Re: Introduction of new catchwords and informative references.

We have no proposal of new catchwords for official catchword index. for group H 01 B 3/00.

As to informative references we think that for groups H 01 B 1/00, 3/00, 17/00 and 19/00 the following references are informative

Group	Informative reference
1/00	Resistors H 01 C
3/00	Selection of piezoelectric or electrostrictive materials H 01 L 41/00
3/52	Insulating paper <u>per se</u> D 21 H 27/12
17/00	Section insulators for electric traction B 60 M 1/18; Insulating rail joints E 01 B 11/54
17/28	Capacitors H01 G
17/30	Packings in general F 16 G
17/44	Corona rings H 01 T 19/02
17/46	Spark-gap arresters H 01 T
17/58	Protective tubings for the installation of lines or cables in buildings H 02 G 3/04
17/60	Resistors H 01 C; Capacitors H 01 G
19/02	Drying in general F 26 B

ANNEX V

FEDERAL INSTITUTE OF INDUSTRIAL PROPERTY

RU proposal	
Project : C 421	Date: 05.10.2001
Class/Subclass : G 21B	

Re: Introduction of new catchwords and informative references

We propose the following catchwords in English version of the official catchword index:

REACTORS

N	analogue computers, e.g. simulators for nuclear –	G 06 G 7/54
N	hybrid fission-fusion nuclear –	G 21 B 1/01

Having analysed catchwords under the catchword "RÉACTEUR" in French version of the official catchword index we suggest the following modifications:

RÉACTEUR

C	– de fusion thermonucléaire	G 21 B
C	– nucléaire	G 21 C
N	– nucléaires hybrides fission-fusion	G21B 1/01

There are no informative references in subclass G 21 B.
