

Madrid Agreement and Protocol Concerning the International Registration of Marks

International Trademark Information Database ROMARIN: discontinuation of DVD version

1. The WIPO International Trademark Information Database ROMARIN contains information regarding international marks recorded under the Madrid system that are currently in force in the International Register or have expired since April 1, 1996. It also includes data relating to international applications and subsequent designations that are still under examination by the International Bureau.
2. The ROMARIN database is currently made available electronically on the Internet, free of charge, and on DVD, under paid subscription.
3. Users are hereby informed that, as of the last issue of the DVD version in 2011, the ROMARIN database on DVD will be discontinued.
4. The electronic version, updated daily, will remain available, free of charge, on the Madrid system website at the following address: <http://www.wipo.int/madrid/en/romarin/>.
