Document prepared by the Secretariat

1. In order to update the CWS Work Program, on the basis of the agreements reached by the Committee on WIPO Standards (CWS) at its second session in April/May 2012, the Secretariat has prepared a new revised Task List for consideration by the CWS. For each Task, the Annex includes the following information: description, task leader/task force leader, scheduled actions to be carried out, remarks and, where appropriate, proposals for consideration and approval by the CWS. Further information about Task Forces dealing with specific tasks, including documentation and membership, is available at: <http://www.wipo.int/cws/en/taskforce/>.
3. It should be noted that the information about certain tasks as provided in the Annex may have to be reviewed and updated in order to reflect the agreements that the CWS may reach at its third session.

4. The CWS is invited to consider the Task List reproduced in the Annex to this document and to agree on its final version for incorporation in the CWS Work Program.

The said revised contents should be used when ATRs are published under WIPOSTAD.
(See paragraphs 47 to 49 of document CWS/1/10.)

Survey industrial property offices on application and priority application numbers used.

2. *Task Leader / Task Force Leader:*

The Japan Patent Office (JPO) is designated as the Task Leader.

3. *Scheduled actions to be carried out:*

(a) Taking into consideration that the timing for conducting the survey on application and priority application numbers currently used would be determined by the implementation of WIPOSTAD, the Secretariat should:

(ii) prepare the summary of responses to the questionnaire and the collated results of the survey; and

(iii) publish the finalized results of the survey in WIPOSTAD.

(See paragraphs 19 and 20 of document CWS/1/10.)

(b) Once the survey on current practices is finalized, the ST.10/C Task Force should prepare a questionnaire for conducting a new survey on application and priority application numbers used by the industrial property offices in the past.
(See paragraph 22 of document CWS/1/10.)

4. *Remarks:*

(a) The Task, which has led to the revision of WIPO Standards ST.10/C and ST.13, was created to improve the quality of patent family data and to avoid confusion in the presentation of priority application numbers.

(b) The SDWG, at its tenth session, agreed that at first the Task Force should focus on finalizing the revision of WIPO Standard ST.10/C only for the recommendations concerning patents. With regard to the preparation of recommendations similar to WIPO Standard ST.10/C for trademarks and industrial designs, the CWS, at its first session, decided that this work should still be postponed until the CWS considers it to be an appropriate moment (e.g., once Task No. 20 is completed) to create the corresponding

new task(s) and to establish the task force(s) to handle the task(s).
(See document CWS/1/9, paragraph 53 of CWS/1/10, and 18 and 19 of SCIT/SDWG/10/12.)

(c) In 2012, on the basis of the questionnaire approved by the CWS at its first session, the Secretariat conducted the survey on application numbering systems using the WIPOSTAD online survey tool.

2. *Task Leader / Task Force Leader:*

The International Bureau is designated as the Task Leader. The CWS will further consider the appointment of Task Leaders upon specific requests for the revision of standards.

3. *Scheduled actions to be carried out:*

The revision of standards is considered an ongoing activity. As a means of expediting the standards revision process, the Secretariat may pass requests received for the revision of standards directly to an existing Task Force Leader, or present the request beforehand for consideration by the CWS at its next session. In the latter case, the CWS will be able to decide either on the adoption of the requested revision, or the creation of a new task, or whatever it considers appropriate. The Secretariat will inform the CWS of any revision request passed directly to a task force at its next session. If a specific request to revise a particular standard should be sent directly to an existing Task Force Leader, as long as it is possible, the Task Force would start work on it immediately; otherwise, the Task Force Leader would refer the request to the next session of the CWS for consideration.

(See document CWS/1/9 and paragraph 53 of CWS/1/10.)

Task No. 33 is of an informative nature and a continuing activity.

(a) At its ninth session, the SDWG requested the ST.36 Task Force to review the points elaborated by the Citation Practices Task Force in paragraph 12 of document SCIT/SDWG/9/3. At its eleventh session, after considering the review carried out by the ST.36 Task Force regarding the recommendations of the Citation Practices Task Force described in the Annex to document SCIT/SDWG/11/6, the SDWG agreed that there was a need for guidelines to uniquely identify the different parts of a patent document across different publication platforms and agreed to create the Task.
(See paragraph 35 of document SCIT/SDWG/9/12, and 45 to 47 of SCIT/SDWG/11/14.)

(b) In November 2009, the European Patent Office (EPO), JPO and USPTO presented the proposal PFR ST.36/2009/007 (Corrections and Changes in Patent Documents) for the revision of WIPO Standard ST.36 that is under discussion by the ST.36 Task Force at

present. Certain aspects of this new Task are quite similar to some of the issues raised by the ST.36 Task Force during the discussion of PFR ST.36/2009/007 (at the moment of preparing this document, lack of business consensus has halted the discussion, see paragraph 5 of document CWS/1/6). There are also ongoing discussions on paragraph numbering, which includes business issues of amendment processing and the preferred paragraph numbering method within the framework of the PCT (e.g., in the 17th Meeting of the International Authorities under the PCT in February 2010; see documents PCT/MIA/17/9 and 11, and paragraphs 83 to 88 of PCT/MIA/17/12), and of the Trilateral/IP5.

(c) In view of paragraph 4(b), above, the Secretariat, after consulting the two Offices which had expressed the most interest in the Task, namely the EPO and the USPTO, considered that it would be premature to set up a Task Force to deal with this Task as the discussion on business issues has not progressed enough yet within individual offices. Therefore, it would be convenient to give more time to the IP5 to reach an agreement on harmonizing their business requirements for paragraph amendment and numbering. This task should also wait for further developments on these issues related to paragraphs in patent documents within the PCT framework before getting under way.

(d) The CWS, at its first session, agreed that Task No. 43 should be held in abeyance, subject to review in the light of progress made by the IP5 in harmonizing business requirements relating to the issues referred to in the Task description and in the light of developments of PCT discussions in this domain.
(See document CWS/1/9 and paragraph 53 of CWS/1/10.)

TASK NO. 44

1. *Description:*

Prepare a recommendation on the presentation of nucleotide and amino acid sequence listings based on eXtensible Markup Language (XML) for adoption as a WIPO standard. The proposal of the new WIPO standard should be presented along with a report on the impact of the said standard on the current WIPO Standard ST.25, including the proposed necessary changes to Standard ST.25.

2. *Task Leader / Task Force Leader:*

The European Patent Office (EPO) is designated as the Task Leader.

3. *Scheduled actions to be carried out:*

The Task Leader will present a progress report on work undertaken by the Task Force at the third session of the CWS.

4. *Remarks:*

(a) Task No. 44 was created by the CWS at its first session. The CWS also established a Task Force (the SEQL Task Force) to handle the Task. The CWS requested the Task Force to liaise with the appropriate PCT body with regard to the possible impact of such standard on Annex C to the Administrative Instructions under the PCT.
(See paragraphs 27 to 30 of document CWS/1/10.)

(b) The CWS, at its second session, noted the progress report by the Leader of the SEQL Task Force, including the latest work plan and time frame.
(See paragraphs 25 to 27 of document CWS/2/14.)

(i) Prepare a proposal for the revision of category codes provided in paragraph 14 of WIPO Standard ST.14 taking into account comments and draft proposals stated in paragraphs 7 and 10 to 14 of document CWS/2/6.

(ii) Study the convenience of revising the recommendations for the identification of non-patent literature citations in order to bring WIPO Standard ST.14 in line with the International Standard ISO 690:2010 (Information and documentation – Guidelines for bibliographic references and citations to information resources). If the revision is considered convenient, prepare the corresponding proposal.

2. *Task Leader / Task Force Leader:*

The International Bureau is designated as the Task Leader.

3. *Scheduled actions to be carried out:*

The Task Force was requested to present:

- the proposal on the revision of WIPO Standard ST.14 in regard to the recommendations concerning category codes for consideration and approval by the CWS at its session to be held in 2013; and
- as far as possible, the results of the study, along with any eventual proposal, regarding the identification of cited non-patent-literature and ISO 690:2010, at the session of the CWS to be held in 2013; if the Task Force is not able to finalize the proposal by that time, the Task Force Leader should present a progress report on the work done by the Task Force with regard to that component of the Task.

4. *Remarks:*

Task No. 45 was created by the CWS at its second session. The CWS also established a Task Force (the ST.14 Task Force) to handle the Task.
(See paragraphs 28 to 30 of document CWS/2/14.)

5. *Proposal:*

Document CWS/3/4 contains a status report on the work done by the ST.14 Task Force and details of its discussions.

Study the convenience of developing further standards in the trademark domain and prepare the corresponding proposal, including a description of the need and of the expected benefits for each new development, as well as a prioritization of the proposals.
2. *Task Leader / Task Force Leader.*
The Leader of the Trademark Standards Task Force, i.e., the Korean Intellectual Property Office (KIPO), is designated as the Task Leader.

(See paragraph 44 of document CWS/2/14.)
 - (b) Task No. 46 may be considered as a revised follow-up to the decision, regarding the revision or, if necessary, the creation of 11 standards for trademarks, by the CWS at its first session and by the SDWG at its fourth session.
(See documents CWS/2/8 and CWS/1/9, paragraph 42 of CWS/1/10, Annex II to SCIT/SDWG/4/4 and paragraphs 34 to 44 of SCIT/SDWG/4/14.)
5. *Proposal:*
Document CWS/3/8 provides the proposals for the development of new WIPO standards in the trademark domain.
