¹ Must be furnished within the time limit applicable under PCT Article 22 or 39(1). A translation of the abstract is not required in case of a utility model application.

² Must be paid within the time limit applicable under PCT Article 22 or 39(1). The filing fee for entry into the national phase is calculated on the basis of the number of claims in the international application as originally filed, and not as subsequently reduced, if applicable. A subsequent addition of claims may increase the amount of the filing fee. For further general information, refer to [http://www.dpma.de/english/patent/fees/index.html](http://www.dpma.de/english/patent/fees/index.html).

³ It is due on the last day of the month containing the second anniversary (24 months) of the international filing date. If the applicant does not initiate early entry into the national phase, he does not have to pay the third annual fee before the expiration of the 30-month time limit under PCT Article 22(1) or 39(1)(a). In that case, the third annual fee may be paid without surcharge before the expiration of the second month after the expiration of the 30-month time limit. If the third annual fee is not paid within this two-month time limit, the fee may still be paid with a surcharge before the expiration of the sixth month after the expiration of the 30-month time limit.

⁴ Must be paid within the time limit applicable under PCT Article 22 or 39(1).

\(^6\) This requirement may be satisfied if the corresponding declaration has been made in accordance with PCT Rule 4.17.

\(^7\) The list of patent attorneys may be obtained from the Patentanwaltskammer (Chamber of Patent Attorneys), Postfach 260108, 80058 München, Germany, and the list of attorneys-at-law from the Bundesrechtsanwaltskammer (Chamber of Attorneys-at-Law), Littenstrasse 9, 10179 Berlin, Germany.

\(^8\) In accordance with the provisions of the Legal Services Act (Rechtsdienstleistungsgesetz – RDG).

(20 November 2014)
THE PROCEDURE IN THE NATIONAL PHASE

DE.01  **TRANSLATION (CORRECTION).** Errors in the translation of the international application can be corrected with reference to the text of the international application as filed (see National Phase, paragraphs 6.002 and 6.003).

DE.02  **FEES (MANNER OF PAYMENT).** The manner of payment of the fees indicated in the Summary and in this Chapter is outlined in Annex DE.I.

DE.03  **DECLARATION CONCERNING THE INVENTOR AND THE RIGHT OF THE APPLICANT TO APPLY FOR A PATENT.** For details, see the model of such declaration (not an official form) in Annex DE.II. Legalization is not required. For time limits, see the Summary.

DE.04  **POWER OF ATTORNEY.** An agent must be appointed by filing a power of attorney. A model is given in Annex DE.III.

DE.05  **ANNUAL FEES.** They are payable for the third and each subsequent year following the international filing date before the expiration of the last day of the month in which the anniversary of the international filing date occurs. The fees may be paid before the expiration of the second month after the due date. Where the fee is not paid within the two-month time limit, payment can still be made with a surcharge before the expiration of the sixth month after the due date. If the applicant does not initiate early entry into the national phase, he does not have to pay the third annual fee before the expiration of the 30-month time limit under PCT Article 22(1) or Article 39(1)(a). In that case, the third annual fee may be paid without surcharge before the expiration of the second month after the expiration of the 30-month time limit. If the third annual fee is not paid within this two-month time limit, the fee may still be paid with a surcharge before the expiration of the sixth month after the expiration of the 30-month time limit. The amounts of the annual fees and of the surcharge are indicated in Annex DE.I.

DE.06  **REQUEST FOR EXAMINATION.** A patent will be granted only after examination as to patentability which may be requested by the applicant or by a third party. There is no special form for the request.

DE.07  **TIME LIMIT FOR REQUESTING EXAMINATION.** Examination must be requested within seven years from the international filing date.

DE.08  **FEE FOR REQUESTING EXAMINATION.** Within the time limit for requesting examination a fee for requesting examination must be paid. Processing of the request for examination will only start after the fee for requesting examination has been paid. The amount of the said fee is indicated in Annex DE.I. It is reduced where an international search report has been established.

DE.09  **AMENDMENT OF THE APPLICATION; TIME LIMITS.** The following amendments may be made in the national phase provided that the scope of the subject matter of the application is not broadened:

(i) until a request for examination is filed: correction of obvious mistakes, remedying of any defect pointed out by the Examining Section, amendments to the claims;

(ii) up to the decision to grant a patent: amendments to any part of the application.

It is to be noted that, during opposition procedure following the grant of the patent, amendments to the description, claims or drawings may still be made, but only within the scope of the patent as granted.
DE.10 **REVIEW UNDER ARTICLE 25 OF THE PCT.** The applicable procedure is outlined in paragraphs 6.018 to 6.021 of the National Phase. If, upon review under PCT Article 25, the Office denies an error or omission on the part of the receiving Office or the International Bureau, an appeal against this decision may be lodged within one month from the date of receipt of the decision. Within the same one-month time limit, a fee for appeal must be paid. The Federal Patent Court will then decide on the appeal.

DE.11 **EXCUSE OF DELAYS IN MEETING TIME LIMITS.** Reference is made to paragraphs 6.022 to 6.027 of the National Phase. Reinstatement may be requested where the applicant, through no fault of his own, has failed to comply with a time limit during the international phase or before the Office and non-observance of the time limit is detrimental to his rights. Reinstatement is excluded, however, where the missed time limit is the time within which the application is to be filed if priority of an earlier German application is claimed, whereas reinstatement may be requested if priority of an earlier foreign application is claimed. A request for reinstatement must be presented in writing within two months after the removal of the cause of the failure to perform the action but not later than one year from the expiration of the time limit which has not been observed. Within these two months, the omitted act must be completed and the request must state the facts which justify the reinstatement; these facts must be substantiated [glaubhaft machen]. It is possible to request further processing of the application if the application has been rejected following a failure to observe a time limit fixed by the Office. The request for further processing shall be filed within one month after notification of the decision to reject the application. The omitted act must be completed within this time limit and a fee must be paid. The amounts of fees for further processing are indicated in Annex DE.I. Reinstatement of rights in respect of the time limit to request further processing is not possible.

DE.12 **UTILITY MODEL.** If the applicant wishes to obtain utility model registration in Germany on the basis of an international application

(i) instead of a patent or

(ii) in addition to a patent,

the applicant, when performing the acts referred to in PCT Article 22 or 39(1), shall so indicate to the designated Office. Where no special acts are required for entry into the national phase, because the Office is both the receiving Office and designated Office, and the application was filed in the German language, the applicant shall nonetheless be responsible for the timely execution of his right of choice under PCT Rule 49bis.1.

DE.13 If the international application is for a utility model instead of a patent (see the case referred to in paragraph DE.12(ii)), the requirements are basically the same as for patents except that the applicant is not required:

(i) to furnish a translation of the abstract,

(ii) to furnish a declaration concerning the inventor,

(iii) to make a request for examination, and

(iv) to pay annual fees.

Instead of annual fees, maintenance fees become due for utility models. The due date, amounts and terms of protection are indicated in Annex DE.I. The maximum term of protection is 10 years.
DE.14 If the international application is for both a utility model and a patent (see the case referred to in paragraph DE.12(ii)), the applicant must, within the time limit applicable for entry into the national phase, comply with the following requirements:

(i) pay two filing fees for both the patent and the utility model,

(ii) where the international application was not filed in German, furnish a translation into German,

(iii) furnish the translation of the international application in duplicate,

(iv) file the power of attorney (if any) in duplicate.

The requirements (iii) and (iv) may still be complied with within a time limit fixed in an invitation by the Office, if not already complied with within the time limit applicable for entry into the national phase.

DE.15 A utility model application concerning the subject matter of an earlier national, international or European patent application for a national or European patent for Germany may claim the filing date of that earlier patent application provided the utility model application is filed before the expiration of two months from the end of the month in which the patent application is disposed of or in which the opposition procedure, if any, is terminated, at the latest, however, up to the end of the tenth year from the date of filing of the patent application. Any priority which is claimed in the earlier patent application under the Paris Convention for the Protection of Industrial Property will also apply to the subsequent utility model application.

1 Where the international application has been filed with the German Patent and Trade Mark Office as receiving Office, the filing fee is considered to have been paid with the payment of the transmittal fee (IntPatÜG Art. III, Sec. 4(2)). The filing fee for entry into the national phase is calculated on the basis of the number of claims in the international application as originally filed, and not as subsequently reduced, if applicable. A subsequent addition of claims may increase the amount of the filing fee. For further general information, refer to http://www.dpma.de/english/patent/fees/index.html.

2 Where the international application has been filed with the German Patent and Trade Mark Office as receiving Office, the filing fee is considered to have been paid with the payment of the transmittal fee (IntPatÜG Art. III, Sec. 4(2)).
How can payment of fees be effected?

The payment of the fees has to be effected in euro. All payments must indicate the application number (national, if already known; international, if the national application number is not yet known), the name of the applicant and the category of fee being paid.

In addition to payment by cash, fees may be paid by:

(a) bank transfer;
(b) payment into the account of the Bundeskasse Halle/DPMA (No. 700 010 54 at the Deutsche Bundesbank (BBk) München, IBAN: DE84 7000 0000 0070 001054, BIC/SWIFT code: MARKDEF1700. Customers should declare that any handling charges are borne by the payer;
(c) submitting a valid “SEPA Core Direct Debit Mandate” form together with the “Specification of the purpose of the mandate” form using the official forms provided by the Office.

Applicants must choose a mode of payment guaranteeing that the full amount of the fees due is received by the Office. There is a danger of loss of rights if bank charges are deducted.
