

Global Innovation Index 2023

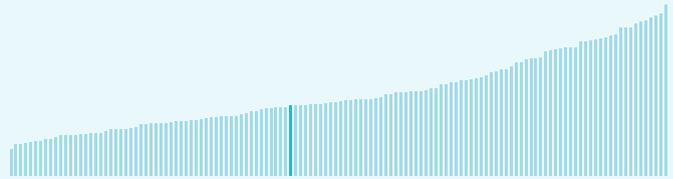

The Global Innovation Index (GII) **ranks world economies according to their innovation capabilities.**

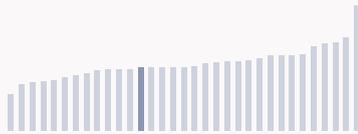

Consisting of **roughly 80 indicators**, grouped into innovation inputs and outputs, the GII **aims to capture the multi-dimensional facets of innovation.**

Peru ranking in the Global Innovation Index 2023

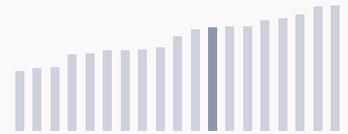

> Peru ranks **76th** among the 132 economies featured in the GII 2023.

> Peru ranks **21st** among the 33 upper-middle-income economies.

> Peru ranks **8th** among the 19 economies in Latin America and the Caribbean.

> Peru GII Ranking (2020-2023)

The table shows the rankings of Peru over the past four years. Data availability and changes to the GII model framework influence year-on-year comparisons of the GII rankings. The statistical confidence interval for the ranking of Peru in the GII 2023 is between ranks 72 and 84.

	GII Position	Innovation Inputs	Innovation Outputs
2020	76th	55th	98th
2021	70th	52nd	82nd
2022	65th	52nd	81st
2023	76th	60th	84th

Peru performs worse in innovation outputs than innovation inputs in 2023.

This year Peru ranks **60th** in innovation inputs. This position is lower than last year.

Peru ranks **84th** in innovation outputs. This position is lower than last year.

Global Innovation Index 2023

→ Expected vs. observed innovation performance

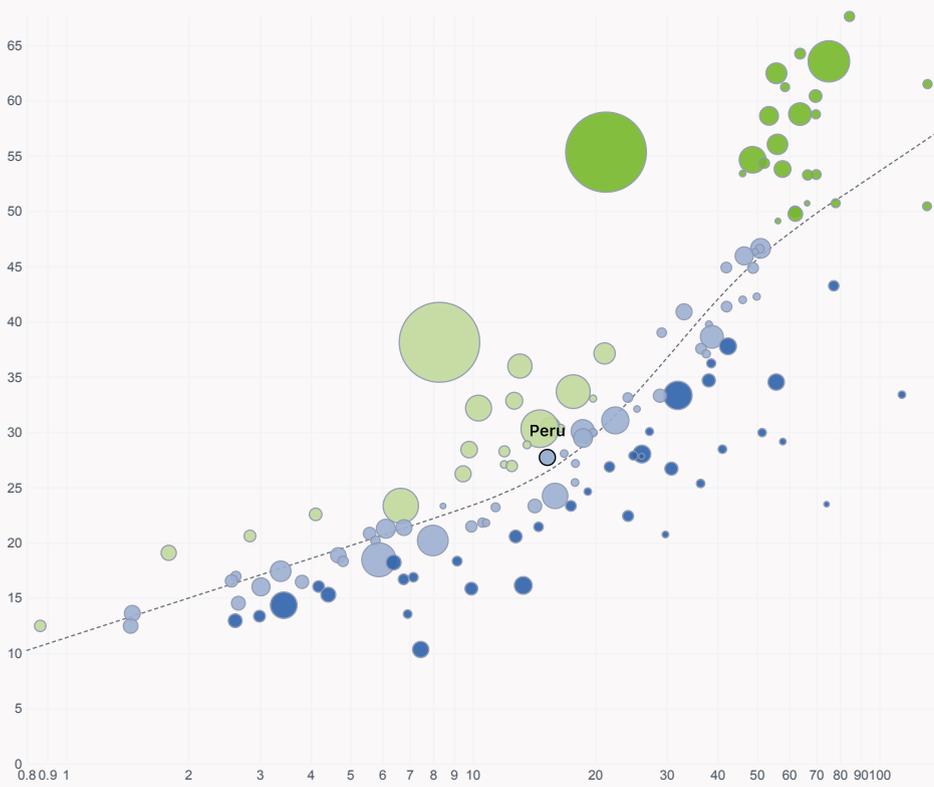

The bubble chart below shows the relationship between income levels (GDP per capita) and innovation performance (GII score). The trend line gives an indication of the expected innovation performance according to income level. Economies appearing above the trend line are performing better than expected and those below are performing below expectations.

> Relative to GDP, Peru's performance is at expectations for its level of development.

> Innovation overperformers relative to their economic development

↑ GII Score

- Innovation leader
- Performing above expectations for level of development
- Performing at expectations for level of development
- Performing below expectations for level of development

Size legend (Population)

→ GDP per capita, PPP logarithmic scale (thousands of \$)

Global Innovation Index 2023

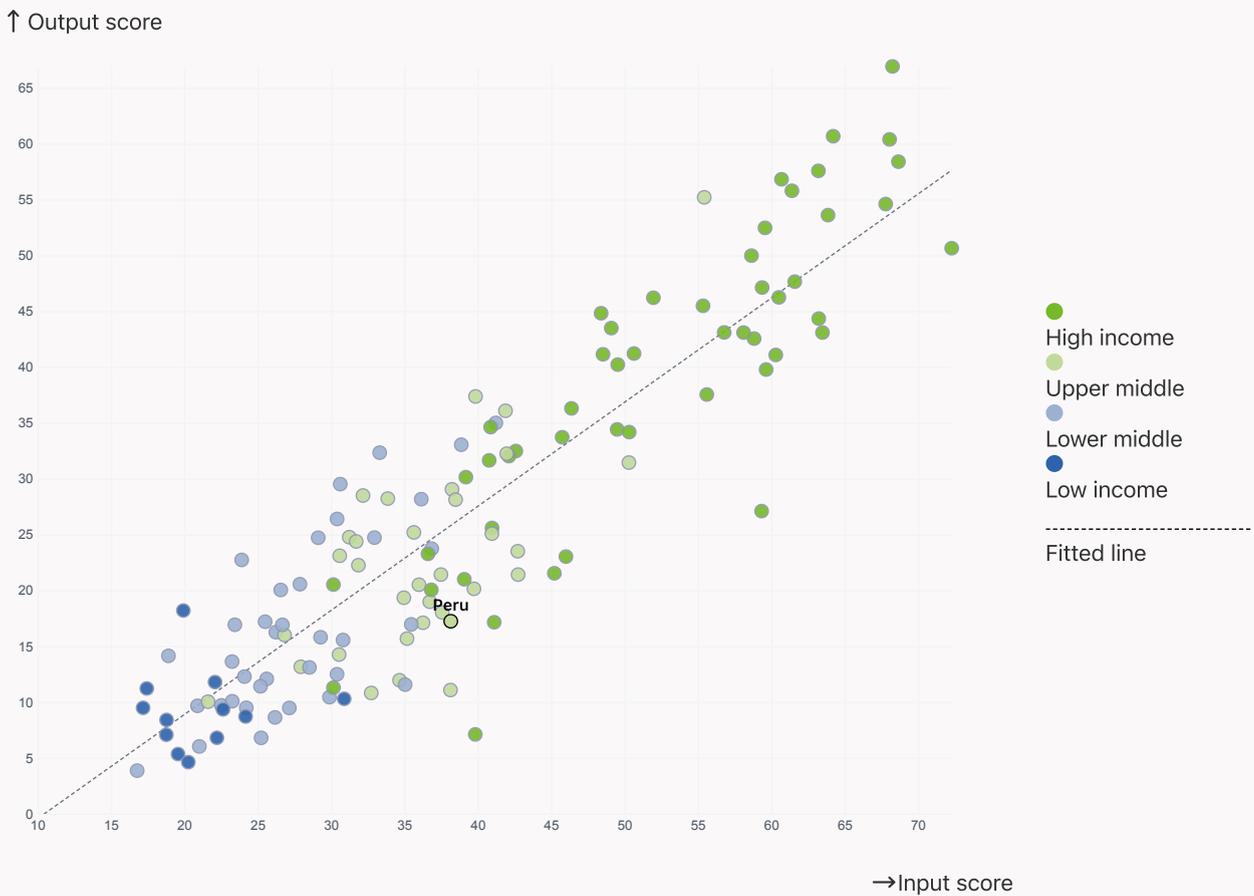

→ Effectively translating innovation investments into innovation outputs

The chart below shows the relationship between innovation inputs and innovation outputs. Economies above the line are effectively translating costly innovation investments into more and higher-quality outputs.

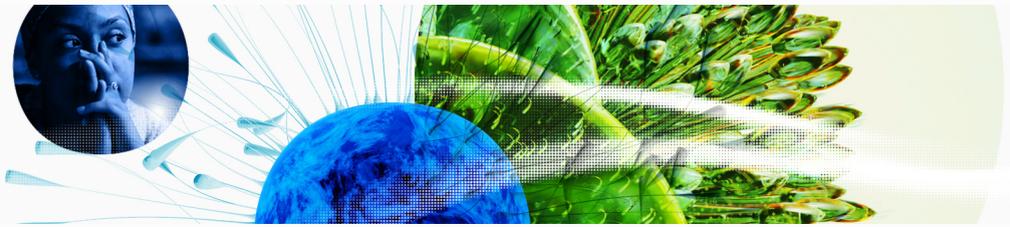

> Peru produces less innovation outputs relative to its level of innovation investments.

> Relationship between innovation inputs and outputs

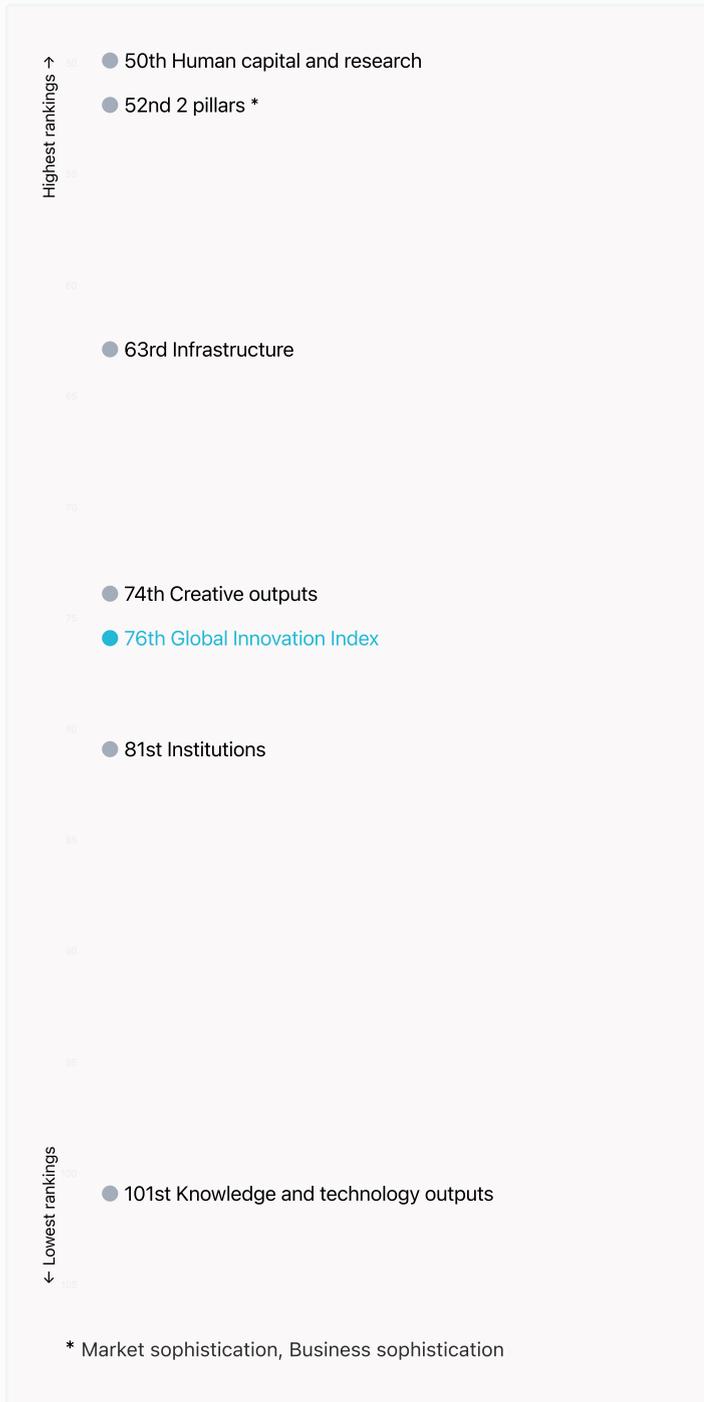

Global Innovation Index 2023

→ Overview of Peru's rankings in the seven areas of the GII in 2023

The chart shows the ranking for each of the seven areas that the GII comprises. The strongest areas for Peru are those that rank above the GII (shown in blue) and the weakest are those that rank below.

> Highest rankings

Peru ranks highest in Human capital and research (50th), Market sophistication, Business sophistication (52nd), Infrastructure (63rd) and Creative outputs (74th).

> Lowest rankings

Peru ranks lowest in Knowledge and technology outputs (101st), Institutions (81st) and Creative outputs (74th).

The full WIPO Intellectual Property Statistics profile for Peru can be found on [this link](#).

Global Innovation Index 2023

→ Benchmark of Peru against other country groupings for each of the seven areas of the GII Index

The charts show the relative position of Peru (blue bar) against other country groupings (grey bars), for each of the seven areas of the GII Index.

> Upper-Middle-Income economies

Peru performs below the upper-middle-income group average in Knowledge and technology outputs, Creative outputs, Institutions.

> Latin America And The Caribbean

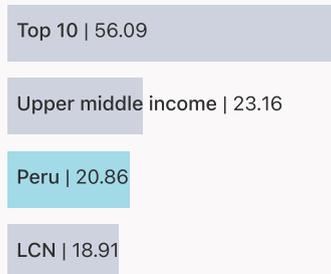

Peru performs above the regional average in Creative outputs, Business sophistication, Market sophistication, Human capital and research, Infrastructure, Institutions.

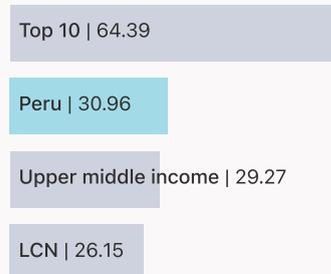

Knowledge and technology outputs

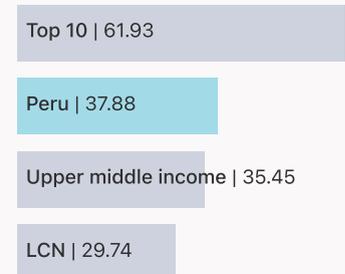

Creative outputs

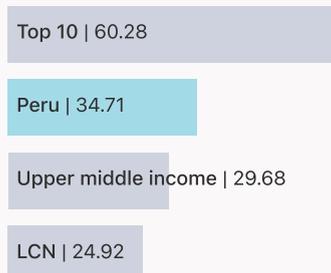

Business sophistication

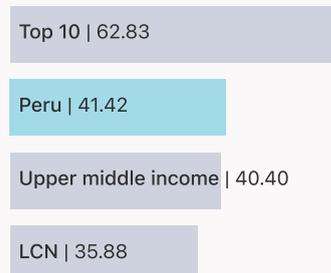

Market sophistication

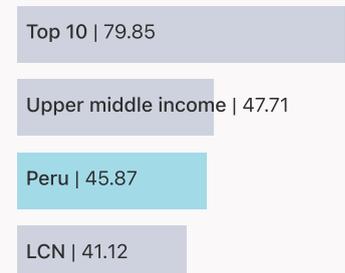

Human capital and research

Institutions

→ Innovation strengths and weaknesses in Peru

The table below gives an overview of the indicator strengths and weaknesses of Peru in the GII 2023.

> Peru's main innovation strengths are **Firms offering formal training, % (rank 5)**, **Loans from microfinance institutions, % GDP (rank 5)** and **Applied tariff rate, weighted avg., % (rank 6)**.

Strengths

Weaknesses

Rank	Code	Indicator name	Rank	Code	Indicator name
5	5.1.2	Firms offering formal training, %	125	5.2.4	Joint venture/strategic alliance deals/bn PPP\$ GDP
5	4.1.3	Loans from microfinance institutions, % GDP	120	6.3.4	ICT services exports, % total trade
6	4.3.1	Applied tariff rate, weighted avg., %	119	5.2.1	University-industry R&D collaboration
19	3.3.1	GDP/unit of energy use	106	7.1.4	Industrial designs by origin/bn PPP\$ GDP
21	2.2.2	Graduates in science and engineering, %	102	6.3.2	Production and export complexity
22	3.1.4	E-participation	93	4.2.3	VC recipients, deals/bn PPP\$ GDP
34	2.2.1	Tertiary enrolment, % gross	88	4.2.2	Venture capital (VC) investors, deals/bn PPP\$ GDP
35	7.1.2	Trademarks by origin/bn PPP\$ GDP	80	7.2.2	National feature films/mn pop. 15-69
37	1.2.3	Cost of redundancy dismissal	48	6.2.2	Unicorn valuation, % GDP
37	3.1.3	Government's online service	40	2.3.3	Global corporate R&D investors, top 3, mn US\$

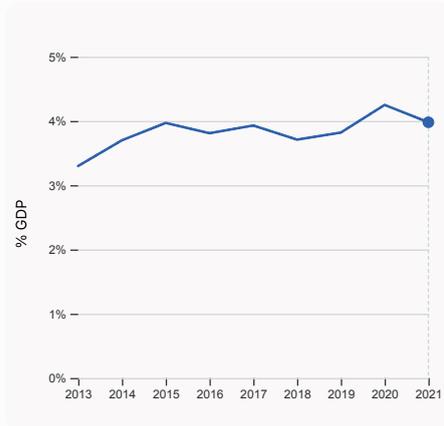

Global Innovation Index 2023

→ Peru's innovation system

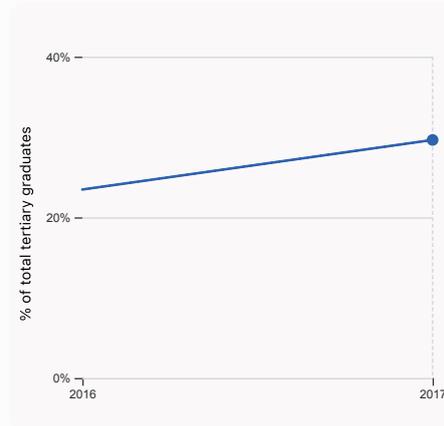

As far as practicable, the plots below present unscaled indicator data.

> Innovation inputs in Peru

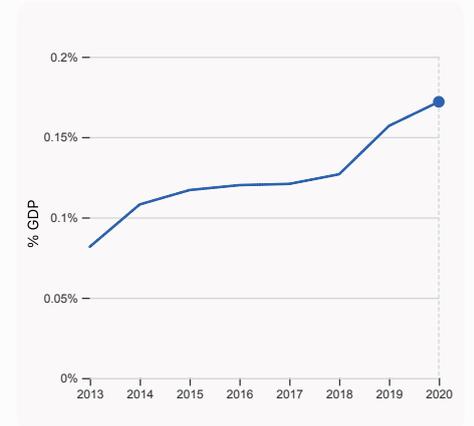

2.1.1 Expenditure on education, % GDP

was equal to 3.98% GDP in 2021, down by 0.27 percentage points from the year prior – and equivalent to an indicator rank of 72.

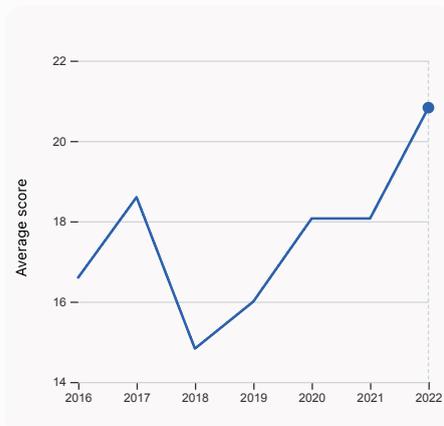

2.2.2 Graduates in science and engineering, %

was equal to 29.64% of total tertiary graduates in 2017, up by 6.17 percentage points from the year prior – and equivalent to an indicator rank of 21.

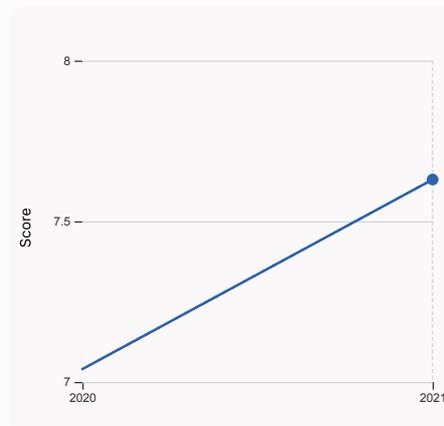

2.3.2 Gross expenditure on R&D, % GDP

was equal to 0.172% GDP in 2020, up by 0.015 percentage points from the year prior – and equivalent to an indicator rank of 92.

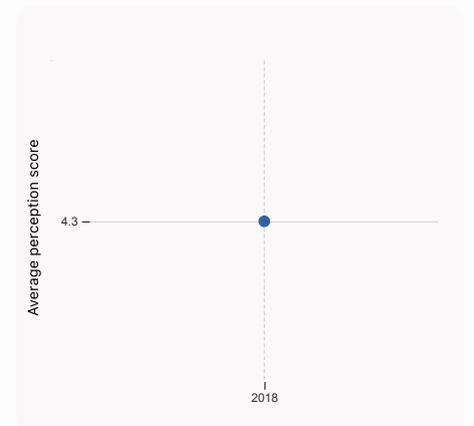

2.3.4 QS university ranking, top 3

was equal to an average score of 20.83 for the top 3 universities in 2022, up by 15.27% from the year prior – and equivalent to an indicator rank of 50.

3.1.1 ICT access

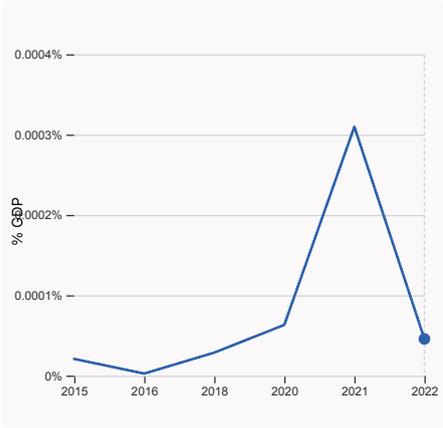

was equal to a score of 7.63 in 2021, up by 8.38% from the year prior – and equivalent to an indicator rank of 94.

4.1.1 Finance for startups and scaleups

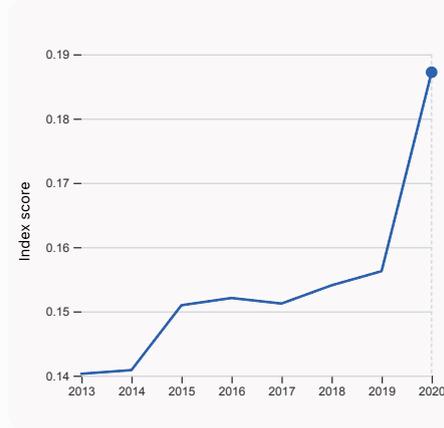

was equal to an average perception score of 4.3 in 2018, equivalent to an indicator rank of 54.

Global Innovation Index 2023

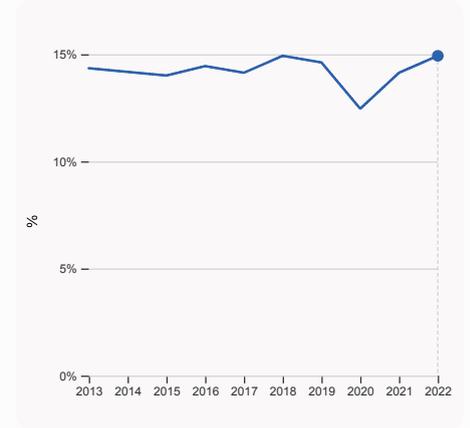

4.2.4 VC received, value, % GDP

was equal to 0.00005% GDP in 2022, down by 0.00026 percentage points from the year prior – and equivalent to an indicator rank of 77.

4.3.2 Domestic industry diversification

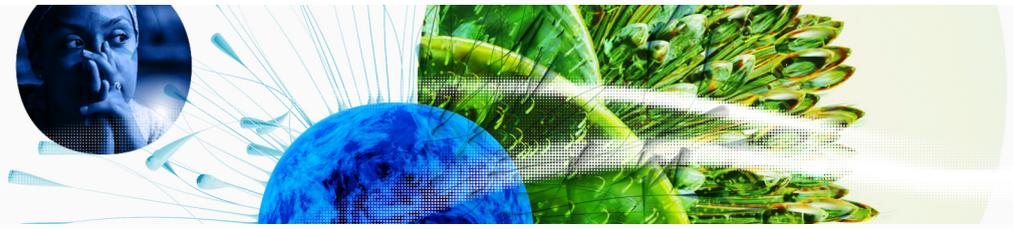

was equal to an index score of 0.187 in 2020, up by 19.81% from the year prior – and equivalent to an indicator rank of 64.

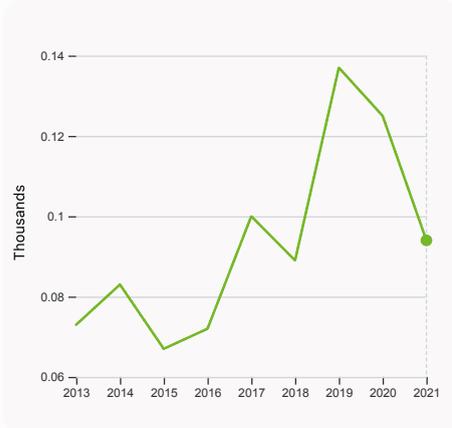

5.1.1 Knowledge-intensive employment, %

was equal to 14.93% in 2022, up by 0.79 percentage points from the year prior – and equivalent to an indicator rank of 89.

Global Innovation Index 2023

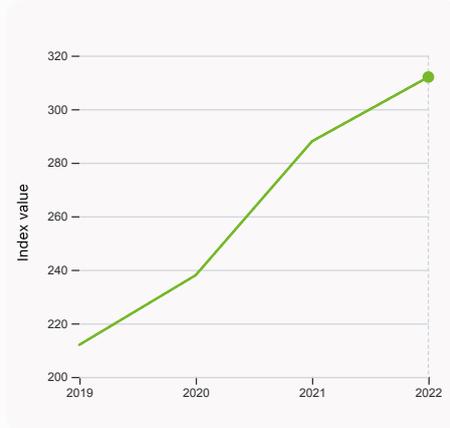

> Innovation outputs in Peru

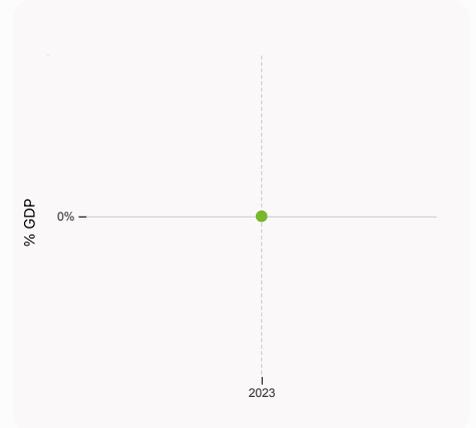

6.1.1 Patents by origin

was equal to 0.094 Thousands in 2021, down by 24.8% from the year prior – and equivalent to an indicator rank of 102.

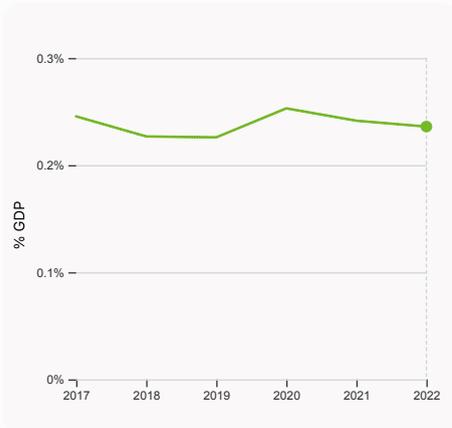

6.1.5 Citable documents H-index

was equal to an index value of 312 in 2022, up by 8.33% from the year prior – and equivalent to an indicator rank of 56.

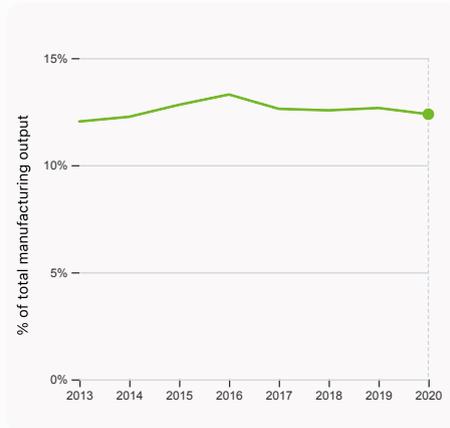

6.2.2 Unicorn valuation, % GDP

was equal to 0 % GDP in 2023 – and equivalent to an indicator rank of 48.

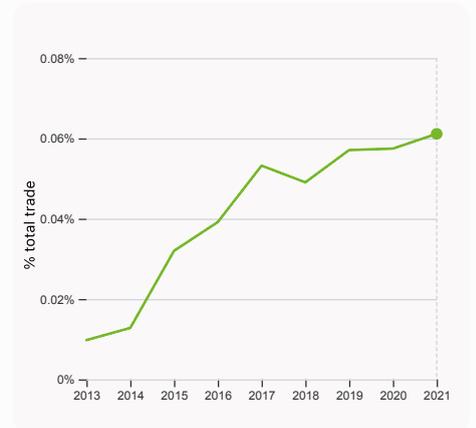

6.2.3 Software spending, % GDP

was equal to 0.236% GDP in 2022, down by 0.0055 percentage points from the year prior – and equivalent to an indicator rank of 63.

6.2.4 High-tech manufacturing, %

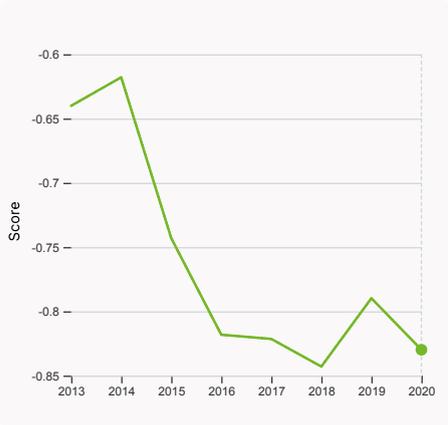

was equal to 12.38% of total manufacturing output in 2020, down by 0.29 percentage points from the year prior – and equivalent to an indicator rank of 84.

6.3.1 Intellectual property receipts, % total trade

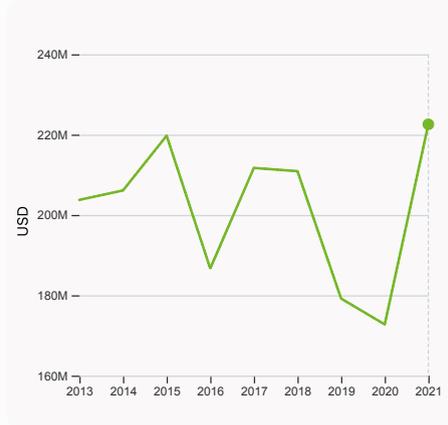

was equal to 0.061% total trade in 2021, up by 0.0037 percentage points from the year prior – and equivalent to an indicator rank of 68.

Global Innovation Index 2023

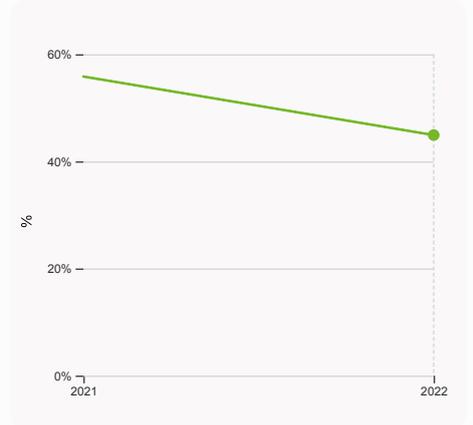

6.3.2 Production and export complexity

was equal to a score of -0.83 in 2020, down by 5.075% from the year prior – and equivalent to an indicator rank of 102.

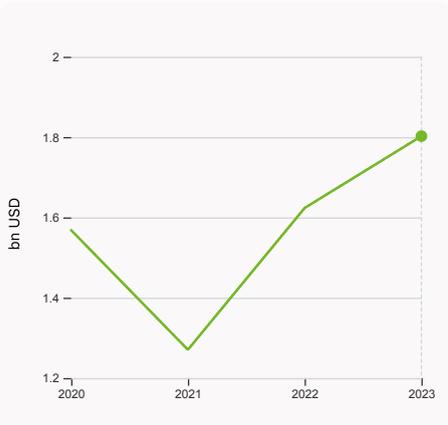

6.3.3 High-tech exports

was equal to 222,576,204 USD in 2021, up by 28.85% from the year prior – and equivalent to an indicator rank of 95.

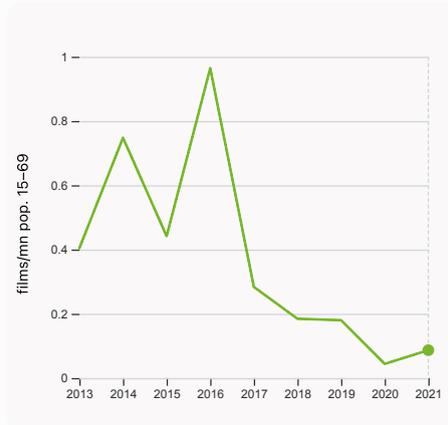

7.1.1 Intangible asset intensity, top 15, %

was equal to 44.92% in 2022, down by 10.93 percentage points from the year prior – and equivalent to an indicator rank of 58.

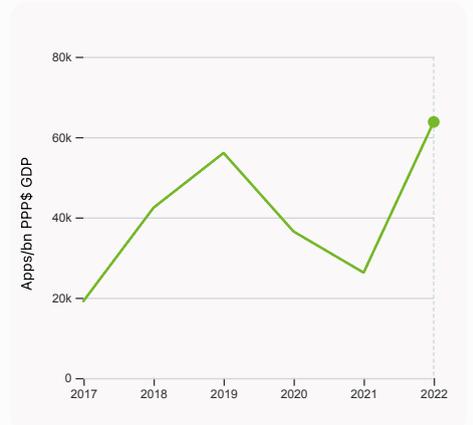

7.1.3 Global brand value, top 5,000

was equal to 1.802 bn USD in 2023, up by 11.015% from the year prior – and equivalent to an indicator rank of 58.

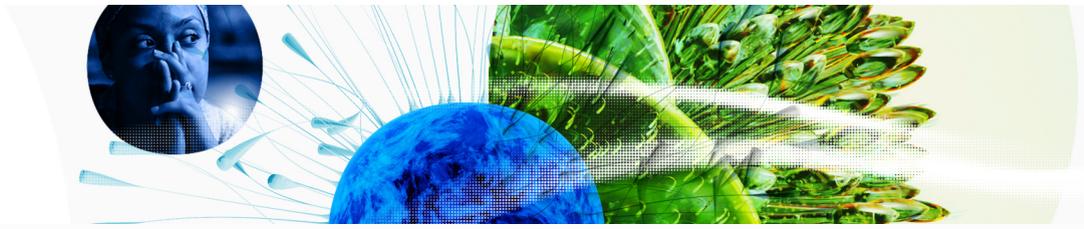

7.2.2 National feature films/mn pop. 15-69

was equal to 0.087 films/mn pop. 15-69 in 2021, up by 96.68% from the year prior – and equivalent to an indicator rank of 80.

7.3.4 Mobile app creation/bn PPP\$ GDP

was equal to 63,774.67 Apps/bn PPP\$ GDP in 2022, up by 142.86% from the year prior – and equivalent to an indicator rank of 85.

Global Innovation Index 2023

→ About the Global Innovation Index

- The Global Innovation Index (GII) is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations.
- Recognizing that innovation is a key driver of economic development, the GII aims to provide an innovation ranking and rich analysis referencing around 130 economies. Over the last decade, the GII has established itself as both a leading reference on innovation and a “tool for action” for economies that incorporate the GII into their innovation agendas.

The Index is a ranking of the innovation capabilities and results of world economies. It measures innovation based on criteria that include institutions, human capital and research, infrastructure, credit, investment, linkages; the creation, absorption and diffusion of knowledge; and creative outputs.

The GII has two sub-indices: the Innovation Input Sub-Index and the Innovation Output Sub-Index, and seven pillars, each consisting of three sub-pillars.
