Subject: WIPO Contact Form: Impact of AI on IP Policy: Call for Comments (14.02.2020 13:26:41)

Topic: Artificial intelligence

Sub-topic: Impact of AI on IP Policy: Call for Comments

Question: ISSUE 6: Copyright Authorship and ownership

Question 1 - Should separate rules govern AI created and AI generated works?

Question 2- What term of protection should be granted for AI generated works?

Question 3– Should human parties receive recognition of authorship/automatic ownership without having contributed to the usual standards of copyright eligibility?

Question 4- Should AI generated works gain treatment as orphan works?

Question 5- What benefit can be attributed to granting copyright for AI generated works?

Question 6- Should copyrights attributed to AI belong to the public domain or alternatively be openly licensed?

ISSUE 7: Infringement and Exceptions

Question 1- Whom would be liable for copyright infringement where copyright works are utilized in the generation of a new AI work?

Question 2: What mechanism would be suitable in the compensation of multiple copyright infringements used to create a new work?

Question 3: In the absence of machine learning, where AI created works solely infringe multiple copyright works, where is the liability placed?
