**Process of accession to Madrid Protocol**

- **Article 14** of Madrid Protocol- Any Intergovernmental organization may also become party to Madrid Protocol.
- **Article 9ter** of Madrid Protocol- If several contracting states agree to effect the unification to their domestic legislations on marks they may notify DG.
- Based on the above ARIPO submitted their proposal to join Madrid Protocol to Council of Ministers – Ghana Nov 2011- Permission granted.
Process cont. - Challenges

- In order ARIPO to join Madrid Protocol it requires to issue unitary Marks. This is impossible for now due to the following reasons.
- Some ARIPO Member States belong to Banjul, some belong to Both Madrid Agreement and Madrid Protocol and some does not belong anywhere and some uses National laws as follows.

Process cont.

- Members of Banjul and Madrid.
- Ghana - Madrid Protocol
- Liberia - Madrid System + Banjul Protocol
- Lesotho - Madrid System + Banjul Protocol
- Malawi - Banjul Protocol
- Namibia - Madrid System + Banjul
- Swaziland - Madrid System + Banjul
Process cont.

- Sudan- Madrid system
- Zambia Madrid System
- Uganda- Banjul Protocol
- Tanzania- Banjul
- Zimbabwe- Banjul
- Somalia- No Protocol
- Mozambique – Madrid system
- Sierra Leone- Madrid system
- Kenya- Madrid Agreement.

Process cont.

- The Gambia- National law
- Rwanda- Member of PCT- No status yet.
- Therefore it is not possible to ARIPO to issue the unitary mark based on the situation mentioned above.
- It is also difficult for ARIPO who will sign the instrument of Accession – ARIPO is not a Territory.
- Fee structure different for each Member states.
- No Regional database.- examination is done by Ms
Way Forward

- ARIPO is in the process of amending the Banjul Protocol to make it attractive so that every Ms become member- then it will be easy to join Madrid Protocol.
- (Banjul Protocol is closely linked to the Madrid System).
- Harmonization of MS national laws.
- Sensitize ARIPO Members to join Madrid System- it will be easy for ARIPO to join Madrid Protocol.
- There must be a declaration from MS to allow ARIPO to grant a unitary mark.

Conclusion

- The mandate for ARIPO to join the Madrid Protocol have been given, though the process is very complicated, a lot of awareness creation is needed to our MS, sensitization to our government officials and capacity building is also needed.

- Most of ARIPO MS are members of Madrid system, we request WIPO to work very closely with ARIPO on awareness creation, capacity building and
Conclusion cont.

- Sensitization of the government official on the importance of Madrid Protocol as important tool for economic development of the countries.
- Madrid Protocol awareness can be done through round table which WIPO conduct every year at Administrative Council sessions and we hope ARIPO council Members will agree since most of the IP offices are becoming semi autonomous, they no longer get revenue from government, they are required to generate their own income.

Conclusion cont.,

- ARIPO joining Madrid Protocol means more TM applications, more revenue to ARIPO and its Ms and increase market for their goods and better economy for ARIPO countries.
