

WIPO Wallet: Widgets

Hey there. Welcome to our tutorial. In this video you will learn how to access and use WIPO Wallet widgets.

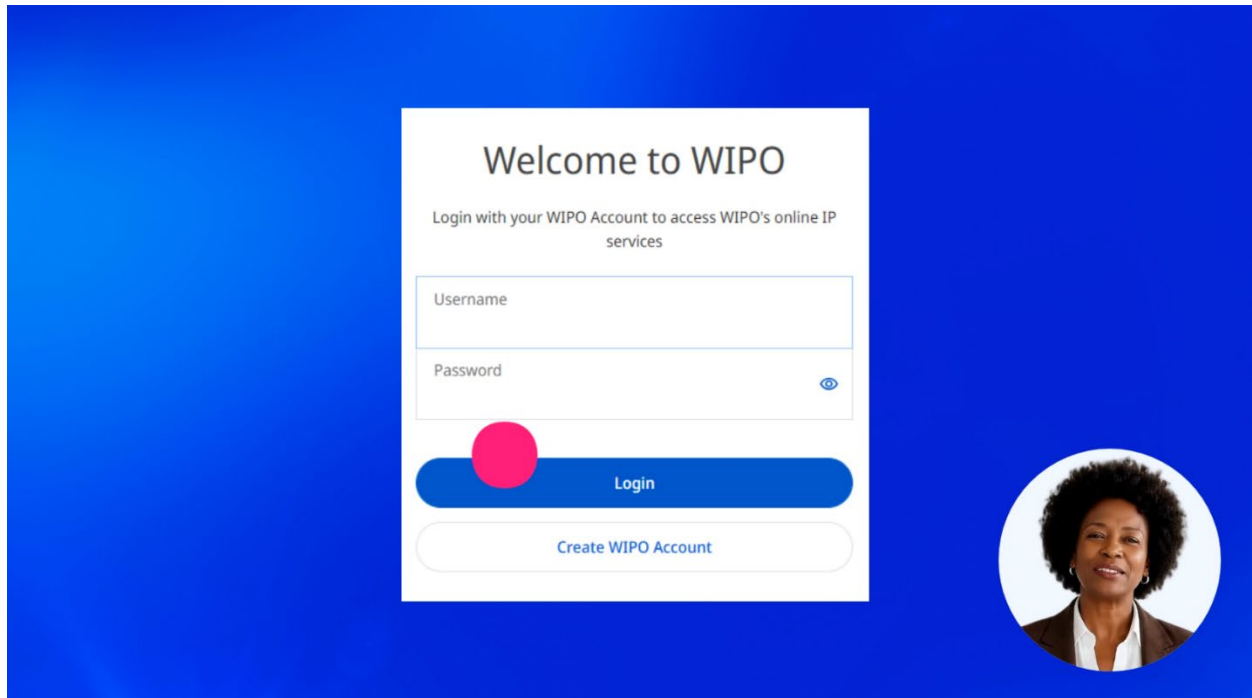

With WIPO Wallet widgets, keeping track of your finances has never been easier. At a glance, you can check your current balance, monitor the status of your transactions, and track any movements of funds - giving you full visibility and control at all times.

Let's get started by installing the widgets on your IP Portal Dashboard.

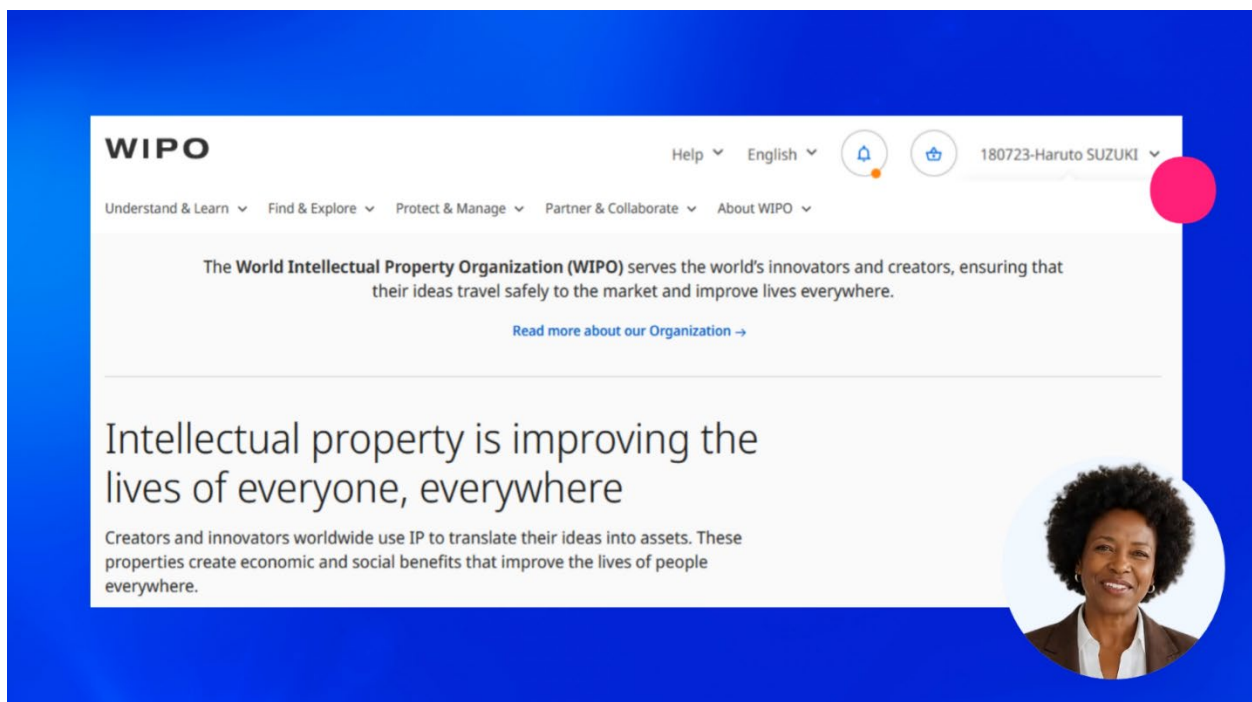

On WIPO's website go to "IP Portal login".

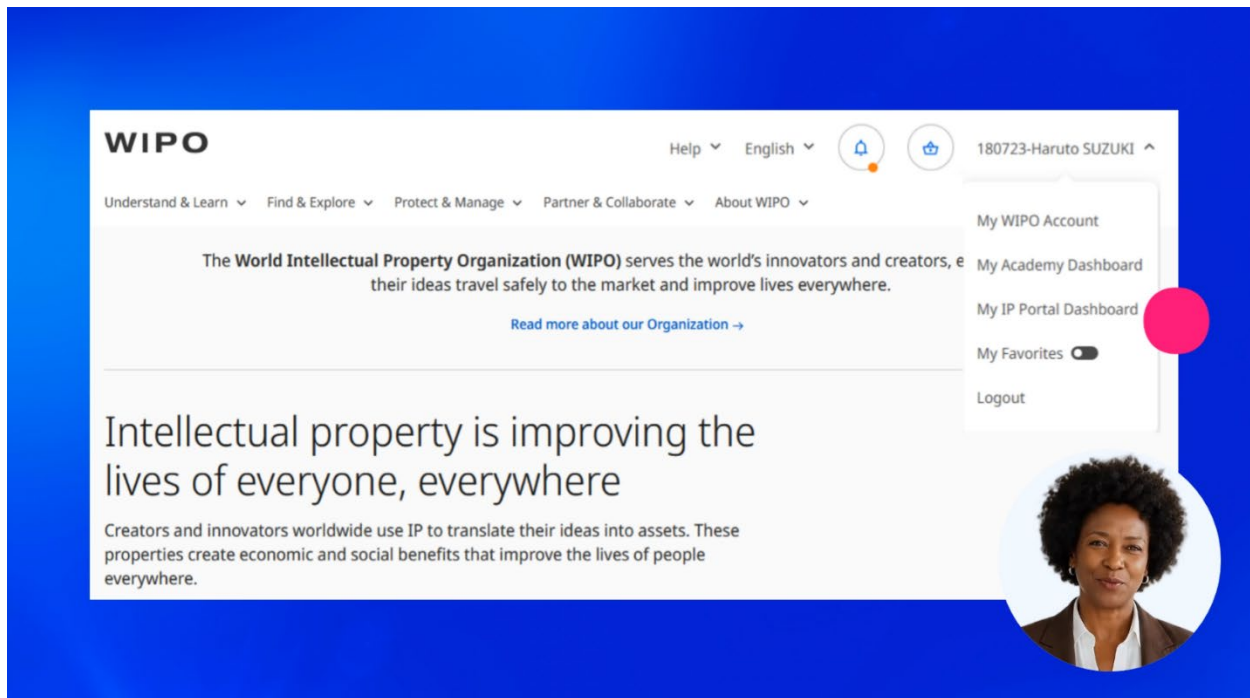

You will be asked to log in to your WIPO Account.

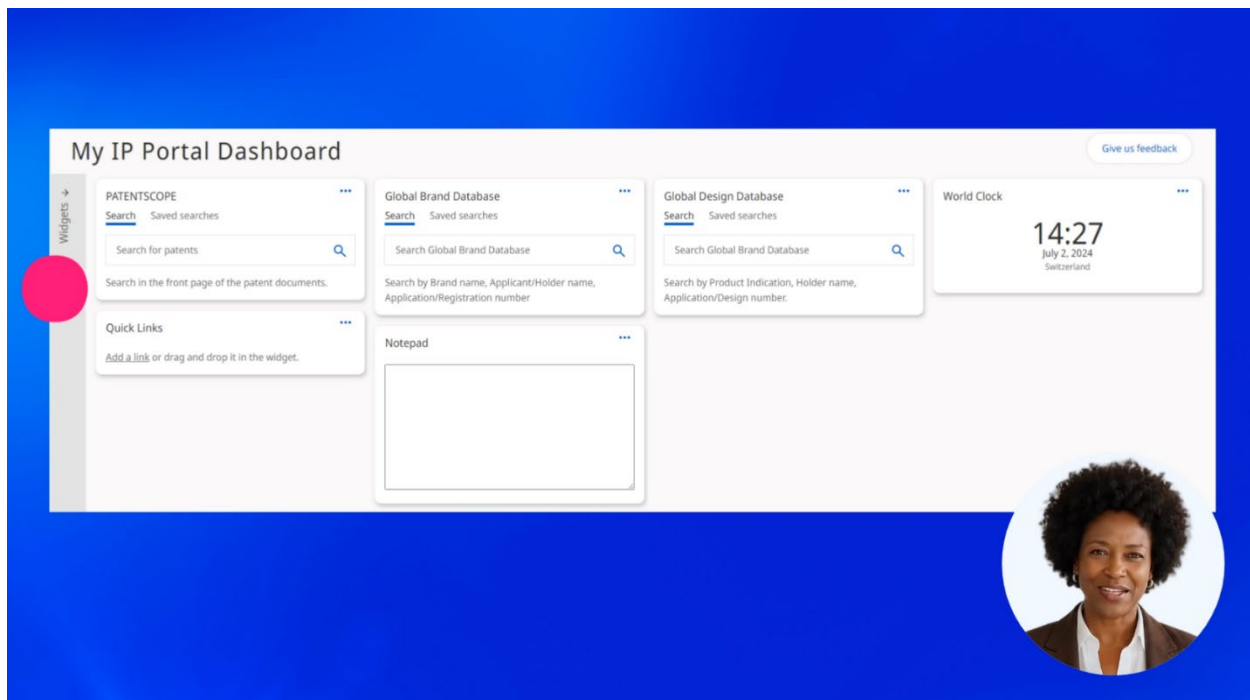

Once logged in, your name will appear in the upper right corner. Click on it.

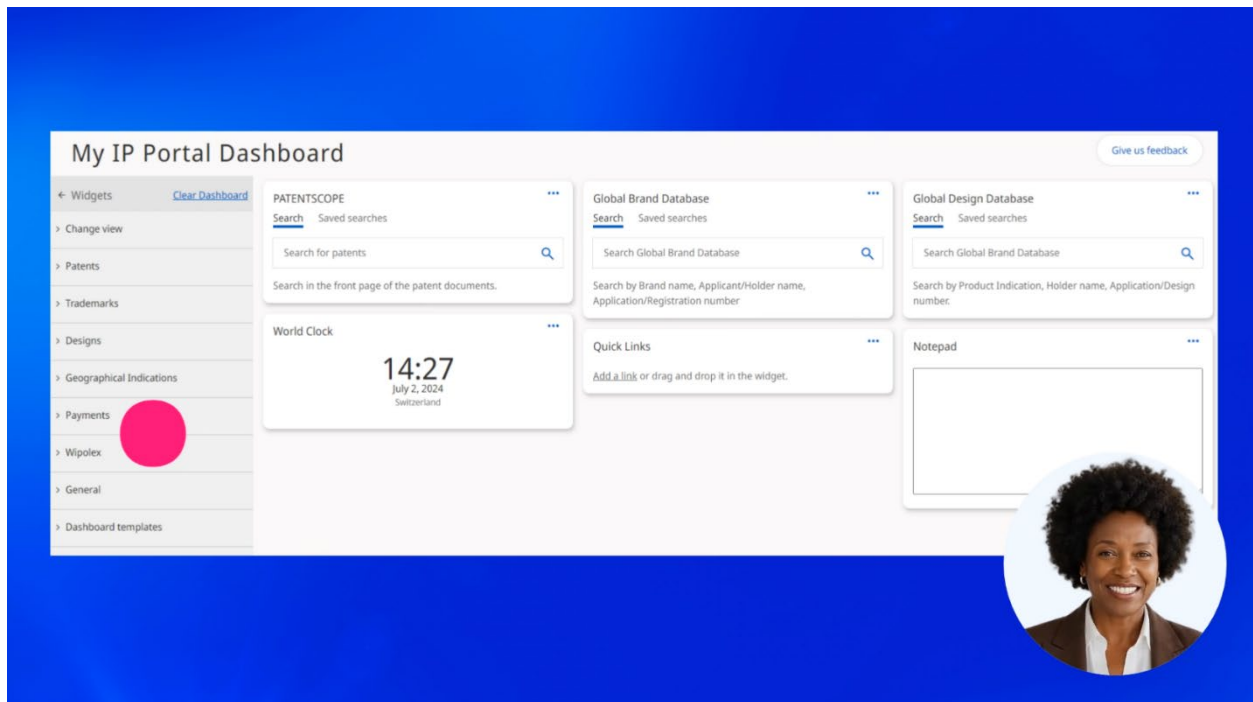

A menu will open. Go to "My IP Portal Dashboard".

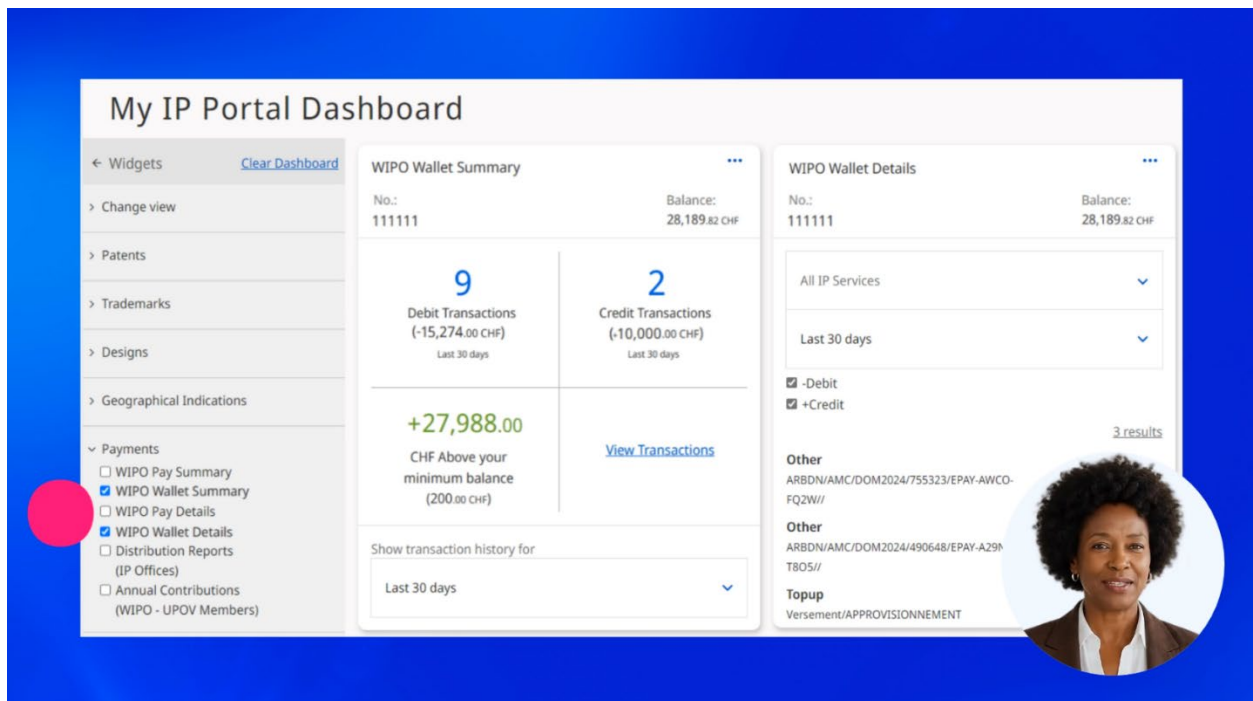

This is your IP Portal Dashboard, where all your widgets are displayed. You can find the list of widgets by clicking on "Widgets" on the left side of the screen.

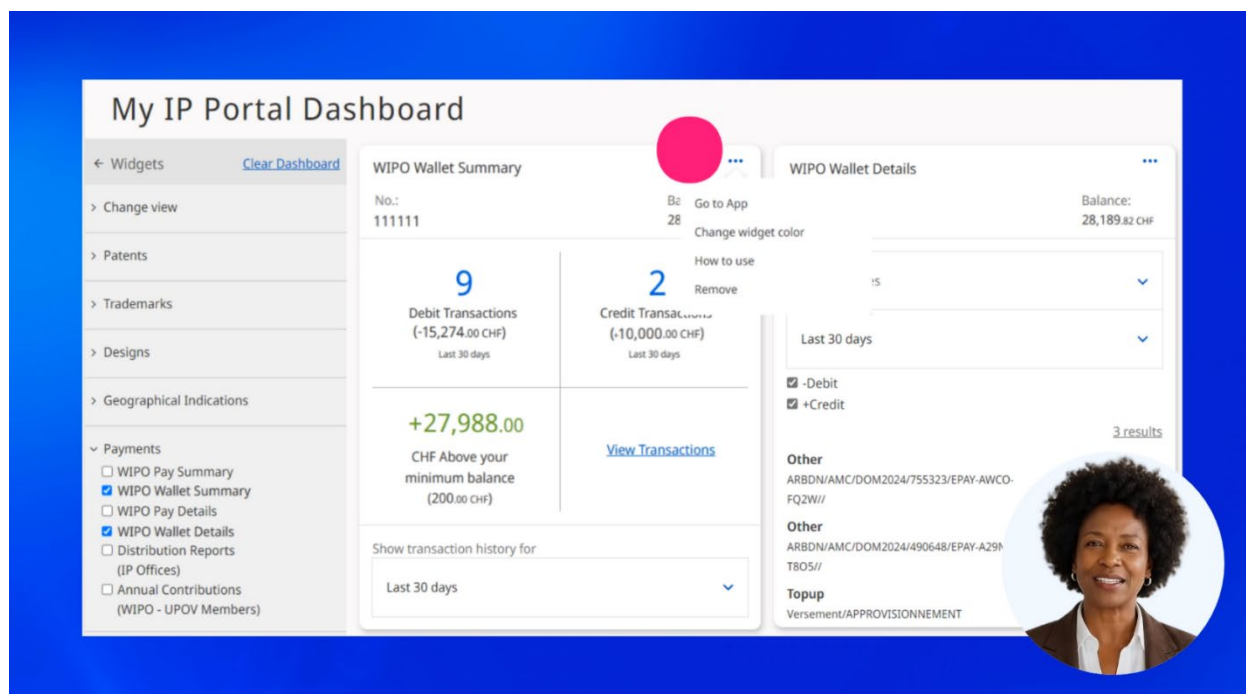

Then click on "Payments"

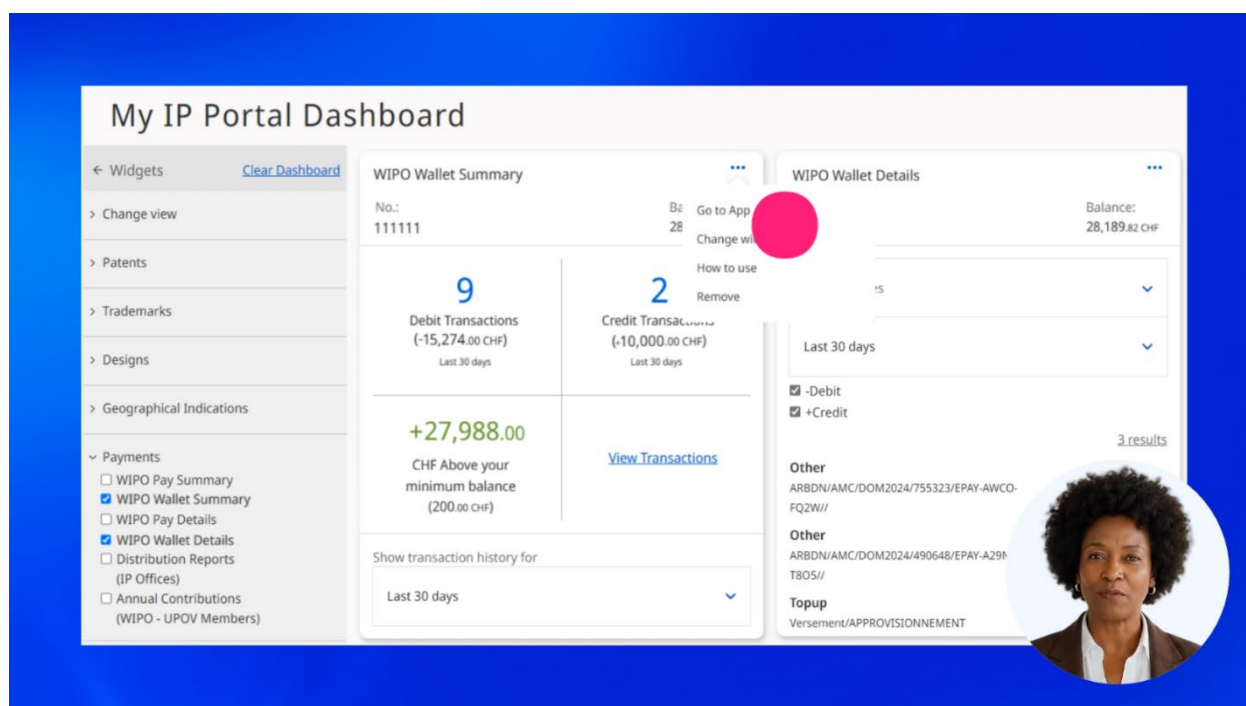

and check the boxes "WIPO Wallet Summary" and "WIPO Wallet Details". Your WIPO Wallet widgets are now on your IP Portal Dashboard.

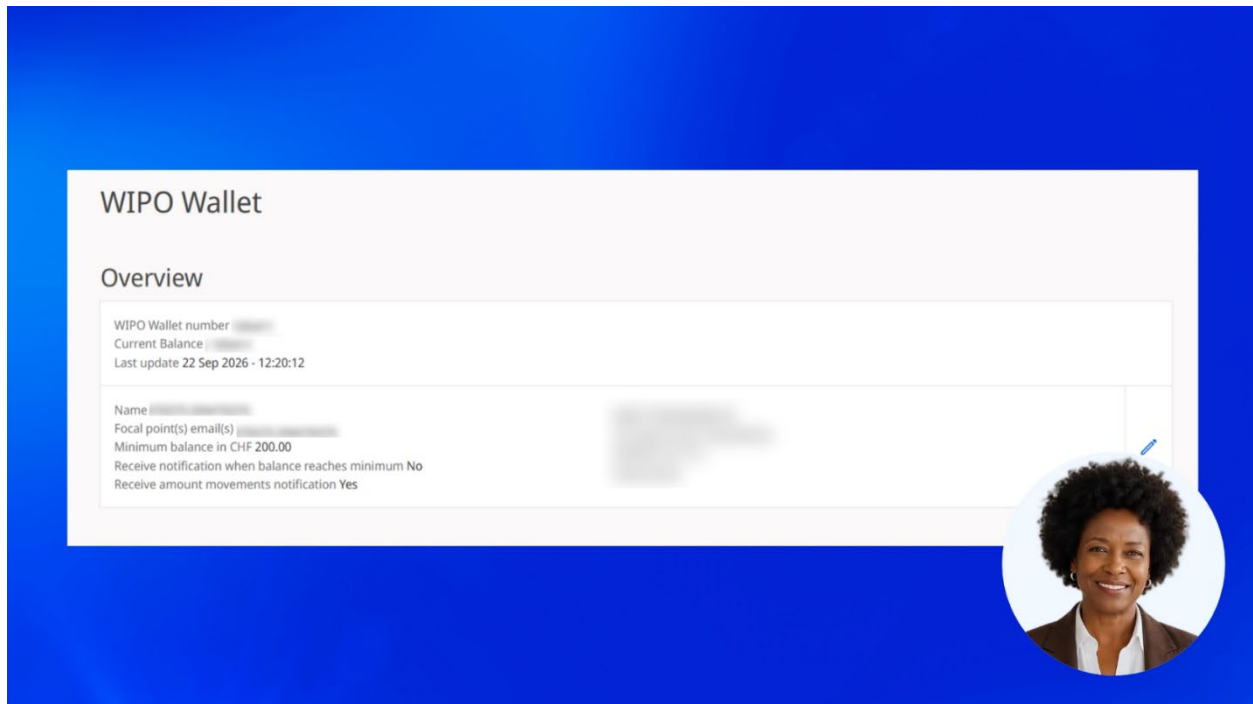

Here you can view your balance, search for and view your transactions. These functions are available for both viewers and focal points. You can also customize your widgets by clicking on the three dots located on each widget.

You can access your WIPO Wallet from the widgets by clicking on "Go to App".

Here, in your WIPO Wallet, you can manage your wallet settings, assign focal point and viewer roles, and download your monthly statements.

To learn more, watch our tutorials on how to [manage roles and notifications](#), and how to [download your monthly statements](#).

You can find these and other tutorials on our website – wipo.int.

Finally, a reminder to be aware of possible scam attempts by phone, email, or text message. You can learn more about how to protect yourself from different types of scams on the [dedicated webpage](#) on our website.

Thank you for watching our tutorial. See you next time!
