Eslovaquia relacionados con cambios en la titularidad, empleando los códigos previstos a ese efecto en la Norma [ST.17](#) de la OMPI

#### SECCIÓN 5 EJEMPLOS DE SUPLEMENTOS

- Ejemplo 1: Anuncio en la Gaceta del PCT de la publicación posterior de un informe de búsqueda internacional  
Ejemplo 2: Primera página de un folleto del PCT publicado como versión actualizada junto con el informe de búsqueda internacional  
Ejemplo 3: Anuncio en la Gaceta del PCT de la publicación posterior de las versiones revisadas de informes de búsqueda internacional

### SECCIÓN 2

#### EJEMPLO DE CORRECCIÓN DE PUBLICACIONES ELECTRÓNICAS

Ejemplo 1 Utilización de códigos adicionales de corrección en un índice de búsqueda de un CD-ROM

En el siguiente ejemplo aparece un extracto del índice piloto de la serie ESPACE EP A , que contiene varias correcciones y nuevas publicaciones.

|       |   |    |        |    |        |        |        |      |
|-------|---|----|--------|----|--------|--------|--------|------|
| Línea | 1 | EP | 499395 | A2 | 970115 | ESPACE | 97/004 |      |
|       | 2 | EP | 499395 | A2 | 970115 | ESPACE | 97/023 | ZCA2 |
|       | 3 | EP | 499395 | A3 | 970715 | ESPACE | 97/045 |      |
|       | 4 | EP | 499395 | A9 | 970824 | ESPACE | 97/052 | W1A2 |
|       | 5 | EP | 499395 | A9 | 970824 | ESPACE | 97/052 | W1A3 |
|       | 6 | EP | 499395 | A9 | 970824 | ESPACE | 97/068 | ZCA2 |

En el ejemplo, la

| línea | hace referencia a                                                                              |
|-------|------------------------------------------------------------------------------------------------|
| 2     | la nueva publicación del documento A2 original, que no era accesible en CD-ROM,                |
| 3     | la publicación separada del informe de búsqueda (documento A3),                                |
| 4     | una corrección del documento A2 (reimpresión completa y nueva publicación en CD-ROM),          |
| 5     | una corrección del documento A3 (reimpresión completa y nueva publicación en CD-ROM),          |
| 6     | la nueva publicación de la versión corregida del documento A2, que no era accesible en CD-ROM. |

## REISSUES

SEPTEMBER 6, 1994

Matter enclosed in heavy brackets [ ] appears in the original patent but forms no part of this reissue specification; matter printed in italics indicates additions made by reissue.

Re. 34,715

### MULTIFUNCTION FLUID CHARGING DEVICE

Ronald A. Gudeman, Mt. Clemens, and Charles Tamasianus, Farmington, both of Mich., assignors to Lucas Hartridge, Inc., Roston, Va.

Original No. 4,869,300, dated Sep. 26, 1989, Ser. No. 95,641, Sep. 14, 1987. Application for reissue Feb. 21, 1990, Ser. No. 484,361

Int. Cl.<sup>3</sup> B65B 3/04

U.S. Cl. 141—39

9 Claims

1. A device for dispensing a pressurized fluid into a system, said system including a charging inlet tube, and device comprising:

- a valve body assembly, including an end cap having an end cap nozzle opening adapted to be received over said inlet tube;
- air operated clamping means for clamping said inlet tube within said end cap opening;
- said clamping means including a clamping piston, and a bore formed in said valve body assembly, said clamping piston movably mounted in said bore in said valve body assembly for movement between clamping and unclamping positions;
- said clamping means further including a series of clamping elements moved radially inward upon movement of said clamping piston to said clamping position;
- air pressure inlet porting means on said valve body assembly for connection to a source of clamping means air pressure;
- first internal passage means in said valve body assembly connecting said air inlet porting means and said bore in said valve body assembly included in said clamping means;
- respective vacuum and pressurized fluid porting means on said valve body assembly for connection to a source of vacuum and pressurized fluid respectively;
- selectively operable distributor valving means within said valve body assembly for selectively communicating said vacuum or said pressurized fluid porting means to said end cap nozzle opening to allow applying a vacuum to said system and thereafter dispensing pressurized fluid thereinto through said end cap nozzle opening;
- [air] fluid pressure activating means for operating said distributor valving means by the application of [air] fluid pressure;
- a [Schroeder] Schrader type valve stem engagement member having a rod element centered with respect to said end cap opening, and [air] fluid pressure operated actuating

means [bring] bringing said rod element into engagement with a [Schroeder] Schrader type valve stem when said device is clamped to an inlet tube equipped with a [Schroeder] Schrader type valve;

valve actuator porting means comprising a series of ports adapted to be connected to [air lines] pressurized fluid communicating with said distributor valving means and said [air] fluid pressure actuating means to enable selective operation of said distributor valving means.

Re. 34,716

### AQUEOUS DISPERSIONS OF POLYESTER AND POLYESTER-AMIDES CROSS-LINKED WITH METALLIC IONS AND CASTS MADE THEREFROM

Moham Vishnupad, Monroe, and Jose Ramirez, Trumbull, both of Conn., assignors to Imaginative Research Associates, Inc., Bridgeport, Conn.

Original No. 5,110,862, dated May 5, 1992, Ser. No. 652,233, Feb. 5, 1991. Continuation of Ser. No. 578,018, Sep. 5, 1990, abandoned, which is a division of Ser. No. 367,183, Jun. 16, 1989, Pat. No. 4,992,508. Application for reissue Feb. 11, 1993, Ser. No. 16,808

Int. Cl.<sup>3</sup> C08L 67/00

U.S. Cl. 524—601

3 Claims

1. A cross-linked emulsion comprising:
- a water dissapable polymer in an amount from 18 to 30 percent by weight based on the total weight of the composition;
  - water in an amount from [67] 30 to 80 percent by weight based on the total weight of the composition;
  - emollient oils in an [amount] amount from 0.1 to 25 percent by weight based on the total weight of the composition;
  - a source of multivalent metallic ions in an [amount] amount from 0.1 to 5 percent by weight based on the total weight of the composition;
  - humectants in an amount from 0.1 to 40 percent by weight based on the total weight of the composition; and
  - emulsifier in an amount from 0.01 to 5 percent by weight based on the total weight of the composition.

Re. 34,717

### LIGHT STRING ORNAMENT CIRCUITRY

Robert E. Sanders, Lenexa, Kans.; Charles J. Flynn, and John L. Vertrees, both of Kansas City, Mo., assignors to Hallmark Cards Inc., Kansas City, Mo.

Original No. 4,682,579, dated Jul. 21, 1987, Ser. No. 657,680, Oct. 4, 1984. Application for reissue Apr. 8, 1991, Ser. No. 681,905

Int. Cl.<sup>3</sup> H05B 37/00, 39/00, 41/00

U.S. Cl. 315—186

54 Claims

30. A decorative device for electrical connection in a string of conventional sockets for miniature Christmas lights or the like, each of said conventional sockets including a hollow housing of insulating material having an open end with a pair of contacts within said housing arranged for engagement with contacts of a conventional miniature Christmas light and interconnected through flexible conductors with contacts of other conventional sockets of said string, said device comprising electrical circuit means which includes electrically energizable electromechanical load means producing enhanced sensory effects and a connector for connecting said device to said string, said connector being arranged for connection to a selected socket of [a] said string of conventional sockets mounted in a stationary position on a tree and said connector being arranged to provide an extension cord to obtain flexibi-

| <b>(54) Title:</b> A STAND FOR PIVOTALLY SUPPORTING A COMPUTER SCREEN HOUSING<br><br><br><br><b>(57) Abstract</b><br><p>A base unit (1 4) for a computer housing includes a stand (4 1), endcaps (43), and pivots (45) for mounting to the bottom of a computer housing. The pivots (45) are secured to the endcaps (43). The endcaps (43) each have a plurality of circumferentially arranged projection members (48) extending from an inner surface of the endcaps (431). Plugs (49) are provided with a generally conical shape and spaced ribs (55) for engaging the spaces between adjacent projection members (48) of the endcaps (43). Each plug (49) is connected to a corresponding endcap (43) by a bolt (46). By tightening the bolts (46), the plugs (49) are driven toward the endcaps (43), thereby forcing the projection members (48) into frictional engagement with the pivots (45).</p> |           |                                                                                                                                                                                                                                                                                                                                                                                            |  |

**AMENDED CLAIMS**

[received by the International Bureau on 25 March 1998 (25.03.98);  
original claims 1, 3, 4, 6-11, 14 and 17 amended; remaining claims unchanged (6 pages)]

1. A stand for pivotally supporting a computer screen housing,  
comprising:
  - a. at least one pivot unit having a friction surface and being adapted for attachment to said computer screen housing;
  - b. at least one insert member having a friction surface adapted to mate with said friction surface on said at least one pivot unit;
  - c. at least one biasing member inserted at least partially within the at least one insert member and adapted to bias said at least one pivot unit and said at least one insert member against one another in order to produce a predetermined amount of frictional force; and
  - d. at least one retention member adapted to retain said at least one biasing member at a fixed position relative to said at least one insert member;  
wherein rotation of said at least one pivot unit causes said computer screen housing to pivot about a pivot axis relative to said at least one insert member subject to said frictional force for positioning of said screen housing by a user.
2. The stand as set forth in claim 1, wherein said at least one pivot unit comprises first and second pivot units, said at least one insert member comprises first and second insert members, and said at least one biasing member comprises first and second biasing members, said first biasing member for biasing said first pivot unit against said first insert member to produce a first frictional force and said second biasing member for biasing said second pivot unit against said second insert member to produce a second frictional force.
3. A stand for pivotally supporting a computer screen housing,  
comprising:
  - a. at least one pivot unit having a friction surface and being adapted for attachment to said computer screen housing.

#### Section 13 Mention of Inventor

Application for Inventor to be mentioned under Section 13(1)

##### Application allowed

**GB 9626975.8** HYUNDAI ELECTRONICS INDUSTRIES CO; LTD Semiconductor device and a manufacturing method for the same.

Pursuant to a decision of the Comptroller dated 16 December 1997, Yo Hwan Koh of 6-906 Sungyeong Apt, Hayge-dong, Nowon-Ku, Seoul, Korea is to be named as sole inventor.

Application under Section 13(3) for a person not to be mentioned as inventor

##### Application filed

**GB 2285819** BRISCO ENGINEERING LTD A manifold arrangement. Application by A B B Seatec Ltd; Asea Brown Boveri A S filed on 17 December 1997.

##### Application allowed

**GB 9626975.8** HYUNDAI ELECTRONICS INDUSTRIES CO; LTD Semiconductor device and a manufacturing method for the same.

Pursuant to a decision of the Comptroller dated 16 December 1997, Jae-Kap Kim of 203-206 Hyundai Apt, 606 Galsan-ri, Ich'on-eub, Ich'on Kyoungki-do, Korea ought not to have been named as inventor.

#### Section 27 Amendment of Specification after Grant Application(s) made for Amendment of Specification

The details of the amendments proposed, which may now be inspected at the Patent Office, will be advertised later (unless the application is abandoned)-, the application will then be open to opposition. The date included in the entry is the date of filing of the application.

**EP 0617347** MITSUBISHI DENKI KABUSHIKI KAISHA Data logging apparatus 23 January 1998.

Cases decided by the Comptroller

##### Specification(s) Amended

The date included in the entry is the effective date of amendment.

**EP 0492396** MITSUBISHI DENKI KABUSHIKI KAISHA Parallel inverter system 22 January 1998.

**EP 0552719** MITSUBISHI DENKI KABUSHIKI KAISHA Thermal head driving circuit 22 January 1998.

**EP 0570976** MITSUBISHI DENKI KABUSHIKI KAISHA Electric power supply system 22 January 1998.

#### Section 28 Restoration of Ceased Patents

This list relates to applications for the restoration of ceased patents. For further information contact 01633 814656 for UK, patents or 01633 814564 for European patents (UK). The date included with each entry is the effective date the application was filed, withdrawn, refused or allowed.

##### Application for restoration filed

**21 January 1998**

**EP 0309583** NIPPON CARBON CO., LTD. METHOD OF MELTING AND REFINING METALS, AND AN APPARATUS FOR COOLING ELECTRODES USED THEREFOR.

#### Section 30 Transactions in Patents and Applications

This list relates to unpublished applications and shows changes to the applicant's name or to the ownership of the application. For further information contact 01633 814630.

**GB 9618329.8**

**New Applicant (s)**  
Retinal Display Cayman Limited

**Old Applicant (s)**  
Virtuality (IP) Limited

**GB 9711553.9**

**New Applicant (s)**  
Crossco 262 Limited

**Old Applicant (s)**  
Grant, Quentin

**GB 9711554.7**

**New Applicant (s)**  
Crossco 262 Limited

**Old Applicant (s)**  
Grant, Quentin

**GB 9715999.0**

**New Applicant (s)**  
Larenbay Limited

**Old Applicant (s)**  
Spenco Healthcare International Limited

**ANNOUNCEMENT OF THE LATER PUBLICATION OF REVISED VERSIONS  
OF INTERNATIONAL SEARCH REPORTS**

**ANNONCE DE LA PUBLICATION ULTÉRIEURE DE VERSIONS RÉVISÉES  
DE RAPPORTS DE RECHERCHE INTERNATIONALE**

Revised versions of international search reports established in relation to the international applications listed below have been issued by the competent International Searching Authorities. The said revised versions have been published on the same date as the present issue of the PCT Gazette, together with updated versions of the front pages of the corresponding pamphlets bearing (in the language of publication) the indication "Published with a revised version of the international search report."

L'administration chargée de la recherche internationale compétente a établi des versions révisées des rapports de recherche internationale relatifs aux demandes internationales mentionnées ci-dessous. Lesdites versions révisées sont publiées à la date de parution du présent numéro de la Gazette du PCT, avec des versions mises à jour des pages de couverture des brochures correspondantes portant (dans la langue de publication) la mention "Publiée avec une version révisée du rapport de recherche internationale".
