

Paying for IP Services: Introduction

Hey there. Welcome to WIPO payment webpages.

This is an introduction video from which you will discover the tools we offer you to pay smooth, secure, and fast.

The starting point for your payments is the creation of a **WIPO Account**. A WIPO Account is your **personal user account** to access all WIPO's online services, from payment to courses, and much more.

It enables you to pay and provides access to your personalized dashboard and messaging system.

WIPO Wallet is your **deposit account** managed in **Swiss Francs**. It is a fast, secure, and convenient way to pay for WIPO services. We recommend WIPO Wallet if you often make transactions with WIPO and would like to avoid making multiple bank transfers and paying bank charges.

Please note that WIPO Wallet is designed for **regular** transactions with WIPO and cannot be opened for a single transaction only.

Another payment tool is **WIPO Pay**. WIPO Pay is our **payment application** for fast and secure transactions. It allows you to pay your fees for PCT, eHague, eLisbon, Domain Name cases, Alternative Dispute Resolution, and UPOV online services.

A small remark: WIPO Pay is not yet used to pay fees for [Madrid](#) and [WIPO Academy](#). To pay those fees, follow the payment instructions on our website.

To access WIPO Pay you need a WIPO Account.

WIPO Pay offers you 6 different payment methods: **WIPO Wallet**, **credit or debit cards**, **eWallets**, **PayPal**, **SOFORT (Klarna)**, and **bank transfer**.

Available credit and debit cards are **VISA**, **Mastercard**, **Discover**, **Diners Club**, **UnionPay**, **JCB**, and **American Express**.

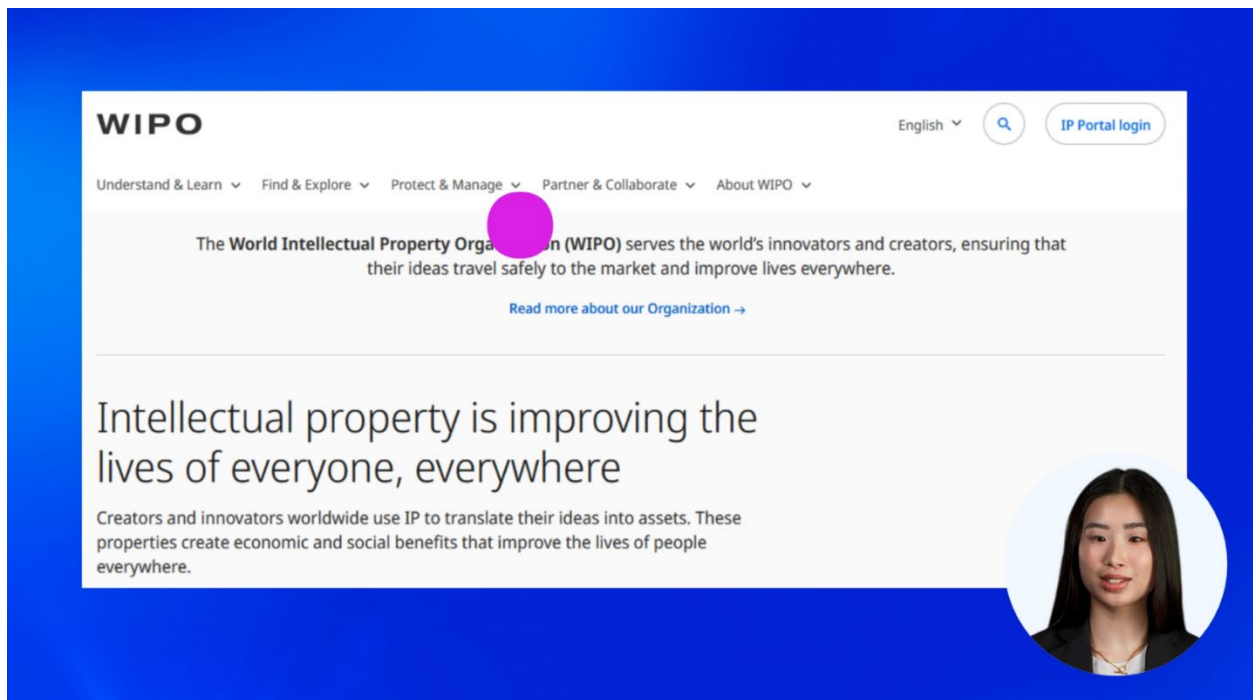

Available eWallets are **Apple Pay, Google Pay, Samsung Pay, and Alipay.**

Let's summarize all the WIPO payment tools we have seen today.

A message box indicates 'The basket is empty. You can add items to the basket from the list of unpaid items below.' Under 'Unpaid items', a table lists two items:
