1. Existence of a practice regarding the handling of deposited microorganisms after the expiration of the period of storage prescribed in Rule 9.1 of the Regulations under the Budapest Treaty

Yes.

2. Description of the practice

At the time of the deposit, the depositor may indicate whether the deposited microorganism must be returned to the depositor or can be destroyed.

Where there is no indication at the time of the deposit and NAIMCC can't contact the depositor at the expiration of the storage period, the deposited microorganism will be transferred to another catalogue.

3. Documentation and links

No.
