## H05 ELECTRIC TECHNIQUES NOT OTHERWISE PROVIDED FOR

## H05F STATIC ELECTRICITY; NATURALLY-OCCURRING ELECTRICITY

**Note(s)**

1. This subclass covers methods or arrangements for preventing the formation of electrostatic charges on bodies or for carrying-off these charges after their formation.
2. This subclass does not cover specific applications of the above-mentioned methods or arrangements. Such arrangements are covered by the relevant subclasses, e.g. arrangements in large containers B65D 90/46.
