

Pakistan ranking in the Global Innovation Index 2024

Pakistan ranks **91st** among the 133 economies featured in the GII 2024.

The Global Innovation Index (GII) ranks world economies according to their innovation capabilities. Consisting of roughly 80 indicators, grouped into innovation inputs and outputs, the GII aims to capture the multi-dimensional facets of innovation.

Pakistan ranks **14th** among the 38 lower-middle-income group economies.

Pakistan ranks **6th** among the 10 economies in Central and Southern Asia.

> Pakistan GII Ranking (2020-2024)

The table shows the rankings of Pakistan over the past four years. Data availability and changes to the GII model framework influence year-on-year comparisons of the GII rankings. The statistical confidence interval for the ranking of Pakistan in the GII 2024 is between ranks 85 and 99.

Year	GII Position	Innovation Inputs	Innovation Outputs
2020	107th	118th	88th
2021	99th	117th	77th
2022	87th	111st	69th
2023	88th	113rd	68th
2024	91st	116th	70th

Pakistan performs better in innovation outputs than innovation inputs in 2024.

This year Pakistan ranks **116th** in innovation inputs. This position is lower than last year.

Pakistan ranks **70th** in innovation outputs. This position is lower than last year.

Pakistan has no clusters in the top 100 S&T clusters of the Global Innovation Index.

Global Innovation Index 2024

> Global Innovation Tracker

The Global Innovation Tracker 2024 shows what is the current state of innovation in Pakistan, how rapidly is technology being embraced and what are the resulting societal impacts.

For Pakistan, 4 indicators have improved in the short-term and 6 indicators have worsened.

Science and innovation investment

Scientific publications	R&D investments	Venture capital		International patent filings
		Deal numbers	Deal values	
▼ -7.6% 2022 - 2023	▼ -0.5% 2019 - 2021	▼ -50% 2022 - 2023	▼ -86.9% 2022 - 2023	▲ 150% 2022 - 2023
▲ 13.9% 2013 - 2023	▼ -2.9% 2011 - 2021	▲ 24.1% 2013 - 2023	▲ 57.9% 2013 - 2023	▲ 17.5% 2013 - 2023

Technology adoption

Safe sanitation	Connectivity		Robots	Electric vehicles
	Fixed broadband	5G

Socioeconomic impact

Labor productivity	Life expectancy	Temperature change
▼ -1.6% 2022 - 2023	▲ 0.5% 2021 - 2022	▲ 1.4°C 2023
▲ 1% 2013 - 2023	▲ 0.3% 2012 - 2022	n/a
20,328 USD in 2023	66.4 years in 2022	

Notes: Not all indicators of the Global Innovation Tracker are used to calculate the Global Innovation Index. Long-term annual growth refers to the compound annual growth rate (CAGR) over the indicated period. For each variable, a one-year growth rate is set for the short run, and ten-year CAGR is set for the long run; time windows might differ when gaps exist in data availability. The end period corresponds to the most recent available observation, which may differ among countries. Temperature change is an exception: it indicates the change in degrees Celsius with respect to the average temperature in the country from 1951–1980. Figures are rounded.

Expected vs. observed innovation performance

The bubble chart below shows the relationship between income levels (GDP per capita) and innovation performance (GII score). The trend line gives an indication of the expected innovation performance according to income level. Economies appearing above the trend line are performing better than expected and those below are performing below expectations.

Relative to GDP, Pakistan is performing above expectations for its level of development.

> Innovation overperformers relative to their economic development

Effectively translating innovation investments into innovation outputs

The chart below shows the relationship between innovation inputs and innovation outputs. Economies above the line are effectively translating costly innovation investments into more and higher-quality outputs.

Pakistan produces more innovation outputs relative to its level of innovation investments.

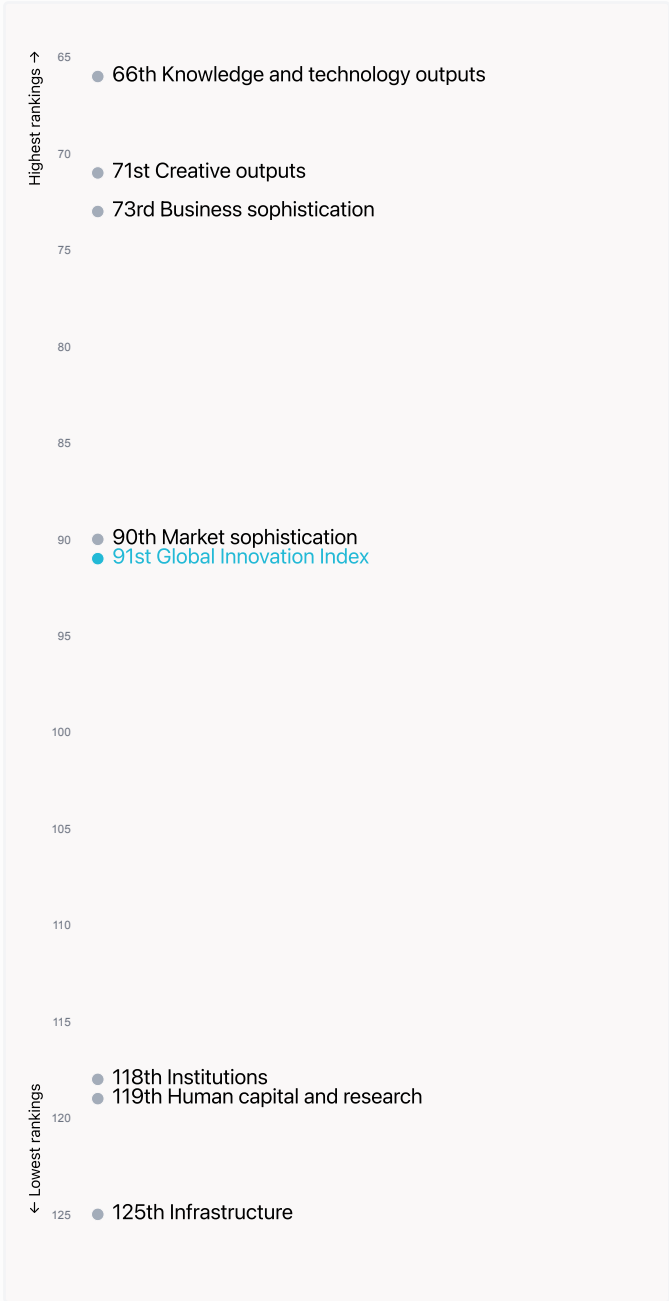

> Relationship between innovation inputs and outputs

Overview of Pakistan's rankings in the seven areas of the GII in 2024

The chart shows the ranking for each of the seven areas that the GII comprises. The strongest areas for Pakistan are those that rank above the GII (shown in blue) and the weakest are those that rank below.

Highest rankings

Pakistan ranks highest in Knowledge and technology outputs (66th), Creative outputs (71st), Business sophistication (73rd) and Market sophistication (90th).

Lowest rankings

Pakistan ranks lowest in Infrastructure (125th), Human capital and research (119th) and Institutions (118th).

Innovation strengths and weaknesses in Pakistan

The table below gives an overview of the indicator strengths and weaknesses of Pakistan in the GII 2024.

Pakistan's main innovation strengths are **High-tech imports, % total trade** (rank 13), **Mobile app creation/bn PPP\$ GDP** (rank 14) and **ICT services exports, % total trade** (rank 22).

Strengths

Rank	Code	Indicator name
13	5.3.2	High-tech imports, % total trade
14	7.3.3	Mobile app creation/bn PPP\$ GDP
22	6.3.4	ICT services exports, % total trade
23	4.3.3	Domestic market scale, bn PPP\$
24	6.2.3	Software spending, % GDP
41	2.1.5	Pupil–teacher ratio, secondary
42	6.1.5	Citable documents H-index
43	5.2.4	Joint venture/strategic alliance deals/bn PPP\$ GDP
44	2.3.4	QS university ranking, top 3*
44	6.1.4	Scientific and technical articles/bn PPP\$ GDP

Weaknesses

Rank	Code	Indicator name
125	1.1.1	Operational stability for businesses*
124	3.2.3	Gross capital formation, % GDP
123	2.1.1	Expenditure on education, % GDP
121	4.1.2	Domestic credit to private sector, % GDP
111	2.1.3	School life expectancy, years
82	7.2.2	National feature films/mn pop. 15–69
79	1.3.2	Entrepreneurship policies and culture†
62	7.2.3	Entertainment and media market/th pop. 15–69
49	6.2.2	Unicorn valuation, % GDP
41	2.3.3	Global corporate R&D investors, top 3, mn USD

Global Innovation Index 2024

Pakistan's innovation system

As far as practicable, the plots below present unscaled indicator data.

> Innovation inputs in Pakistan

2.1.1 Expenditure on education

was equal to 1.69 % GDP in 2021, down by 0.37 percentage points from the year prior – and equivalent to an indicator rank of 123.

2.3.1 Researchers

was equal to 415.3 FTE per million population in 2021, up by 10.92% from the year prior – and equivalent to an indicator rank of 76.

2.3.2 Gross expenditure on R&D

was equal to 0.16 % GDP in 2021, down by 0.01 percentage points from the year prior – and equivalent to an indicator rank of 91.

2.3.4 QS university ranking

was equal to an average score of 28.47 for the top three universities in 2023, down by 6.44% from the year prior – and equivalent to an indicator rank of 44.

4.2.4 VC received, value

was equal to 40.36 thousand USD in 2023, down by 86.91% from the year prior – and equivalent to an indicator rank of 60.

4.3.2 Domestic industry diversification

was equal to an index score of 0.13 in 2016 – and equivalent to an indicator rank of 45.

5.1.1 Knowledge-intensive employment

was equal to 11.44 % in 2021, down by 0.35 percentage points from the year prior – and equivalent to an indicator rank of 104.

Global Innovation Index 2024

> Innovation outputs in Pakistan

6.1.1 Patents by origin

was equal to 371 patents in 2022, down by 12.91% from the year prior – and equivalent to an indicator rank of 92.

6.2.2 Unicorn valuation

was equal to 0 % GDP in 2024 with no change from the year prior – and equivalent to an indicator rank of 49.

6.2.4 High-tech manufacturing

was equal to 21.48 % of total manufacturing output in 2016 – and equivalent to an indicator rank of 57.

6.3.2 Production and export complexity

was equal to a score of -0.57 in 2021, up by 13.64% from the year prior – and equivalent to an indicator rank of 92.

6.3.3 High-tech exports

was equal to 369.44 million USD in 2022, down by 3.6% from the year prior – and equivalent to an indicator rank of 88.

7.1.1 Intangible asset intensity

was equal to 39.67 % for the top 15 companies in 2023, down by 14.09 percentage points from the year prior – and equivalent to an indicator rank of 61.

7.1.3 Global brand value

was equal to 1.2 billion USD for the brands in the top 5,000 in 2020, down by 4.76% from the year prior – and equivalent to an indicator rank of NA.

7.2.2 National feature films

was equal to 26 films in 2022, up by 271.43% from the year prior – and equivalent to an indicator rank of 82.

7.3.3 Mobile app creation

was equal to 2 billion global downloads of mobile apps in 2023, down by 9.09% from the year prior – and equivalent to an indicator rank of 14.

Pakistan's innovation top performers

2.3.4 QS university ranking of Pakistan’s top universities

Rank	University	Score
315	QUAID-I-AZAM UNIVERSITY	33.40
367	NATIONAL UNIVERSITY OF SCIENCES AND TECHNOLOGY (NUST) ISLAMABAD	30.20
540	LAHORE UNIVERSITY OF MANAGEMENT SCIENCES (LUMS)	21.80

Global Innovation Index 2024

About the Global Innovation Index

- The Global Innovation Index (GII) is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations.
- Recognizing that innovation is a key driver of economic development, the GII aims to provide an innovation ranking and rich analysis referencing around 130 economies. Over the last decade, the GII has established itself as both a leading reference on innovation and a “tool for action” for economies that incorporate the GII into their innovation agendas.

The Index is a ranking of the innovation capabilities and results of world economies. It measures innovation based on criteria that include institutions, human capital and research, infrastructure, credit, investment, linkages; the creation, absorption and diffusion of knowledge; and creative outputs.

The GII has two sub-indices: the Innovation Input Sub-Index and the Innovation Output Sub-Index, and seven pillars, each consisting of three sub-pillars.
