IPC reclassification since CE 45:

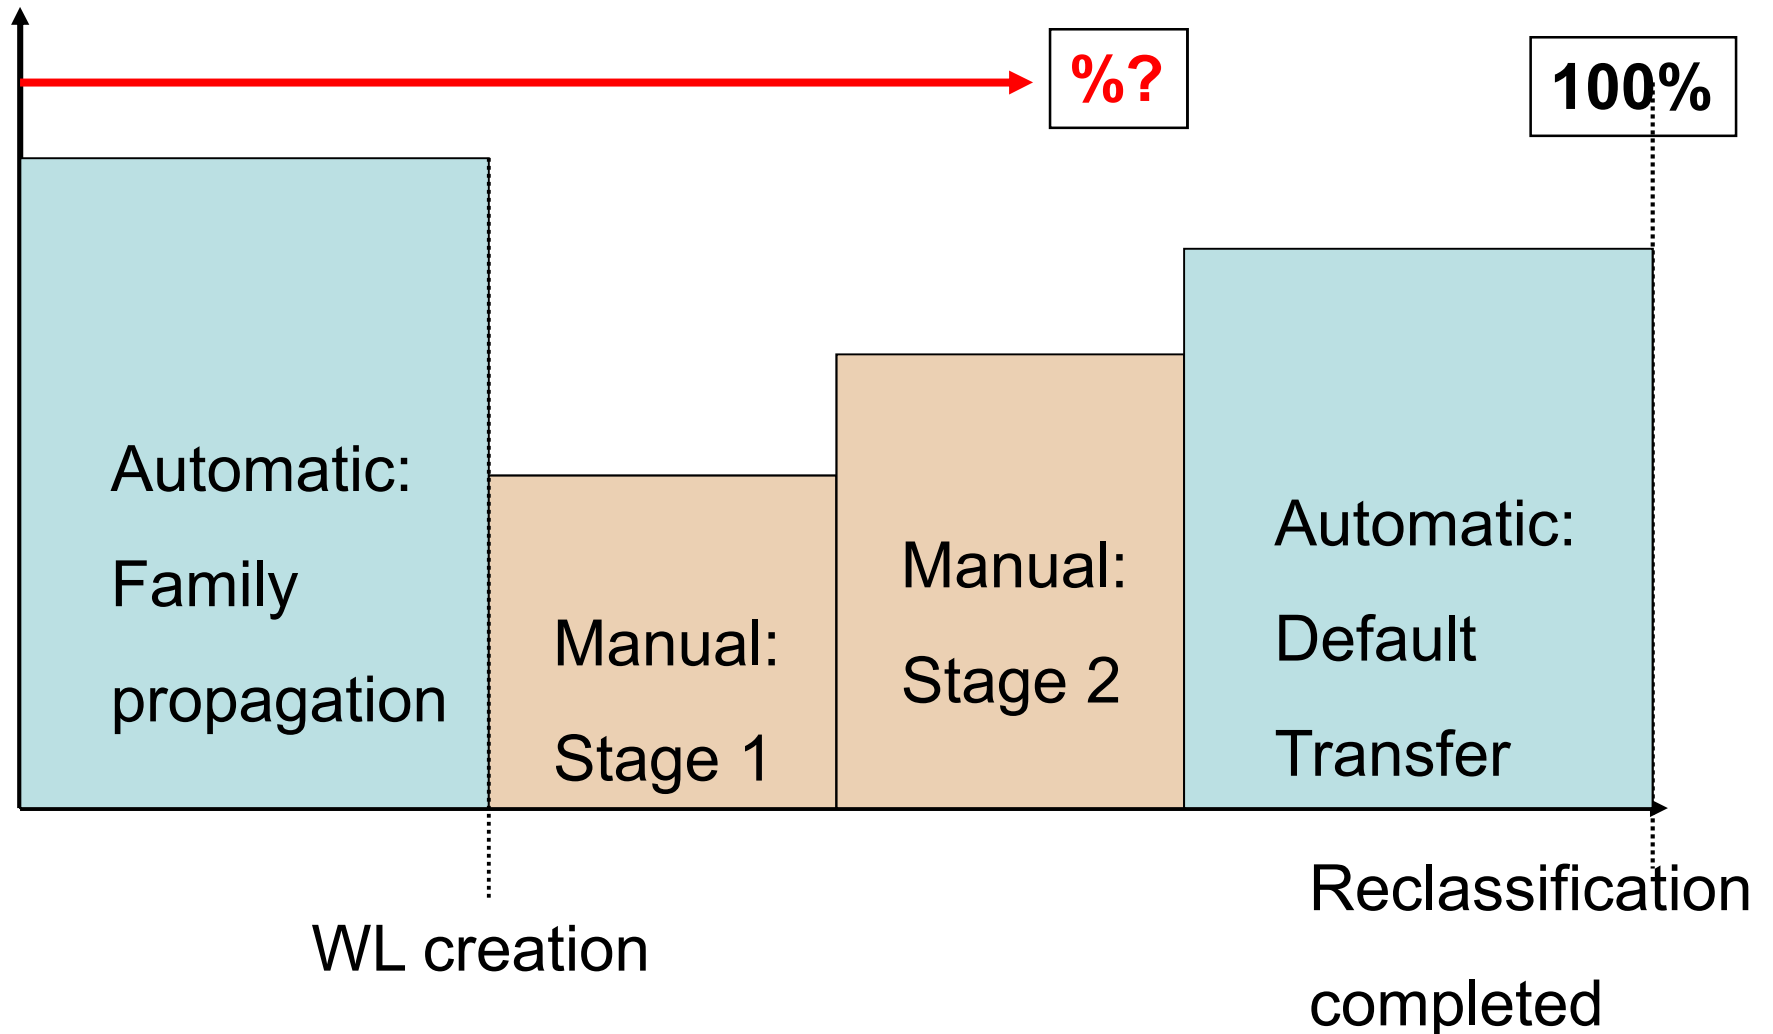

IPC reclassification since CE 45:

Observations:

- Backlog of reclassification today: **1,2 Million families**
- Focus on the 2009-2012 part of the backlog (100,000 families reclassified per month)
- Little activity on IPC 2013
- IPC reclassification data submission improvement in progress in big offices

IPC Reclassification completion:

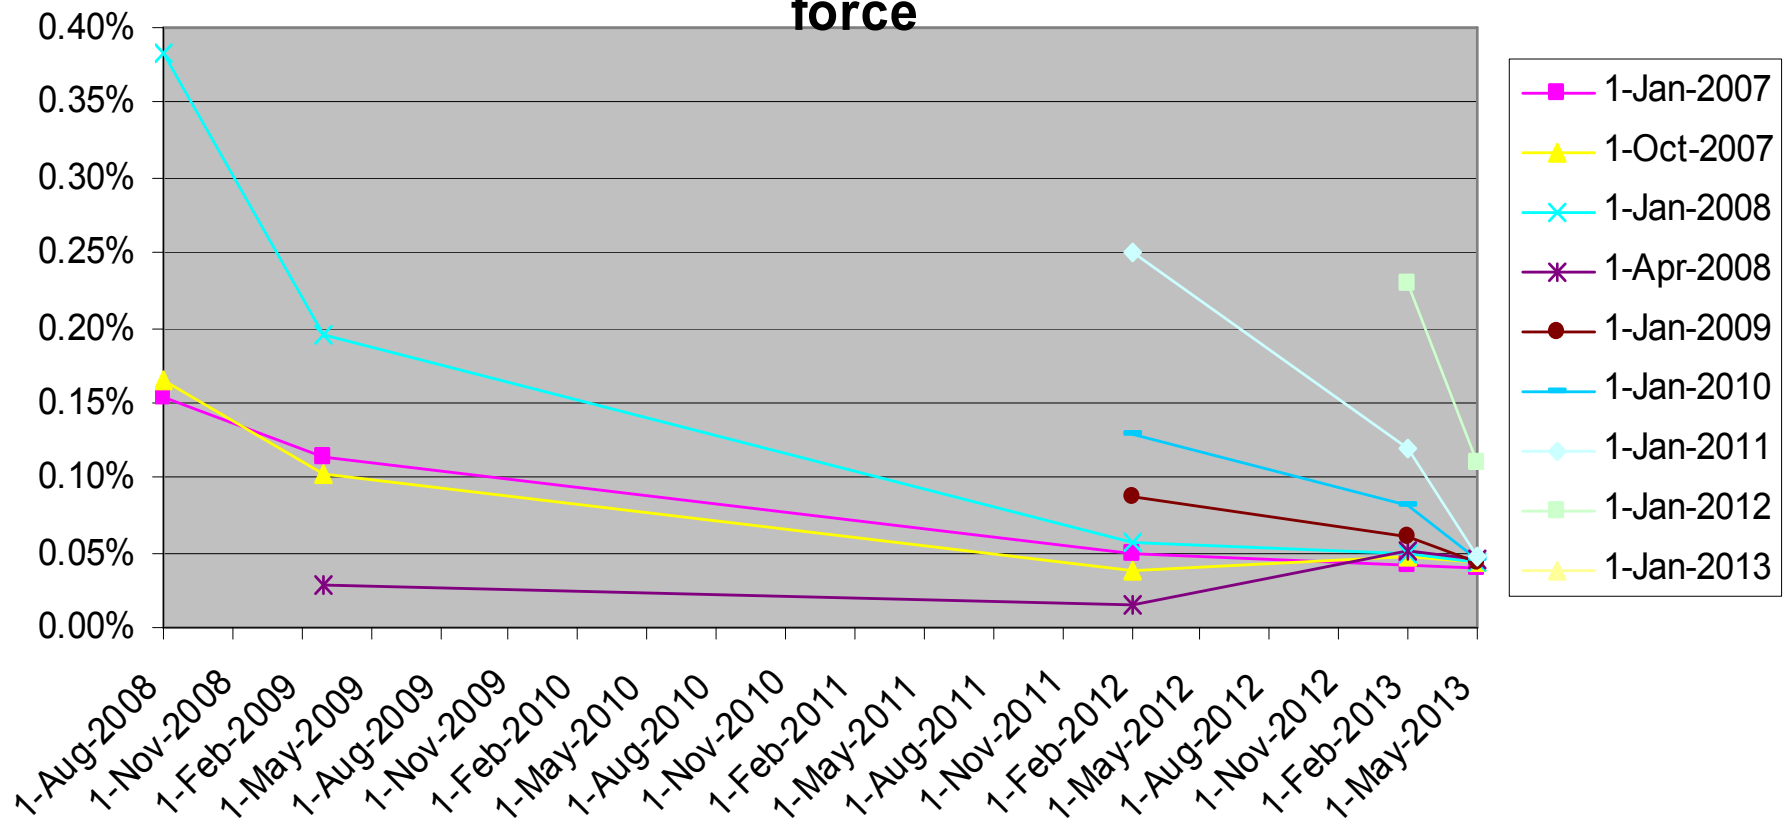

Monitoring of IPC Reclassification Statistics:

Following CE 45 decisions, IB needs for each project:

- Total number of families **before** automatic reclassification
- Results Lists from EPO for all IPC editions
- IPC 2013.01, IPC 2014.01...

Evolution of the IPC reclassification speed

**Evolution of average daily rate of reclassification
i.e. % of total reclassification done / time after entry into
force**

IPC reclassification since CE 45:

Information

- IPC reclassification data submission improvement still in progress
- Decrease of number of data resubmission for offices who attended IPCRECLASS training session

IPC reclassification Quality Assurance

Check that your reclassification are actually published under

<http://www.wipo.int/ipcreclassification/201301/>

- This indicates that your submissions passed all IPCRECLASS controls
- This is the only place from where MCD uploads them
- Do not ignore error notifications

IPCRECLASS perspectives:

New development for:

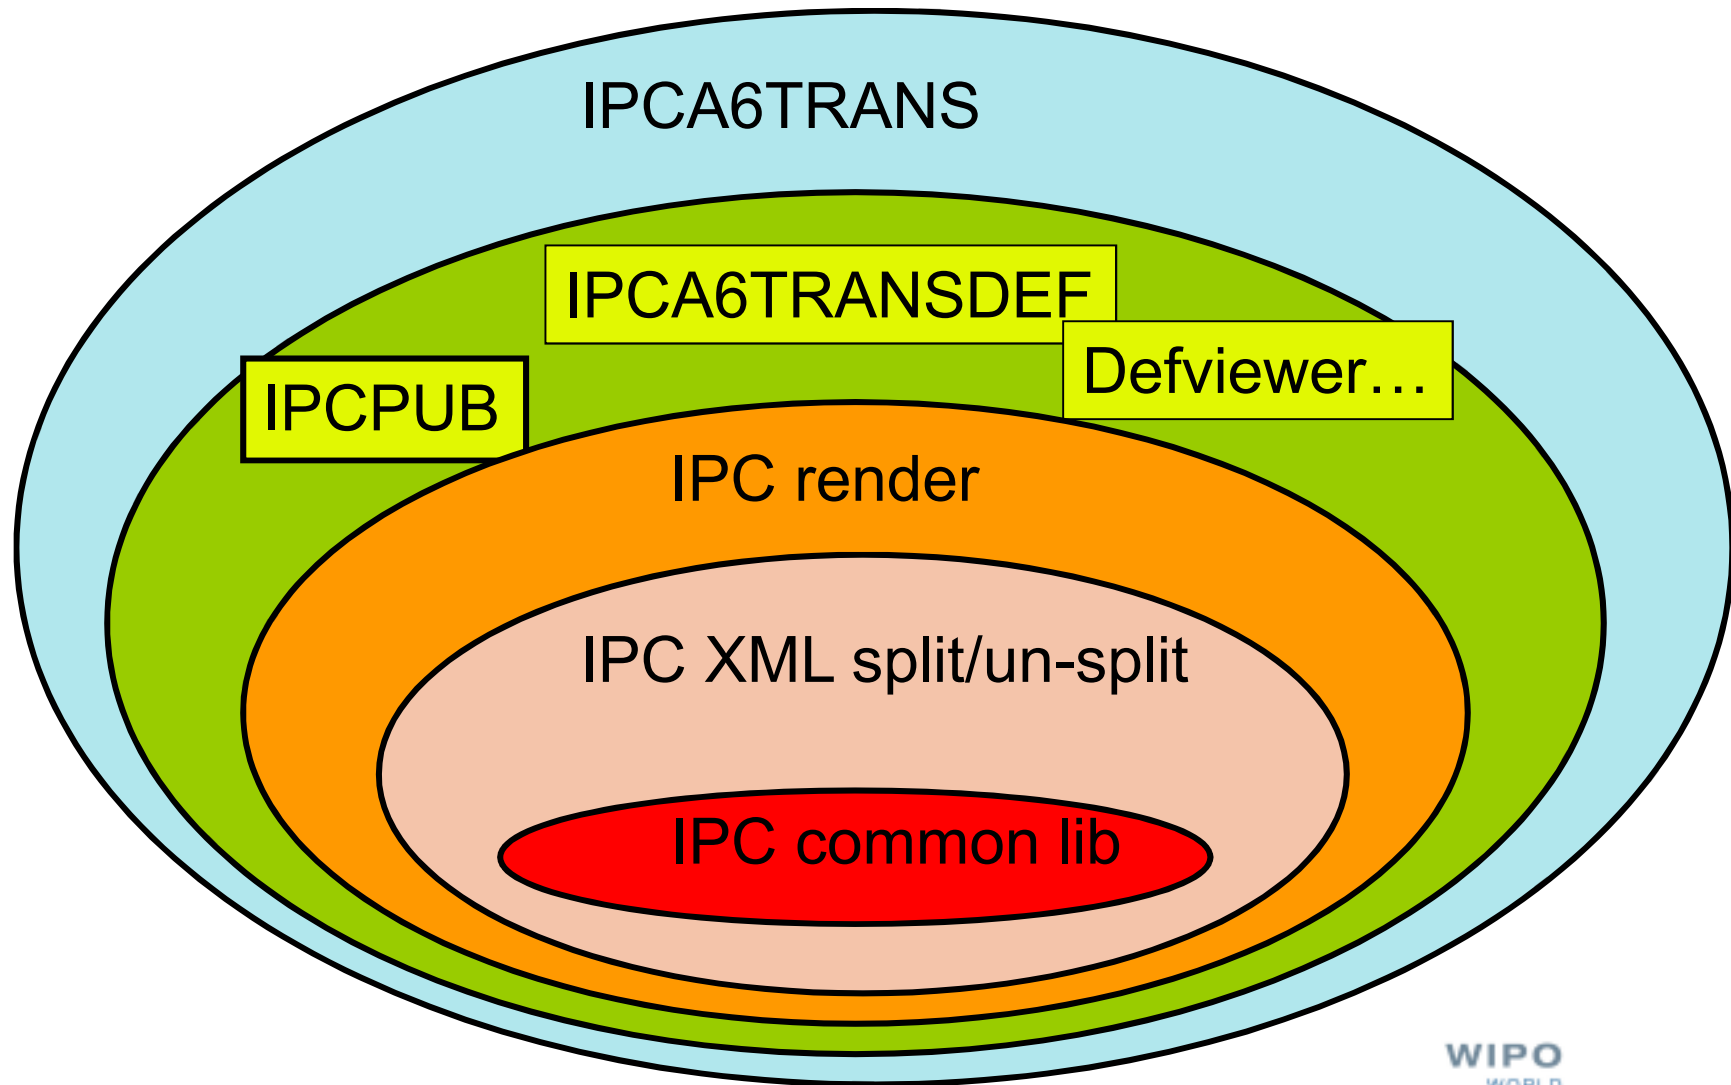

- Automation for stage 3 default transfer
- Reclassification status monitoring
- Export of statistics for IPC warnings in IPCPUB

IPC publication platform (IPCPUB)

Upgrade to version 3.0

- Now in production
- Simplified software package installation (available on demand)

Target model:

IPC publication platform (IPCPUB)

More search feature under consideration:

- wildcard, fuzzy or proximity searches,
- range queries,
- term boosting,
- boolean operators and grouping,
- escaping special characters

IPC publication platform (IPCPUB)

Perspectives

- IPC warnings: Automated production for incomplete reclassification
- Patentscope statistic based search
- FIPCPC project: Parallel viewer for IPC, FI, CPC

IPCCAT

Status:

- Retraining based on IPC 2012.01 reclassified documents (DOCDB XML): **DONE**

IPC E-forum

Evolutions ready for deployment:

- Headers in PDF version of annexes (project number+ annex number)
- Active bookmarks in the PDF CONCAT
- Stop undesirable email notifications (changes of action plan)

IPC E-forum Evolution ready for deployment

Removal of undesired email notifications (changes of action plan)

IPCRM project status

Future solution for IPC Revision Management

Project kick-off: May 6, 2013

High level plan:

- Entirely out-sourced, more than just re-do of RIPCIS
- Requirement analysis, RFP, contracts setup: Q2 2013-Q1-2014
- Procurement of the solution : Q2 2014 - Q1 2015
- Transition from RIPCIS + support setup: Q1-Q2 2015

Targeted production use: **early publication of IPC 2016.01**

Feedback for improvements
