CHAPTER II

INFORMATION RESOURCES

Article 4

Legal Framework for Information Resources

Information resources shall be the objects of relations between natural persons, legal entities and the State. They are information resources of Azerbaijan Republic and shall be protected by Law together with other resources.

Legal framework for information resources shall be determined by norms that shall establish:

- procedure for documenting of information;
- title for documents and for files of documents;
- category of information by the level of its accessibility;
- procedure for legal protection of information.

Article 5

Documenting of Information

Documenting of information shall be a binding condition for inclusion of information into information resources. Information shall be documented in accordance with procedure established by the relevant bodies of the executive power being responsible for security of Azerbaijan Republic, for organisation of recordkeeping, standartisation of documents and their files.

Under legislation of Azerbaijan Republic, a document received from information systems, including automatised systems, shall become valid upon its signature by an official.

Document being in circulation of automised information and telecommunication systems may also be confirmed by electron digital signature.

Under legislation of Azerbaijan Republic, electron digital signature shall be made and its validity shall be recognised at availability of software and hardware ensuring identification of

the signature in the automatised information system, and at observance of established conditions for their use.

Article 6

Title for Information Resources, Systems, Technologies and Means for their Support

All types of ownership provided for by legislation of Azerbaijan Republic shall be allowed for information resources, systems, technologies and means for their support.

Natural persons and legal entities shall be owners of information resources, systems, technologies and means for their support, created at their expense, acquired by them on legal grounds and received in order of granting, and inheritance.

Information resources, systems, technologies and means for their support created, acquired, accumulated at the expense of the budget of Azerbaijan Republic and funds of state owned enterprises, institutions and organisation shall be the state property.

Procedure for exercise of title for information resources, systems, technologies and means for their support shall be established by legislation of Azerbaijan Republic.

Subjects that submit a documented information to bodies of the executive power and to relevant organisations in accordance with procedure established by legislation of Azerbaijan Republic, shall not lose their rights for these documents and for use of information they contain. These documents shall be in joint ownership of the state and subjects submitting them.

Prices for information products and services shall be established under legislation of Azerbaijan Republic by bodies of the executive power or based on concluded agreements.

All natural persons and legal entities involving in information processes, selling freely information products and services, shall be considered participants of common information market. Users of information, proprietors and owners of information products and services shall be entitled to select freely intermediaries, types of information and means for their processing, nomenclature of information products and services, except cases provided for by legislation of Azerbaijan Republic.

Title for ownership for means for information processing shall not create title for information resources. At joint use of means for processing, initial documents shall belong to their owners, and belonging of by-products created in such a case shall be regulated by an agreement. Owner of title for information resources shall be responsible for quality of information created.

Rules for work with information resources being the state secret, and property relations shall be regulated by the Law of Azerbaijan Republic "On State Secret" and other legislative acts.

Article 7

State Information Resources

Bodies of the State power and institutions of local government, all enterprises, institutions and organisations regardless of their organisational-legal forms and forms of ownership, and citizens may participate in formation of state information resources.

Bodies of the state power shall form state information resources concerned to them and ensure their use subject to established authority.

Activity of bodies of the state power and organisations on formation of State information resources shall be financed from the state budget, special funds and other foundations.

Activity of organisations specialised in the field of formation of state information resources and provision of services shall be carried out based on special permits.

Article 8

Submission of Documented Information for Formation of State Information Resources

A list of bodies and organisations being in charge of formation and processing of information resources, and procedure for submission of documented information by bodies of the State power and institutions of local government, all enterprises, institutions and organisations regardless of their organisational- legal forms and forms of ownership, and citizens shall be established by relevant body of the executive power.

Procedure for formation and processing of information being the state secret and of confidential information shall be established by legislation of Azerbaijan Republic.

Article 9

National Information Resources

Information resources of bodies of the state power and institutions of local government, of all enterprises, institutions and organisations regardless of their organisational legal forms and forms of ownership, and of citizens, or some part of these resources may be declared national information resources, pursuant to legislation of Azerbaijan Republic and should be protected as national property.

Article 10

Information Resources by Categories of Access

Information resources by categories of access may be open and with limited access. Pursuant to legislation of Azerbaijan Republic and decisions of relevant bodies of the executive power, information resources, except documented information with limited access, shall be open for access.

Documented information with limited access pursuant to the terms of its legal framework shall be divided into information considered state secret and confidential one.

Classification of information as state secret, procedure for its use and protection shall be established by the Law of Azerbaijan Republic "On State Secret".

Information not being state secret but needed to be kept in secrecy in order to protect legal interests of citizens, institutions, enterprises and organisations shall be confidential one.

Gathering, processing, use and dissemination of the confidential information shall only be allowed in cases established by legislation of Azerbaijan Republic.

CHAPTER III

USE OF INFORMATION RESOURCES

Article 11

Right to Access to Data of Information Resources

Users shall have equal right to get access to state information, resources and shall not be obliged to ground for these resources" proprietor or owner the necessity to get the information they request, except documented information with limited access under legislation of Azerbaijan Republic and decisions of relevant bodies of the executive power.

The use of indirect information products from information obtained on sound grounds from state information resources for the business purposes shall only be permitted to users with reference to a source of its receipt. In such a case the users" profit shall be generated not from receipt of information from state information resources but as a result of creation of indirect information products.

Procedure for access of users to the work with information shall be established by relevant body of the executive power or by the owner subject to the requirements of the present Law. Charge shall not be collected for receipt of information on the procedure and on services provided.

A list of information services for which charge is not collected from users of information resources or whose costs are paid partially shall be established by a relevant body of the executive power. Compensation of a difference between charges for services provided shall be reimbursed from the state budget, special funds and other sources.

Article 12
