

## **13. Report on the progress of the WIPO IPCRECLASS project**

IPC Committee of Experts 45

Geneva  
February 26, 2013

Patrick Fiévet  
Head of IT Systems Section

# Agenda

## IPCRECLASS

- What happened in IPCRECLASS since CE 44
- Project status
- Open questions
- Perspectives

# IPCRECLASS

## What happened since CE44?

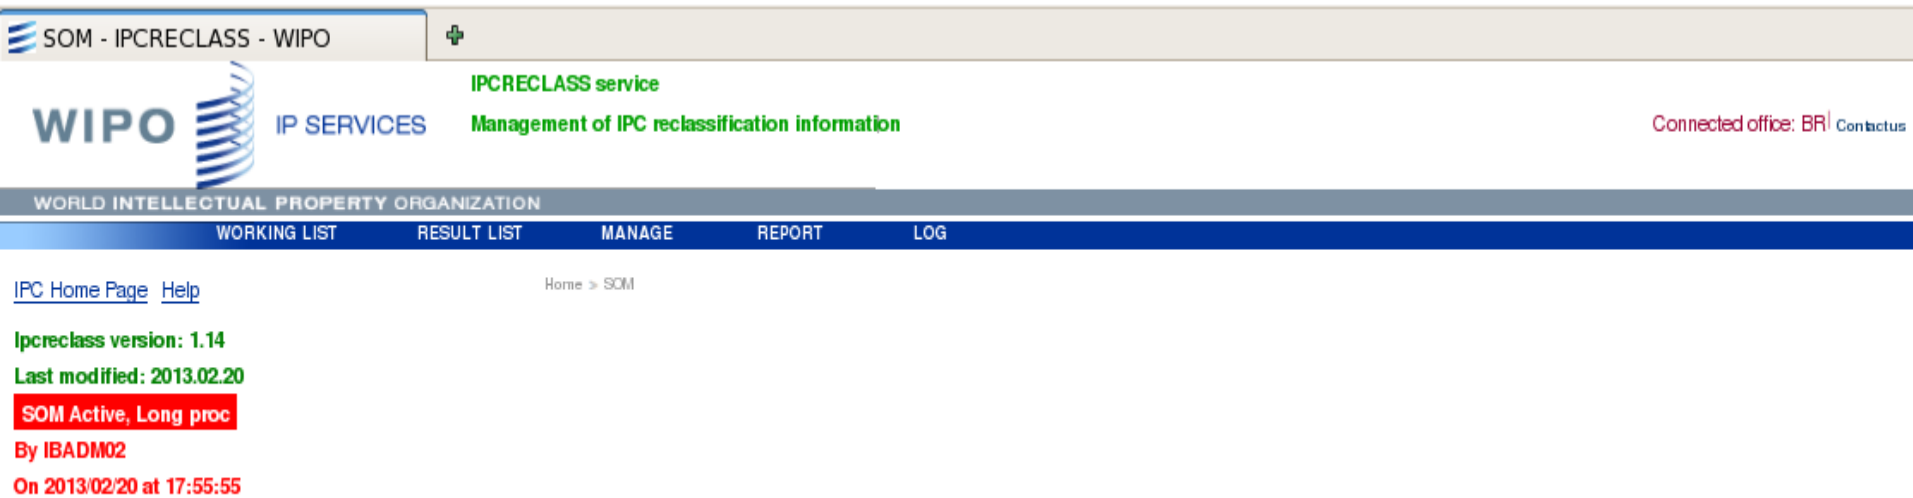

- IPCRECLASS Move into production April 2012
- **RESIDUAL** Working Lists uploaded for 2009, 2010, 2011 (June 7)
- Low number of reclassification see [QC013 annex 6](#)
- [CE446](#) project for feedback from offices
- Upload of 569431 working lists for IPC 2013.01 (Oct. 31)
- training session for offices February 26, 2013 (training support under [IEF CE446](#) )

# IPCRECLASS project status

## Recent developments:

- IB considered some CE446 suggestions
- Import of result List fixed
- Access for offices to their IPCRECLASS logs
- Special operation mode

# Special Operations Mode (SOM)

The screenshot shows the user interface for the Special Operations Mode (SOM) of the IPRECLASS service. At the top, a breadcrumb trail reads "SOM - IPRECLASS - WIPO". The main header area features the WIPO logo and the text "IP SERVICES" on the left, and "IPRECLASS service" and "Management of IPC reclassification information" in green on the right. A red status indicator on the far right says "Connected office: BR | Contactus". Below this is a dark blue navigation bar with the text "WORLD INTELLECTUAL PROPERTY ORGANIZATION" and five menu items: "WORKING LIST", "RESULT LIST", "MANAGE", "REPORT", and "LOG". The main content area starts with a breadcrumb "Home > SOM" and a link to "IPC Home Page Help". It then displays the following information in green text: "Ipreclass version: 1.14" and "Last modified: 2013.02.20". A red box highlights the text "SOM Active, Long proc". Below this, it says "By IBADM02" and "On 2013/02/20 at 17:55:55".

e.g. during upload of WLS by WIPO

# IPC RECLASS open questions

## Office feedback from offices (see IEF [CE446](#)):

- Performance issues?
- Symbols at family level e.g. several « first »
- ST.8 format not accepted by IPCRECLASS =>Not up to date Result list DTD (ST. 8 format , mandatory date )
- Notification about reclassification done by another office on a WL they are responsible for (stage 1b and 2)

# IPCRECLASS open questions

## IPC workshop 2013 + IPCRECLASS training session:

- Read-only access for commercial providers to [IPCRECLASS report tab](#) ?

# IPCRECLASS project perspectives

## Planned actions:

- Consider implementation of default transfer for stage 3
- Solution needed to inform MCD about reclassification item done with no change
- Explicit deactivation of old symbols in all result lists exported IPCRECLASS

# IPCRECLASS project perspectives

Other actions? e.g. for open questions

- Decision needed based on CE input

# IT operations and support for IPC

Questions?
