

Hague Agreement Concerning the International Registration of Industrial Designs

Individual Designation Fee: Republic of Korea

1. In accordance with Rule 28(2)(b) of the Common Regulations under the 1999 Act and the 1960 Act of the Hague Agreement, the Director General of the World Intellectual Property Organization (WIPO) has established, after consultation with the Office of the Republic of Korea, the amounts of the individual designation fee which must be paid in connection with an international application in which the Republic of Korea is designated, and in connection with the renewal of an international registration designating the Republic of Korea.

2. It is recalled that the declaration received from the Republic of Korea under Article 7(2) of the 1999 Act also specified that it should not apply to an international application for products belonging to classes 2, 5, or 19 of the Locarno Classification, or to the renewal of any international registration resulting therefrom. Instead, the Republic of Korea chose to apply level three of the standard designation fee referred to in Rule 12(1)(b)(iii) for an international application for products belonging to classes 2, 5, or 19. See Information Notice No.1/2014.

3. Accordingly, the following amounts of the individual designation fee shall apply to an international application for products belonging to any class other than 2, 5 and 19, and to the renewal of any international registration resulting therefrom:

Individual Designation Fee		Amounts <i>(in Swiss francs)</i>
International Application	– for each design	210
First Renewal	– for each industrial design	339
Second Renewal	– for each industrial design	800
Third Renewal	– for each industrial design	923

4. Level three of the standard designation fee referred to in Item 4.3 of the Schedule of Fees shall apply to an international application for products belonging to classes 2, 5, or 19. The standard designation fee referred to in Item 8 of the Schedule of Fees shall apply to the renewal of any international registration resulting therefrom.

5. The declaration relating to the individual designation fee made by the Republic of Korea will enter into force on July 1, 2014.
