8. If your Office produces XML or JSON instances and does not validate these instances before publication, please provide your reasoning below.

All published data is validated before publication

9. Does your Office publish the color drawings they receive, if they are permitted during the filing of a patent application?

Yes

3. Digitization activities

10. Does your Office perform digitization of documents you receive before publication or data dissemination, for one or more IP rights, or has experience of digitization of documents associated with IP rights?

Yes

- 10.1. How are or were these documents or associated data transformed from the format you received? e.g., paper document manually scanned and OCRred or DOCX converted to XML.

They are scanned and OCRred

- 10.2. If you rely or relied on a third party to perform the digitization of your documents, why did you reach this decision?

Because of volume of the documents and expertise required

- 10.3. Does your Office use or did you use any IT tools, in particular AI tools, in the digitization process that you find particularly useful?

No AI tools yet. We used WIPOscan

- 10.4. What are or were the biggest technical challenges you have experienced in digitizing your documents? e.g., extracting drawings or chemical formulae from a patent application. Please provide further details in the comments box below, including how you overcame these challenges and the relevant IP right type.

We had challenges with old documents, which had to be photocopied first, as well as some document sizes

4. Digitization activities

11. If your Office is considering future digitization activities, please provide details regarding the tools you are considering, in particular AI tools, and include your reasons for selecting them for potential use in digitization.

Not at the moment

12. Please provide any other feedback regarding capacity building for the digitization of IP document collections.

We require capacity building on AI tools that can be used for digitization
