MADRID AGREEMENT CONCERNING THE INTERNATIONAL REGISTRATION OF MARKS AND PROTOCOL RELATING THERETO

Madrid Express

1. A new version of the *Madrid Express* database is now available on the Internet at the following address: <http://ipdl.wipo.int>. This makes possible online access to information relating to all international registrations that are currently in force or have expired within the past six months. *Madrid Express* is updated daily.
2. Moreover, like its previous version, *Madrid Express* continues to provide data relating to international applications and subsequent designations that have been received by the International Bureau but have not yet been recorded in the International Register. With regard to these, users are warned that the International Bureau has not yet made a decision on the international applications or subsequent designations concerned.
3. While every effort is made to ensure that the information in *Madrid Express* accurately reflects the data recorded in the International Register, the only official publication remains the Gazette and the only official statements by the International Bureau regarding the contents of the International Register for a given international registration remain the certified extracts from the Register established on request by the International Bureau.
