

## LOCARNO CLASSIFICATION - 13<sup>th</sup> Edition

### General Remarks

- a. The titles of the classes and subclasses provide a general indication as to the area to which the goods belong. Some goods may be covered by more than one such title, however. It is therefore advisable to consult the Alphabetical List to make sure of the classification of various goods.
- b. Explanatory notes relating to a class are not repeated in the subclasses which they concern. It is therefore advisable to consult them when studying the notes appearing in the subclasses themselves.
- c. In principle, goods are classified first according to their purpose and subsidiarily, if this is possible, according to the object that they represent. This latter classification is optional.
- d. Where there is no special classification provided for goods intended to form part of another product, those goods are placed in the same class and subclass as the product of which they are intended to form part, if they cannot normally be used for another purpose.
- e. Goods, which are multipurpose composite objects are, with the exception of multipurpose composite pieces of furniture, placed in all the classes and subclasses that correspond to each of the intended purposes.

**Class 12**

**Means of transport or hoisting**

**Note(s)**

- a. Including all vehicles: land, sea, air, space and others.
- b. Including parts, components and accessories which exist only in connection with a vehicle and cannot be placed in another class; these parts, components and accessories of vehicles are to be placed in the subclass of the vehicle in question, or in Cl. 12-16 if they are common to several vehicles included in different subclasses.
- c. Not including, in principle, parts, components and accessories of vehicles which can be placed in another class; these parts, components and accessories are to be placed in the same class as articles of the same type, in other words, having the same function. Thus, carpets or mats for automobiles are to be placed with carpets (Cl. 06-11); electric motors for vehicles are to be placed in Cl. 13-01, and non-electric motors for vehicles in Cl. 15-01 (the same applies to the components of such motors); automobile headlamps are to be placed with lighting apparatus (Cl. 26-06).
- d. Not including scale models of vehicles (Cl. 21-01).
