

Committee on WIPO Standards (CWS)

Eighth Session

Geneva, November 30 to December 4, 2020

PROPOSAL FOR A NEW STANDARD ON TRADEMARK LEGAL STATUS DATA

Document prepared by the Legal Status Task Force Leader

BACKGROUND

1. At its seventh session held in 2019, the Committee on WIPO Standards (CWS) requested the Legal Status Task Force to begin work on a proposed standard for trademark legal status data. This work was prioritized over other items in Task No. 47 which reads: "Prepare proposals for revisions to WIPO Standards ST.27 and ST.87 as needed; prepare a proposed guidance document for industrial design legal status data; prepare a recommendation for the exchange of legal status data on trademarks by industrial property offices; and support the XML4IP Task Force to develop XML components regarding legal status event data". The International Bureau is the Task Force Leader. (See paragraphs 111 to 112 of document CWS/7/29.)

PROPOSED STANDARD

2. The Legal Status Task Force prepared a proposed Recommendation for the exchange of trademark legal status data, for consideration and adoption by the CWS as a new WIPO Standard. The proposal is presented in the Annexes of this document. The International Bureau recommends the new Standard be designated as ST.61, since other WIPO trademark standards are grouped together in the 60s. The other legal status standards end with seven (27 and 87), but ST.67 is already used for Electronic management of the figurative elements of trademarks.

3. The proposed Standard follows the model of WIPO ST.27 for patent legal status data and ST.87 for industrial design legal status data. The proposed new standard fulfills a similar purpose. Namely, the availability of up-to-date, reliable, and understandable legal status information on Industrial Property (IP) rights will support improved knowledge of IP right landscapes. Industrial Property Offices (IPOs) currently provide this information in different formats and languages, inconsistently, and in various timeframes due to differing national and regional trademark laws and practices. Therefore, a standardized model to describe the legal status of trademark applications and registered trademarks in a universal manner is highly desirable.

4. The proposed standard is intended to promote efficient exchange between IPOs in a harmonized manner of legal status data for trademarks. It should facilitate access to that data by IP information users, IPOs, IP data providers, the general public and other interested parties. The proposed Standard aims at improving worldwide availability, reliability and comparability of legal status data for trademarks in registration systems, including the Madrid System.

5. Following the model of existing WIPO Standards ST.27 and ST.87, the proposed Standard makes use of the same basic approach: a general prosecution model that broadly describes trademark prosecution practices among IPOs worldwide; categories that describe groups of events which share a common theme; key events that describe the most important and relevant general practice within a category; and detailed events that describe particular practices shared by many IPOs. This creates a consistent approach across all types of IP legal status data, which reduces the burden for Offices and users.

6. Within that framework, the language of the prosecution model, categories, and events have been adapted to the realm of trademarks, while preserving much of the terminology devised by Standards ST.27 and ST.87 to describe different national practices in a universal manner. The proposed new standard and its annexes are presented in the Annex to the present document.

7. WIPO Standard ST.87, in particular, is a closer model, since trademark systems are more similar to industrial design registration systems than to patent systems. One category (G. Protection beyond IP right term) in ST.27 is missing from both ST.87 and the proposed standard because it does not apply to designs and trademarks. Likewise, a few detailed events that do not apply to trademarks are not used in the proposed standard, such as event A11. Provisional application filed in ST.27. Otherwise category letters and event numbering remain the same. To preserve compatibility with ST.27 and ST.87, gaps in numbering are maintained when an event is not used in the proposed standard, so that, for example, event "A12. National or regional application filed" has the same number in all three legal status standards.

RELATION TO TM5 COMMON STATUS DESCRIPTORS

8. In 2018, the Five Trademark Offices¹ (TM5) published results of their Common Status Descriptors (CSD) project, which aims to reflect current legal status of trademarks and applications. Each of the 15 status descriptors² includes text and an icon to visually indicate different statuses, such as Awaiting Examination, Published for Opposition, Issued and Active, or Withdrawn/Abandoned.

¹ The National Intellectual Property Administration, PRC (CNIPA), the European Union Intellectual Property Office (EUIPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO) and the United States Patent and Trademark Office (USPTO)

² See <http://tmfive.org/tm-5-common-status-descriptors-tm-5-midterm-meeting-beijing-china-4/> for more information and <https://www.uspto.gov/sites/default/files/documents/CSD.pdf> for a complete list of CSD icons and meanings.

9. The Legal Status Task Force determined that the TM5 CSD project and the proposed WIPO Standard serve different purposes. The CSD icons serve a general audience by providing a user-friendly visual indication of current status for human beings. In contrast, the proposed WIPO Standard provides a detailed history of legal status events in a machine-readable format for automated processing, as well as use by human specialists. The two approaches thus complement each other by addressing different needs of the IP community.

10. The International Bureau has been working with TM5 members on a mapping between TM5 CSD and the proposed WIPO Standard, demonstrating the compatibility of the two systems. The result of this work is intended to be shared with IPOs when it is finalized by the Legal Status Task Force.

PLANNED IMPROVEMENTS

11. The licensing events in Category S of the proposed standard were preserved from ST.27 and ST.87, even though some may not apply to trademarks. Category S is a known area for improvement, including in ST.27 and ST.87. The Task Force decided that Category S should be revised consistently across all three standards together, so that compatibility can be maintained. The Task Force plans to work on this during the next year, with the goal of proposing revisions at the next session of the CWS.

12. To implement the legal status data described in the proposed standard, XML components must be developed to store and process the data. The Legal Status Task Force will assist the XML4IP Task Force with developing XML components for both trademark legal status data in the proposed Standard, and industrial design legal status data in ST.87. Task No. 47 already contains language for this purpose: "support the XML4IP Task Force to develop XML components regarding legal status event data". The Legal Status Task Force plans to work on this during the coming year.

13. *The CWS is invited to:*

(a) note the content of this document;

(b) consider and approve the proposed name of the WIPO Standard ST. 61: "Recommendation for the exchange of trademark legal status data", as reproduced in the Annex to this document; and

(c) consider and adopt the proposed new WIPO Standard ST. 61, as reproduced in the Annex to this document.

[Annex follows]

STANDARD ST.##

RECOMMENDATION FOR THE EXCHANGE OF TRADEMARK LEGAL STATUS DATA

INTRODUCTION

14. The availability of up-to-date, reliable, and understandable legal status information on Industrial Property (IP) rights is necessary to be able to avoid IP right infringement. Industrial Property Offices (IPOs) currently provide this information in different formats and languages, inconsistently, and in an untimely manner due to differing national and regional trademark laws and practices. Therefore, a standardized model, which can describe the legal status of a trademark application during its prosecution in a registration system or of a registered trademark in a global manner, is highly desirable.

15. This Standard is intended to promote efficient exchange of legal status data for trademarks in registration systems, in a harmonized manner between IPOs in order to facilitate access to that data by IP information users, IPOs, IP data providers, the general public and other interested parties (hereinafter referred to as “users”). This Standard aims at improving worldwide availability, reliability and comparability of legal status data for trademarks in registration systems, including the Madrid System.

REFERENCES

16. The following WIPO Standards are relevant to this Standard:

WIPO Standard ST.2	Standard Manner for Designating Calendar Dates by Using the Gregorian Calendar
WIPO Standard ST.3	Recommended Standard on Two-Letter Codes for the Representation of States, Other Entities and Intergovernmental Organizations
WIPO Standard ST.13	Numbering of Applications for IP Rights
WIPO Standard ST.27	Recommendation for the Exchange of Patent Legal Status Data
WIPO Standard ST.60	Bibliographic data relating to Trademarks
WIPO Standard ST.87	Recommendation for the Exchange of Industrial Design Legal Status Data

DEFINITIONS

17. Within this Standard, the following existing terms are used:

- (a) “trademark”, in the field of industrial property, means a sign or combination of signs which distinguishes the goods or services of one undertaking from those of other undertakings. Signs may consist of one or more distinctive words, letters, numbers, drawings or pictures, symbols, colors, sounds, or other aspects depending on the jurisdiction³;
- (b) “register (of industrial property rights)” kept by an IPO in which is recorded the legal status of different IP rights. Usually, the office keeps separately a trademark register, a patent register, and an industrial design register;
- (c) “registration of the trademark” occurs when the IPO finds that the application for registration of the trademark fulfills the applicable requirements that are examined by the IPO and that the application has not been refused;
- (d) “certificate of registration of the trademark” means the official document which is delivered to a trademark owner certifying that his or her trademark has been registered;
- (e) “Madrid System” refers to the Madrid Agreement Concerning the International Registration of Marks and the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (“Madrid Protocol”);
- (f) “international registration” means the international registration of a trademark effected under the Madrid System;
- (g) “international application” means an application for international registration;
- (h) “IP right” includes such industrial property rights as trademarks, patents, and industrial designs; and
- (i) “legal status” refers to the status of an application or IP right according to the applicable law of the prosecuting IPO and is determined based on preceding events.

18. For purposes of this standard, the following new terms are introduced:

- (a) “state” refers to whether the application or IP right is active, not active or terminated after an event occurred according to the applicable law of the IPO;
- (b) “stage” refers to a phase in the prosecution of an application or IP right, which encompasses the happening of events;
- (c) “event” refers to an action during the prosecution of an application or IP right caused by the applicant, IP right owner, IPO or third party according to applicable law, which may cause a change in the state and/or stage of the application or IP right;

³ For a more complete definition of “Trademark” see Handbook on Industrial Property Information and Documentation, Glossary of Terms Concerning Industrial Property Information and Documentation (<http://www.wipo.int/export/sites/www/standards/en/pdf/08-01-01.pdf>).

- (d) “category” refers to a set of events which are grouped together according to a common theme;
- (e) “key event” refers to a generic, broad, universally-termed event in a category;
- (f) “detailed event” refers to an event in a category, which is not the key event and is more specific in nature;
- (g) “national/regional/international event” refers to an event in the prosecution of an application or IP right according to national/regional/international law;
- (h) “effective date” refers to the date the event has legal effect according to applicable law;
- (i) “publication date” refers to the date the event data is communicated to the public (e.g. by way of publication in a gazette or IP right register); and
- (j) “event date” refers to the date the event occurs.

SCOPE OF THE STANDARD

19. This Standard provides codes which can be used to straightforwardly identify the legal status of a trademark. The use of codes allows the legal status of a trademark to be identified without knowledge of the language used by the prosecuting IPO.

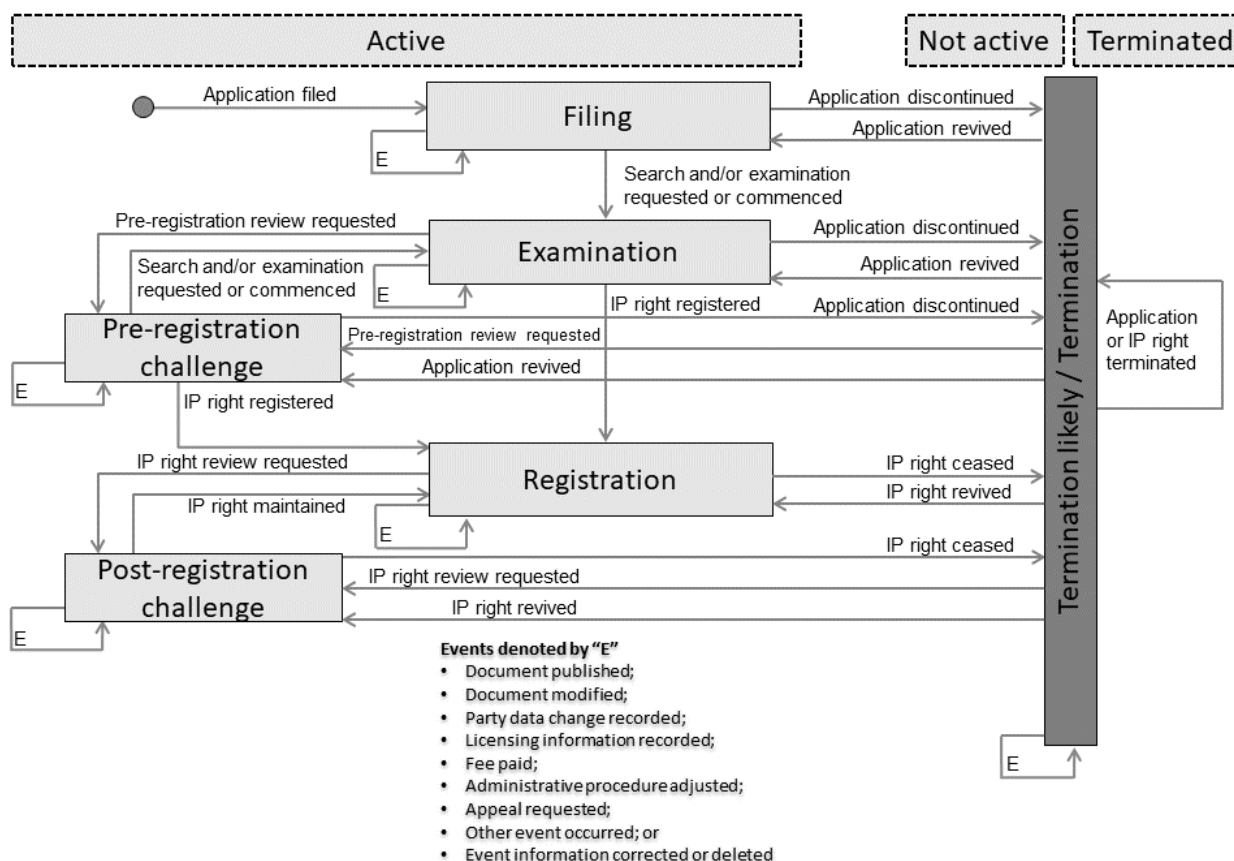

20. This Standard defines legal status events that may take place during the lifecycle of a trademark, on the basis of an Overall Trademark Prosecution Model defined in this Standard. The definitions of the events are broad so as to cover the various practices of different IPOs.

21. This Standard also provides a conceptual data structure to exchange legal status data in electronic form between IPOs, the data associated with the defined events and guidelines for IPOs to map national/regional/international events to the events in this Standard.

22. Taking the diversity of IP laws and practices among various jurisdictions into consideration, this Standard is not aimed at harmonizing procedural or substantive requirements under national/regional laws and regulations.

OVERALL TRADEMARK PROSECUTION MODEL

23. The diversity in trademark prosecution laws among IPOs is significant. This Standard uses a general prosecution model to broadly describe the trademark prosecution practices among IPOs worldwide and under the Madrid System. The model does not describe the unique prosecution practices of all IPOs, nor does it cover every eventuality that may occur during the prosecution of an application or IP right. Therefore, this model may not accurately describe the prosecution practices for trademarks, nor the publicly reported events, in some IPOs. Nonetheless, the prosecution model provides a comprehensive overview of the general steps involved in the prosecution of a trademark at IPOs worldwide.

24. The Overall Trademark Prosecution Model illustrated above incorporates states (dashed rectangular boxes), stages (solid rectangular boxes) and events (arrows) to describe the prosecution of trademarks. For the sake of brevity, only key events are indicated in the Overall Trademark Prosecution Model.

States

25. The state of the application or IP right, according to applicable law of the IPO, can either be active, not active, or terminated.

- **Active:** The application is pending or the IP right is in force.
- **Not active:** The application is discontinued or the IP right is not-in-force.
- **Terminated:** The discontinued application or the not-in-force IP right cannot be revived. Exceptionally this state may return to "Active" or "Not active" due to a change in IP legislation. Note that not all IPOs can specify this state under the applicable law.

Stages

26. The stage of the prosecution of the application or IP right according to applicable law of the IPO can be the filing stage, examination stage, pre-registration challenge stage, registration stage, post-registration challenge stage, or termination likely / termination stage.

- **Filing:** The filing stage encompasses the receipt of an application for the registration of the trademark and/or the grant of an IP right by a national or regional IPO. This stage includes when the IPO, or the International Bureau of the World Intellectual Property Organization (hereinafter, "the International Bureau") receives a representation of the trademark together with any additional indications, elements, documentation and/or fees necessary to obtain a filing date under national law, regional law or convention, or the Madrid Agreement as applicable. This stage also includes the filing of a divisional application, continuation, or conversion from one type of application into another.
- **Examination:** The examination stage encompasses both formality and substantive examinations that may occur prior to the registration of a trademark or the grant of an IP right. This includes an examination of the application as to form or substance after the application has already been accorded a filing date. It is possible for an application to undergo both a formality examination and a substantive examination. The examination stage may include events such as requests for examination, prior rights searches, and may include the publication of information such as the application and bibliographic information. The examination stage may also include the decision or intention to register the trademark or grant an IP right, but does not include the act

of registering the trademark or granting the IP right itself. Under the Madrid System, an international application goes through a formality examination by the International Bureau. If the international application conforms to applicable requirements, the trademark will be registered in the International Register as an international registration. Then, after its publication by the International Bureau, an international registration may go through a substantive examination by the IPO of a designated Contracting Party.

- **Pre-registration challenge:** The pre-registration challenge stage encompasses a review of the application, initiated before the registration of the trademark or the granting of an IP right, in accordance with the applicable law. A pre-registration review includes such proceedings as a pre-registration opposition, re-examination, or limitation.
- **Registration:** The registration stage encompasses the act in which the IPO registers the trademark or grants the IP right, publishes the application as registered and enters the details of the granted IP right in the IPO's register. The act of publishing the registered trademark or granted IP right may be the first time the specification is made publicly available in accordance with the applicable law. Under the Madrid System, an international registration is published by the International Bureau, following which the IPO of a designated Contracting Party may go through a substantive examination in accordance with the applicable law, as a result of which the IPO may issue a refusal. Where no refusal is issued within a prescribed period, the international registration will have the same effect as a grant of protection under the applicable law of the Contracting Party. If provided by the applicable law, the registration of a trademark may be renewed and/or amended.
- **Post-registration challenge:** The post-registration challenge stage encompasses a review of the IP right, initiated after the trademark was registered or the IP right was granted, in accordance with the applicable law. An IP right review includes such proceedings as a post-registration opposition, post-registration examination, limitation, reissue, invalidation, cancellation or surrender of the registered trademark or granted IP right.
- **Termination likely / termination:** The termination likely / termination stage encompasses when an application is discontinued or a granted IP right is not in force with a possibility of revival (termination likely), and when a discontinued application or a not-in-force IP right is terminated by the IPO or a court without a possibility of revival (termination), according to the applicable law.

EVENTS

27. The events which occur in the prosecution of the application or IP right may result in a change to the state and/or stage of the application or IP right. They can be triggered by an action of the IPO, applicant, IP right owner, or third party.

28. This Standard recommends a list of generically-termed events with general descriptions on the basis of the terminology used by IPOs worldwide to broadly cover national/regional/international events. This Standard thereby assists users in interpreting national/regional/international events without requiring in-depth knowledge of the specific practices of the prosecuting IPO.

29. The events incorporated in the Overall Trademark Prosecution Model illustrated above are key events. In some cases the events will move the application or IP right from one stage into another stage and/or change the state of the application or IP right. In other cases, the happening of an event does not change the stage or state of the application or IP right (for example, see recursive arrows in the Overall Trademark Prosecution Model, denoted using an 'E').

30. Due to the broad descriptions of the key events, multiple situations can be described by a single key event. The description of a key event may therefore cover multiple scenarios. Annex III provides examples of how multiple national/regional/international events can be mapped to the same key event in the Overall Trademark Prosecution Model.

EVENTS LIST

31. This Standard provides the list of events that may be used to exchange legal status data between IPOs. The events are grouped into an event category, which provides a high-level cluster of related events. A single key event and several detailed events are defined in a category. Each category, key event and detailed event has a defined code. The codification is described below.

32. The entire list of categories, key events, detailed events and their descriptions is available in Annex I.

Category

33. This Standard defines 20 categories. The categories describe a group of events which are of particular importance to the prosecution of a trademark and share a common theme. The category description defines the theme of events included in that category. The list of categories and their description are available in Annex I. According to the applicable law, some IPOs may only publicly provide event information after the registration of the trademark and/or the grant of an IP right, and previous event information may not be made public. In this case, events from all categories may not be used.

34. Each category has one key event and multiple detailed events except categories 'W. Other' and 'Y. Correction and deletion of event information', which do not have any detailed events. A category may cover many more national/regional/international events than those described by the key and detailed events. Therefore, the list of examples provided in the description of the category is not exhaustive and does not restrict the scope of the category.

Key Event

35. A key event is an important event related to the category. Key events are meant to enable IPOs to map national/regional/international events to a generic, universally-termed event that is understandable by a user.

36. This Standard defines 20 key events listed below; their description is provided in Annex I. Each key event includes a description for explanatory purposes. Since legal status events and terminologies vary according to national and regional laws, the descriptions of the key events are broad and encompassing. The descriptions are written in the past tense to indicate that the event has already occurred. The enumerated list of examples provided in the descriptions are for explanatory purposes only, and do not restrict the scope of the key event.

Detailed Event

37. The detailed events are events in a category, which are more specific than a key event. They may describe a practice specific to only a few IPOs, or they may describe a practice that is nearly universal but that is of a specific nature. The list of detailed events and their description are available in Annex I.

38. While some detailed events can be mapped to the key event in the sense that they are a specific example of events subsumed under the key event, not all detailed events can be mapped to the key event. Annex I provides guidance on the relationship between key events and detailed events defined under the same category by indicating which detailed events may be subsumed under their respective key event according to the national/regional/international practices of some IPOs.

DATA STRUCTURE AND FORMAT FOR EXCHANGE

39. This Standard recommends, for the purpose of facilitating the exchange of legal status data, a data structure in coded form. This structure describes the minimum information which should be provided for each event. This information includes the following components:

- status event code;
- calendar dates linked to the event; and
- supplementary data associated with the event.

Status Event Code

40. The status event code consists of three components: state information, stage information and event information, which are defined in coded form and determine the unique position of the application or trademark on the Overall Trademark Prosecution Model presented above. The legal status event code allows users the ability to pinpoint the legal status of an application or IP right to any place in the prosecution lifecycle.

41. The status event code below describes the structure of the code, but does not necessarily represent the final visualization and representation in XML format.

[State – From (previous) stage – To (current) stage – Key event – Detailed event – National/regional/international event]

State Code

42. In the status event code, the state of the application or IP right is determined after the event has occurred. For example, if the key event 'B10. Application discontinued' has occurred and, as a result of the occurrence of this event, the state of the application moved from "active" to "not active", the state would be recorded as "not active". Since some IPOs may not be able to currently provide this information, it is necessary to provide the option of an "unspecified" state. The three states: active, not active, and terminated, as well as the unspecified state are codified by one alphabetic letter:

- Active = A
- Not active = N
- Terminated = T
- Unspecified = U

43. The codification of the six stages is formed below with a single numeric digit from 1 to 6, including an "unspecified" stage codified by "0" to accommodate IPOs which are not currently able to provide such information:

- Filing = 1
- Examination = 2
- Pre-registration challenge = 3
- Registration = 4
- Post-registration challenge = 5
- Termination likely / termination = 6
- Unspecified = 0

Key Event Code

44. The key events are formed by a combination of a single alphabetic letter followed by the number "10". The single alphabetic letter is assigned according to the categories.

45. The codes for the 20 key events are as follows:

A10.	Application filed
B10.	Application discontinued
C10.	Application revived
D10.	Search and/or examination requested or commenced
E10.	Pre-registration review requested
F10.	Trademark registered
H10.	IP right ceased
K10.	IP right revived
L10.	IP right review requested
M10.	IP right maintained
N10.	Application or IP right terminated
P10.	Document modified
Q10.	Document published
R10.	Party data change recorded
S10.	Licensing information recorded
T10.	Administrative procedure adjusted
U10.	Fee paid
V10.	Appeal requested
W10.	Other event occurred
Y10.	Event information corrected or deleted

46. This Standard requires that IPOs map national/regional/international events to a key event. If it is not possible to map a national/regional event to a key event, the key event code will be a combination of the alphabetic letter denoting the category, followed by the digits "00" indicating that the national/regional event cannot be mapped to a key event in that category.

Detailed Event Code

47. The detailed events are formed by a combination of a single alphabetic letter followed by a two-digit number from 11 to 99. The single alphabetic letter is assigned according to the categories. The codes for detailed events are contained in Annex I.

48. In addition to the mapping process described in paragraph 33 above, this Standard recommends that IPOs map national/regional/international events to a detailed event. If it is not possible to map a national/regional/international event to a detailed event, the detailed event code will be a combination of the alphabetic letter denoting the category, followed by the digits "00" indicating that the national/regional/international event cannot be mapped to a detailed event in that category.

National/regional/international Event Code

49. The "national/regional/international event" entry in the status event code is the national/regional codification of the national/regional/international event which is being mapped to a key and/or detailed event.

50. This Standard recommends the combination of an alphabetic letter and a three-digit number from 100 to 999 for the national/regional/international event codes. The alphabetic letter should correspond to the relevant category code.

51. If IPOs already have their own codes for national/regional/international events in alphanumeric combination, then these codes can continue to be used. If IPOs do not currently have national/regional events and/or plan on only using the key events and/or detailed events for the data exchange to describe national/regional/international practices, then the positions of "national/regional/international event" should be filled with the code 'X000'.

Calendar Dates Linked to the Event

52. The IPO must provide at least one calendar date associated with the status event code. The date(s) provided can be the event date, the publication date, and/or the effective date. These dates have the meanings provided in the Definitions section above.

53. Dates should be provided in accordance with WIPO Standard ST.2 using the Gregorian calendar in a single numeric data string comprising eight numerals in the manner of 'CCYY-MM-DD', e.g., '2018-11-26' for the date 'November 26, 2018'.

Legal Status Data Structure

54. This Standard provides the structure for the exchange of legal status data between IPOs. The structure consists of (a) an IP office code, (b) the date the file was created, (c) identification of the document, (d) event data for the application or registration of the trademark, which can correspond to the entire history of events or a partial history of events for an identified time period. If a partial history of events is provided, the time period which is covered by the events should be identified.

55. The legal status data should be structured as follows:

- (a) Office code according to WIPO Standard ST.3 (mandatory);
- (b) Creation date of legal status data file (mandatory);
- (c) Document identification (mandatory),
 - i. Application number and/or trademark registration number (mandatory), Applicant file reference (optional), Filing language code (optional), Application filing category (optional), Filing date (optional);
- (d) Event data (mandatory),
 - i. Status event code (mandatory);
 - State
 - From (previous) stage
 - To (current) stage
 - Key event
 - Detailed event
 - National/regional/international event
 - ii. Calendar dates linked to the event (at least one date is mandatory);
 - Event date
 - Effective date
 - Publication date
 - iii. Supplementary event data (optional); and
 - iv. Unique identifier (optional).

56. The office code must be provided so that a user knows which IPO is providing the legal status data. The creation date of the legal status data file must be provided so that users know the date as of which the information is current. The document identification must be provided so that a user knows the application or IP right for which the legal status data pertains.

57. As document identification, IPOs are required to provide the application number. In cases where legal status data is being provided for a trademark which has been registered, IPOs are strongly encouraged to provide the trademark registration number in addition to the application number.

58. An IPO must provide the combined information of the status event code and the related calendar date(s) for the most recent event in relation to a specific application or IP right prosecuted by the IPO. The combined status event code and calendar date is the minimum information needed to uniquely identify a legal status event for an application or IP right. The IPO may also provide the status event codes and the calendar dates for all events that have occurred during the existence of the application or IP right (i.e., the event history). Where the entire event history or a subset of the event history is provided, it is recommended that the most recent event is provided first in the list.

59. IPOs can optionally provide a unique event identifier, which uniquely identifies an event and its date for an application or IP right. In this way, two indistinguishable events, such as the recordation of two voluntary licenses for the same IP right on the same day, which would otherwise have identical status event codes and dates, can be distinguished using the unique event identifier.

60. A visual representation of the aforementioned structure, with examples of data which could be provided, is as follows:

Office code: XX

Creation date of legal status data file: 20161020

Application number: 30 2011 123456789

IP right type: Trademark

Event data

Status event code: N-0-6-B10-B11-R120

Event date: 20160113

Supplementary event data:

Status event code: A-0-0-D00-D00-R015

Event date: 20150727

Publication date: N/A

Supplementary event data:

Status event code: A-1-2-D10-D11-R012

Event date: 20140424

The code N-0-6-B10-B00-R120, represents the legal status of an application which is not active immediately after the national event "R120" occurs. The description of the national event "R120" is "The application was withdrawn/the IP right was waived". Since this national event can be mapped to B10. Application discontinued and B11. Application withdrawn, the key event entry is "B10" and the detailed event entry is "B11". The occurrence of this event causes the application to move from an unspecified stage into the termination likely/termination stage.

The next status event code in reverse chronological order is A-0-0-D00-D15-R015. The national event "R015" denotes an "Official communication on examination". This event relates to category 'D. Search and examination' and can be mapped to detailed event D15. Examination report issued. Therefore, the key event entry is "D00" and the detailed event entry is "D15". The stage information for this event is unspecified. The application is active after the occurrence of national event R015.

Application number: 30 2010 123456789

IP right type: Trademark

Event data

Vertical dashed lines indicating continuation or specific markers.

Supplementary event data

61. This Standard recommends that IPOs provide additional information associated with events so that a user may understand the context in which the national/regional/international event occurred. This Standard provides the minimum supplementary event data that should be exchanged; IPOs can provide further information. Exchanging supplementary event data is optional.

62. The minimum supplementary event data related to a category is listed in Annex II. There are two groups of data: data in the first row of the table is common supplementary event data which an IPO may provide for any national/regional/international event regardless of the category it maps to; data in the row for a category is specific to that category.

IMPLEMENTATION

63. IPOs are encouraged to implement this Standard as soon as possible to facilitate the effective exchange of harmonized legal status data for applications and IP rights. Implementing this Standard will require that IPOs map national/regional/international events to the events defined in the Standard or at the very least a category.

64. It is recommended that, when implementing this Standard, an announcement be made and the International Bureau of WIPO be informed, by providing a mapping table of national/regional/international events to the events in this Standard on the basis of the model template available in Annex IV.

65. IPOs are requested to provide a title and description of their national/regional/international event codes in English such that users can obtain more information about the specific national/regional/international event. It is recommended that IPOs provide this information either along with the legal status data, or by providing the uniform resource identifier (URI) of their national/regional IP register or some other forum where this information is publicly available.

66. This Standard suggests that the frequency of exchange of legal status data should occur at one month intervals at a minimum, ideally at weekly intervals.

[Annex I of ST.XX follows]

ANNEX I

EVENT LIST

Draft

1. This Annex includes the entire list of events that may be used to exchange legal status data between IPOs. The events are grouped into 20 event categories, coded with a single alphabetic letter, which provides a high-level cluster of related events. A single key event, coded with one alphabetic letter followed by the number "10" and several detailed events, coded with one alphabetic letter followed by a number from 11 to 99, are defined in a category. The categories and events include a description to assist IPOs with mapping national/regional/international events to an event or category in the event list.

2. A detailed event code followed by an asterisk ("*") indicates that the detailed event may map to, or may be subsumed under the key event. This assignment is meant for guidance purposes only and may not accurately describe the national/regional practices of all IPOs.

A. Application filing: This category is a group of events related to the filing of an application. It covers any event that results in the creation of a new matter number, whether or not a new application document is filed at the IPO. For example, it includes when a national or regional IPO or the International Bureau of the World Intellectual Property Organization receives an application for the registration of a trademark together with any additional indications, elements, documentation and/or fees necessary to obtain a filing date under national or regional law or convention or the Madrid System as applicable. This category also includes events related to the creation of a subsequent designation, divisional application, continuation, or a conversion.

A10. **Application filed:** An application for the registration of a trademark was filed. This includes, but is not limited to when a national, regional or international application was filed. It also includes when a subsequent designation, divisional, continuation, or conversion application was filed. Usually a filing date and application number are recorded by the IPO.

A12*. National or regional application filed (A national or regional application was submitted to an IPO and a filing date and application number are recorded; or the international registration was effected as a regularly-filed application under the law of that Contracting Party.)

A13*. International application filed (An international application was filed directly with the International Bureau or indirectly through an IPO.)

A14*. Regional application entered into the national phase (A regional application entered into the national phase.)

A16*. Divisional, subsequent designation, or continuation application filed (A divisional, subsequent designation, or continuation application was filed.)

A17. Divisional, subsequent designation, or continuation application rejected (A divisional, subsequent designation, continuation application was inadmissible, rejected or withdrawn.)

A18. Application division, designation, or continuation accepted (A divisional application was accepted and the original application was divided into two or more applications, or a subsequent designation or continuation was accepted and a new application file created.)

A19*. Conversion application filed (A conversion application was filed, for example, to convert a regional application into a national application.)

A20. Conversion application rejected (A conversion application was inadmissible, rejected or withdrawn.)

A22. Application converted from a regional application (A request for conversion was accepted and the application was converted from a regional application into a national application.)

B. Application discontinuation: This category is a group of events related to the discontinuation of an application. It includes, for example, when an application has been voluntarily withdrawn by the applicant, was deemed to be withdrawn, abandoned or lapsed, or was refused by the IPO. The events in this category may move an application from the filing stage, examination stage or pre-registration challenge stage into the termination likely / termination stage.

B10. **Application discontinued:** An application was discontinued. This includes, but is not limited to when an application was discontinued due to a withdrawal by the applicant, refusal by the IPO or because there was a failure to prosecute. For example, a failure to prosecute may occur due to a non-payment of fees or failure to respond to an office action within the required time period.

B11*. Application withdrawn (An applicant voluntarily withdrew the application.)

B12*. Application deemed to be withdrawn, abandoned or lapsed (An application was discontinued due to a failure to prosecute, for example, an application was discontinued due to non-payment of fees or not responding to an office action within the relevant period.)

- B13*. Regional filing not entered into the national phase (A regional application did not enter the national phase within the time period prescribed in the applicable law.)
- B14*. International application deemed to be abandoned (An international application was discontinued due to non-payment of fees or not responding to an office action within the applicable period.)
- B15*. Application refused following examination (An application was refused by an IPO following a formality or substantive examination.)
- B16*. Application discontinued following rejected revival request (A request for revival of a discontinued application was inadmissible, rejected or withdrawn.)
- B17*. Application discontinued following pre-registration review (Following a pre-registration review, an application was discontinued.)
- B18*. International registration refused by a designated Contracting Party (An international registration was refused by the IPO of a designated Contracting Party following its substantive examination.)
- C. Application revival:** This category is a group of events related to the revival, reinstatement or restoration of an application after it has been discontinued, where permitted by the IP Office. It includes, for example, when an application was revived following a request for application revival after payment of an outstanding fee, responding to an outstanding action or decision which had resulted in the application being discontinued, or following an appeal. The events in this category may move an application from the termination likely / termination stage into the filing stage, examination stage or pre-registration challenge stage.
- C10. **Application revived:** An application was revived after it had been discontinued. This includes, but is not limited to when an application was revived following an application revival request or an appeal.
- C11. Application revival requested (A revival, reinstatement or restoration of a discontinued application was requested.)
- C12. Request for application revival rejected (A request for an application revival was inadmissible, rejected or withdrawn.)
- C13*. Application revived following an application revival request (An application was revived, reinstated or restored following an application revival request.)
- C14. Rights of priority restored (The right of priority was restored where a subsequent application was filed after the expiration of the priority period but within the time limit prescribed in the applicable law, provided that the conditions specified in the applicable law were met.)
- D. Search and examination:** This category is a group of events related to the examination proceeding and prior rights searches that occur before the acceptance or rejection of the trademark. It includes, for example, a formality examination or a substantive examination. It also includes a request for a prior rights search and an announcement of the intention of the IPO to register the trademark and/or grant an IP right. The events in this category may move an application from the filing stage or the pre-registration challenge stage into the examination stage.
- D10. **Search and/or examination requested or commenced:** The search and/or examination of an application was requested, initiated or continued. This includes, but is not limited to when a formality or substantive examination was requested, initiated or continued or when a search was requested or initiated prior to the registration of the trademark and/or the grant of an IP right.
- D11*. Substantive examination requested (A substantive examination of an application was requested by an applicant or a third party, or an IPO initiated the examination independently, in accordance with the applicable law prior to the registration of the trademark and/or the grant of an IP right.)
- D12. Request for substantive examination rejected (A request for a substantive examination was inadmissible, rejected or withdrawn.)
- D13*. Search requested (A prior rights search for an application was requested by the applicant or the examiner.)
- D14. Search report issued (A prior rights search report for an application was issued.)
- D15. Examination report issued (A substantive examination report or a notification of the reason for refusal of the application was issued prior to the registration of the trademark and/or the grant of an IP right.)
- D16*. Fast track examination requested (An expedited or accelerated examination of the application was requested.)
- D17. Fast track examination accepted (A request for an expedited or accelerated examination was accepted by the IPO.)
- D18*. Deferred examination requested (A request was made to defer or postpone the examination of an application until a later time.)
- D19. Deferred examination accepted (A request to defer or postpone the examination of an application was accepted by the IPO.)
- D20*. Deferred examination resumed (A deferred examination was resumed.)
- D21. Rejection of application intended (An IPO announced its intention to reject an application and not grant an IP right. For example, in some Offices the applicant may appeal an intended rejection before the rejection is applied.)
- D22. Grant of IP right intended (An IPO announced its intention to register the trademark and/or grant an IP right, provided that certain conditions are met within a time period prescribed in the applicable law. For example, in one jurisdiction, an IP right will be granted if an applicant pays a fee. In another jurisdiction, an IP right will be granted provided that

no pre-registration opposition is filed within a certain period or such an opposition is inadmissible, rejected or withdrawn.)

- D23*. Examination continued following pre-registration review (An examination of an application was continued following a pre-registration review.)
- D24*. Re-examination commenced (A re-examination of the application was commenced.)
- D25*. Formality examination commenced (A formality examination of an application has commenced with or without a request by an applicant or a third party, in accordance with the applicable law prior to the registration of the trademark and/or the grant of an IP right.)
- E. Pre-registration review request:** This category is a group of events related to the request for a pre-registration review. It includes, for example, a request for a pre-registration opposition, pre-registration re-examination, or pre-registration limitation. It also includes when such a request was inadmissible, rejected or withdrawn. The events in this category may move an application from the examination stage or the termination likely / termination stage into the pre-registration challenge stage.
- E10. **Pre-registration review requested:** A pre-registration review was requested. This includes, but is not limited to a request for a pre-registration opposition, pre-registration re-examination, or pre-registration limitation.
- E11*. Pre-registration opposition filed (A pre-registration opposition was filed.)
- E12*. Pre-registration re-examination requested (A pre-registration re-examination was requested.)
- E13*. Pre-registration limitation requested (A pre-registration limitation of the application was requested.)
- E14. Pre-registration third party observation filed (A third party filed prior rights documents or other related information with the IPO before the grant of an IP right.)
- E15. Request for pre-registration review rejected (A request for a pre-registration review was inadmissible, rejected or withdrawn).
- F. Trademark registration:** This category is a group of events which relate to the effective grant date of an IP right and/or the entry of the trademark into the IPO's register. It includes, for example, when a trademark is registered and/or an IP right was granted following an examination, an appeal, pre-registration review or inadmissibility, rejection or withdrawal of a pre-registration review request. The events in this category may move an application from the examination stage or the pre-registration challenge stage into the registration stage.
- F10. **Trademark registered:** A trademark was registered with or without a certificate and/or an IP right was granted in full or amended form after an examination, a pre-registration review or an appeal. This includes, but is not limited to when a trademark was registered and/or an IP right was granted after a formality or substantive examination, or subsequent to a pre-registration review.
- F11*. Trademark registered following substantive examination (Following a substantive examination, a trademark was registered and/or an IP right was granted by the IPO.)
- F12*. Trademark registered following formality examination (Following a formality examination, a trademark was registered and/or an IP right was granted by the IPO.)
- F13*. Trademark registered in full following pre-registration review (Following a pre-registration review, a trademark was registered and/or an IP right was granted in full.)
- F14*. Trademark registered in amended form following pre-registration review (Following a pre-registration review, a trademark was registered and/or an IP right was granted in amended form.)
- F15*. Trademark registered following rejected pre-registration review request (Following an inadmissible, rejected or withdrawn request for a pre-registration review, the trademark was registered and/or the IP right was granted.)
- F16. IP right converted from another IP right (An IP right was converted from one type of IP right into another.)
- F17*. Statement of grant of protection for an international registration issued (A statement of grant of protection was issued by the IPO of a designated Contracting Party with respect to an international registration.)
- F18*. Withdrawal of refusal for an international registration issued (A refusal was withdrawn by the IPO of a designated Contracting Party with respect to an international registration.)
- H. IP right cessation:** This category is a group of events related to the cessation of an IP right. It includes, for example, the cessation of an IP right following an IP right review, an appeal, a refusal to reinstate, or a lapse or expiry. The events in this category may move an IP right from the registration stage or the post-registration challenge stage into the termination likely / termination stage.
- H10. **IP right ceased:** An IP right has ceased. This includes, but is not limited to when an IP right has ceased following an IP right review or an appeal, due to a refusal to revive, or because of a lapse or expiry.
- H11*. IP right ceased following rejected request for revival (A request for revival of a ceased IP right was inadmissible, rejected or withdrawn.)
- H12*. IP right ceased following an IP right review (The IP right was ceased following an IP right review.)

- H13*. IP right lapsed (The IP right was ceased through neglect to maintain it, for example, non-payment of fees, not responding to an office action, or failing to submit proof of use when required.)
- H14*. IP right expired (A statutory IP right term, for example 10 years from the filing date, has expired.)
- H15*. IP right surrendered (An IP right was surrendered or abandoned by the IP right owner.)
- H16*. International registration renounced (An international registration was renounced for any or all of the designated Contracting Parties upon request by the IP right owner.)
- H17*. International registration invalidated (An international registration was invalidated by a designated Contracting Party for any or all the trademarks.)
- K. IP right revival:** This category is a group of events related to the revival, reinstatement or restoration of an IP right after its cessation. It includes, for example, the request for the revival and the decision to revive an IP right, including by way of an appeal. The events in this category may move an IP right from the termination likely / termination stage into the registration stage or the post-registration challenge stage.
- K10. **IP right revived:** An IP right was revived, reinstated or restored in full or amended form after its cessation. This includes, but is not limited to when an IP right is revived following payment of an outstanding maintenance or renewal fee or following an appeal.
- K11. IP right revival requested (A revival, reinstatement or restoration of a ceased IP right was requested.)
- K12. Request for IP right revival rejected (A request for revival, reinstatement or restoration of a ceased IP right was inadmissible, rejected or withdrawn.)
- K13*. IP right revived in full (A ceased IP right was revived, reinstated or restored in full.)
- K14*. IP right revived in amended form (A ceased IP right was revived, reinstated or restored in amended form.)
- L. IP right review request:** This category is a group of events related to a request for a review after registration of a trademark and/or the grant of an IP right. It includes, for example, a request for a post-registration opposition, post-registration examination, limitation, reissue, surrender, or invalidation. It also includes when such a request was inadmissible, rejected or withdrawn. The events in this category may move an IP right from the registration stage or the termination likely / termination stage into the post-registration challenge stage.
- L10. **IP right review requested:** An IP right review was requested. This includes, but is not limited to a request for a post-registration opposition, post-registration examination, limitation, reissue, surrender, or invalidation.
- L11*. Post-registration opposition filed (A post-registration opposition was filed.)
- L12*. Post-registration examination requested or commenced (A post-registration examination was requested or commenced by an applicant or a third party, or an IPO initiated the examination independently, in accordance with the applicable law. The post-registration examination may result in certification, granting the owner(s) additional legal rights.)
- L13*. Limitation or reissue of IP right requested (A limitation or reissue of an IP right was requested.)
- L14*. Surrender of IP right requested (A request to surrender an IP right was made by the IP right owner.)
- L15*. Invalidation requested (An administrative revocation, cancellation, nullity, annulment or invalidation proceeding was requested.)
- L16. Post-registration third party observation filed (A third party filed prior rights documents or other related information with the IPO after the grant of an IP right.)
- L17. Declaration of non-infringement requested (A third party requested a declaration of non-infringement of the IP right.)
- L18. Request for IP right review rejected (A request for an IP right review was inadmissible, rejected or withdrawn.)
- L19*. Post-termination review requested (A post-termination review was requested to invalidate an IP right retroactively.)
- M. IP right maintenance:** This category is a group of events related to the maintenance of a granted IP right, in full or amended form, as the outcome of a post-registration challenge. It includes, for example, an IP right being maintained in full or amended form following an appeal, an IP right review or the inadmissibility, rejection or withdrawal of a request for an IP right review. The events in this category may move an IP right from the post-registration challenge stage into the registration stage.
- M10. **IP right maintained:** An IP right was maintained in full or amended form. This includes, but is not limited to when an IP right was maintained following an appeal, an IP right review or when a request for an IP right review was inadmissible, rejected or withdrawn.
- M11*. IP right maintained in full following an IP right review or an appeal (The IP right was maintained in full following an appeal or an IP right review, for example, following a post-registration opposition, post-registration examination, limitation or reissue, surrender, or invalidation proceeding.)
- M12*. IP right maintained in amended form following an IP right review or an appeal (The IP right was maintained in amended form following an appeal or an IP right review, for example, following a post-registration opposition, post-registration examination, limitation or reissue, surrender, or invalidation proceeding.)

- M13*. IP right maintained following rejected IP right review request (The IP right was maintained following an inadmissible, rejected or withdrawn request for an IP right review.)
- M14. Post-registration examination certificate issued (A post-registration examination certificate was issued following a post-registration examination procedure. Certification may grant the owner(s) additional legal rights.)
- M16.* International registration limited (An international registration was limited to one or some of the trademarks upon request of the IP right owner.)
- N. Termination:** This category is a group of events related to the termination of an application or an IP right without a possibility of its revival. It includes, for example, when an application or IP right was terminated by the IPO or a court. The events in this category are not available to all IPOs.
- N10. **Application or IP right terminated:** An application or IP right was terminated.
- N11*. Application terminated (An application was terminated.)
- N12*. IP right terminated (A granted IP right was terminated.)
- P. Document modification:** This category is a group of events related to modifications of an application, IP right document or other document, which occur outside the context of a pre-registration review or IP right review. It includes, for example, amendments and corrections of errors in applications and IP right documents. The events in this category may occur during any stage.
- P10. **Document modified:** An amendment or correction was made to an application, IP right document or other document, excluding modifications which occur in the context of a pre-registration review or IP right review. This includes, but is not limited to corrections of errors in IP documents, amendments to applications or amendments to translations of applications.
- P11. Amendment of application requested (An amendment of the application has been requested.)
- P12. Request for amendment of application rejected (A request to amend the application was inadmissible, rejected or withdrawn.)
- P13*. Application amended (The application has been amended in response to a request by the applicant.)
- P14. Amendment of IP right document requested (An amendment of the IP right document has been requested outside the scope of an IP right review.)
- P15. Request for amendment of IP right document rejected (A request for an amendment of the IP right document outside the scope of an IP right review was inadmissible, rejected or withdrawn.)
- P16*. IP right document amended (The IP right document has been amended outside the scope of an IP right review in response to a request by the IP right owner.)
- P17*. Translation of an application amended (A translation of the application has been amended.)
- P18*. Priority claim added or amended (A priority claim has been added or amended.)
- P19. Errors in documents containing IPO's decisions corrected (Errors, such as a linguistic error, transcription error or obvious mistakes have been corrected in documents containing decisions of the IPO.)
- P20*. Errors in documents filed by the applicant or IP right owner corrected (Errors in documents filed by the applicant or IP right owner have been corrected.)
- P21*. Publication errors corrected (Errors in a document published by the IPO, including an application or an IP right document have been corrected.)
- P22. Classification modified (The assigned classification of an application or IP right document was changed, corrected or reclassified according to Nice, Vienna or national/regional classifications.)
- P23. Related IP right document modified (A related IP right document was modified.)
- P24. Related application modified (A related application, such as a regional application was modified).
- Q. Document publication:** This category is a group of events related to document publication by the IPO. It includes, for example, publication of an application, IP right document or bibliographic information by the IPO. The events in this category may occur during any stage.
- Q10. **Document published:** A document was published by the IPO. This includes, but is not limited to publication of an application, IP right document or bibliographic information.
- Q11*. Certain bibliographic information on the application published (Certain bibliographic information on the application and the applicant, for example, the application number and the applicant's name, were published before the publication of the application as filed.)
- Q12*. Application published (An application was published by the IPO; an IPO may accept an application in a foreign language for the purpose of according a filing date; however, in general, the IPO requires that an applicant submit a translation of the application in a language the IPO publishes in, before it will be published.)
- Q13*. IP right document published (The document related to a registered trademark and/or the granted IP right or a trademark which the IPO intends to register was published.)

- Q15. Earlier publication cancelled (A publication, including an application, IP right document or bibliographic information, was cancelled or withdrawn by the IPO.)
- Q16*. A copy of IP right certificate issued (An official copy of an IP right certificate was issued.)
- Q17*. Amended document published (An amended document was published.)
- Q18*. International registration published (International registration was published by the International Bureau.)
- Q19. Publication of the trademark deferred (The publication of the trademark was deferred at the request of the applicant or holder to maintain the trademark unpublished according to a system of deferment of publication or a system giving the possibility to postpone publication, where it takes place after registration or grant of protection, by delaying the payment of the registration fees or delaying the grant of protection.)
- Q20*. Trademark published after the expiry of the deferment period (The trademark for which a deferment request had been made was published after the expiry of the deferment period.)
- Q21*. Trademark published during the deferment period (The trademark for which a deferment request had been made was published at any time during the deferment period at the request of the applicant or holder.)
- R. Party data change:** This category is a group of events related to the IPO recording changes in party data. It includes, for example, when the IPO records changes to a party concerned with the application or IP right, e.g. the applicant(s), owner(s), or representative(s). It also includes events related to the recording of changes in party contact information. The events in this category may occur during any stage.
- R10. **Party data change recorded:** A change in the data identifying the parties concerned with an application or IP right was recorded by the IPO. This includes, but is not limited to when a change to the name(s), composition or contact information of a party, e.g. the applicant(s), owner(s), or representative(s), was recorded by the IPO. This also includes when an IPO records a change in ownership due to a transfer of rights, an assignment or a legal proceeding.
- R11. Change to the name of applicant or owner or transfer of ownership requested (A change to the name(s) of the applicant(s) or owner(s), a transfer of ownership or an assignment was requested, or a legal proceeding was commenced to change the applicant(s) or owner(s) of the application or IP right.)
- R12*. Change to the name of applicant or owner or transfer of ownership recorded (A change to the applicant(s) or owner(s) of the application or IP right, including a change in name(s) or in composition, was recorded by the IPO. This may be due to a name change, a transfer of ownership, an assignment or a legal proceeding.) This detailed event is intended for use by IPOs which cannot distinguish between R13 and R14. If the distinction is possible, the use of R13 and R14 is highly recommended.
- R13*. Change to the name of applicant or owner recorded (A change to the name(s) of the applicant(s) or owner(s) of the application or IP right was recorded by the IPO.)
- R14*. Transfer of ownership recorded (A transfer of ownership, an assignment or a change to the composition of applicant(s) or owner(s) of the application or IP right was recorded by the IPO.)
- R17*. Change to representative recorded (A change to the representative(s) of the applicant(s) or owner(s), including a change in name(s) or in composition, was recorded by the IPO.)
- R18*. Change to party contact information recorded (A change to the contact information, such as the email address, postal address or phone number of a party was recorded by the IPO.)
- R19. Request for party data change rejected (A request for a party data change was inadmissible, rejected or withdrawn.)
- S. Licensing information:** This category is a group of events related to the IPO recording licensing information and amendments to such records. It includes, for example, when an IPO records that a license, pledge or security interest has been agreed to, amended, cancelled or transferred. The events in this category may occur during any stage.
- S10. **Licensing information recorded:** Licensing information has been recorded by the IPO. This includes, but is not limited to when an agreement for a license between an IP right owner and another party was recorded or its amendment, cancellation or transfer was recorded by the IPO.
- S11*. Voluntary license recorded (A voluntary licensing arrangement, on an exclusive or non-exclusive basis, between an applicant or IP right owner and another party was recorded.)
- S12*. Recordation of voluntary license amended (Recordation of a voluntary license was amended.)
- S13*. Recordation of voluntary license cancelled (Recordation of a voluntary license was cancelled.)
- S14*. Exclusive voluntary license recorded (A voluntary licensing arrangement, on an exclusive basis, between an applicant or IP right owner and another party was recorded.)
- S15*. Recordation of exclusive voluntary license amended (Recordation of an exclusive voluntary license was amended.)
- S16*. Recordation of exclusive voluntary license cancelled (Recordation of an exclusive voluntary license was cancelled.)
- S17*. Non-exclusive voluntary license recorded (A voluntary licensing arrangement, on a non-exclusive basis, between an applicant or IP right owner and another party was recorded.)
- S18*. Recordation of non-exclusive voluntary license amended (Recordation of a non-exclusive voluntary license was amended.)

- S19*. Recordation of non-exclusive voluntary license cancelled (Recordation of a non-exclusive voluntary license was cancelled.)
- S20*. Security interest recorded (A security interest, pledge or mortgage between an applicant or IP right owner and another party was recorded.)
- S21*. Recordation of security interest amended (Recordation of a security interest, pledge or mortgage was amended.)
- S22*. Recordation of security interest cancelled (Recordation of a security interest, pledge or mortgage was cancelled.)
- S23*. Compulsory license recorded (A compulsory license was recorded following the grant of a license by the IPO to allow another party to produce, use or import the protected product or process without the consent of the applicant or IP right owner.)
- S24*. Recordation of compulsory license amended (Recordation of a compulsory license was amended.)
- S25*. Recordation of compulsory license cancelled (Recordation of a compulsory license was cancelled.)
- S26*. Availability or offer of license by an applicant or IP right owner recorded (Availability or an offer by an applicant or IP right owner to license his or her rights to third parties by way of a binding or non-binding commitment was recorded, for example a license of right, a non-binding interest to grant a license or willingness to grant a license.)
- S27*. Recordation of availability or offer of license by applicant or IP right owner cancelled (Recordation of availability or an offer of a license by an applicant or IP right owner was cancelled, such as a license of right.)
- S28*. Royalty agreement recorded (A royalty agreement between an applicant or IP right owner and another party was recorded.)
- S29*. Recordation of royalty agreement amended (Recordation of a royalty agreement was amended.)
- S30*. Recordation of royalty agreement cancelled (Recordation of a royalty agreement was cancelled.)
- S31*. Sublicense recorded (A sublicense was recorded between a licensee and a sublicensee.)
- S32*. Recordation of sublicense amended (Recordation of a sublicense was amended.)
- S33*. Recordation of sublicense cancelled (Recordation of a sublicense was cancelled.)
- S34*. Concession recorded (A concession was recorded.)
- S35*. Recordation of concession amended (Recordation of a concession was amended.)
- S36*. Recordation of concession cancelled (Recordation of a concession was cancelled.)
- S37*. Subconcession recorded (A subconcession was recorded.)
- S38*. Recordation of subconcession amended (Recordation of a subconcession was amended.)
- S39*. Recordation of subconcession cancelled (Recordation of a subconcession was cancelled.)
- T. Administrative procedure adjustment:** This category is a group of events related to the adjustment of an administrative procedure conducted by the IPO. It includes, for example, granting an extension of an administrative time limit or continued processing of a necessary procedure. It also includes a suspension, stay or interruption of an administrative procedure, or the resumption of a suspended, stayed or interrupted administrative procedure. The events in this category may occur during any stage.
- T10. **Administrative procedure adjusted:** An adjustment has been made to an administrative procedure. This includes, but is not limited to a time limit extension, a suspension, stay or interruption of an administrative procedure, or resumption of a suspended, stayed or interrupted procedure.
- T11. Administrative time limit extension requested (An extension of a time limit or continued processing was requested.)
- T12. Administrative time limit extension not granted (A request for an extension of a time limit or continued processing was inadmissible, rejected or withdrawn.)
- T13*. Administrative time limit extension granted (A request for an extension of a time limit or continued processing was granted.)
- T14*. Administrative procedure suspended or stayed (An administrative procedure was suspended, stayed or discontinued.)
- T15*. Administrative procedure interrupted (An administrative procedure was interrupted.)
- T16*. Administrative procedure resumed (An administrative procedure which had previously been suspended, stayed, discontinued or interrupted was resumed.)
- U. Payment:** This category is a group of events related to the payment of fees. It includes, for example, payment of a renewal, maintenance or other designation fee. The events in this category may occur during any stage.
- U10. **Fee paid:** A fee payment was made. This includes, but is not limited to full or partial payment of a renewal, maintenance or designation fee.
- U11*. Full renewal or maintenance fee paid (A full renewal or maintenance fee was paid.)

- U12*. Second part of designation fee paid (The second part of the individual designation fee, payable after the completion of the substantive examination by the IPO of a designated Contracting Party, was paid.)
- U13. Renewal or maintenance fee not paid (A renewal or maintenance fee was not paid by the due date.)
- U15.* Partial renewal or maintenance fee paid modifying the IP right scope (A partial renewal or maintenance fee was paid which modified the scope of the IP right.)
- V. Appeal:** This category is a group of events related to an appeal of a decision made during the prosecution of an IP right. It includes, for example, a request by the applicant, IP right owner, or third party for an administrative or court appeal of any decision made during the prosecution of an IP right and the procedural outcome of such an appeal. The substantive outcome of the appeal may be mapped to an event in another category, for example, application discontinued, application revived, IP right granted, IP right ceased, or IP right maintained. The events in this category may occur during any stage.
- V10. **Appeal requested:** An appeal of a decision made during the prosecution of an application or IP right was requested to an administrative body, tribunal, board or court. This includes, but is not limited to when an applicant or IP right owner requests an appeal against a decision made by the examiner during the prosecution of the IP right.
- V11*. Administrative appeal requested (An appeal of a decision was requested to an administrative body, board, or tribunal.)
- V12*. Court appeal requested (An appeal of a decision was requested to a court or judicial body.)
- V13. Appeal inadmissible, rejected or withdrawn (The appeal was inadmissible, rejected or withdrawn).
- V14. Decision remanded (The appeal was allowed and the appellate body remanded the decision back to the original decision-maker for reconsideration.)
- V15. Decision substituted (The appeal was allowed and the appellate body substituted its own decision for the original decision.)
- W. Other:** This category covers events which cannot be categorized under any other Category. It is recommended to use this category as a last resort for unusual cases, where a liberal interpretation of the description of all other Categories would fail to adequately describe the national/regional/international event (e.g. legacy events or interim/internal events).
- W10. **Other event occurred:** An event which cannot be categorized under any other category occurred (e.g. a legacy event or an interim/internal event.)
- Y. Correction and deletion of event information:** This category is a group of events related to the correction or deletion of erroneous event information that the IPO previously provided. It includes, for example, correction in the status event code of an application or IP right provided under this Standard or the correction or deletion of an event that was announced erroneously in a gazette, IP register or other published documentation. The events in this category may occur during any stage.
- Y10. **Event information corrected or deleted:** Errors in the legal status data have been corrected or deleted. This includes, but is not limited to corrections of legal status data provided under this Standard or the correction or deletion of an event that was announced erroneously in a gazette, IP register or other published documentation.
- Y11. Correction for an international registration refused (A correction recorded in the International Register was refused by the IPO of a designated Contracting Party with respect to an international registration.)

[Annex II of ST.XX follows]

ANNEX II

SUPPLEMENTARY EVENT DATA

Draft

1. Each status event code may be accompanied by supplementary event data. There is supplementary event data that is specific to events in a particular category and there is common supplementary event data which is common to all events. The common supplementary event data includes (1) the effective country or region, (2) the gazette issue number, (3) comment (i.e. free text); (4) a prior relevant event date, and (5) a relevant rule. The "effective country or region", is the country or region where the event has legal effect, which is particularly relevant for regional IPOs where the effect of an event, such as discontinuation due to non-payment of renewal fees, only has effect in some of the countries where the IP right is active. The "gazette issue number" is the issue of the national/regional gazette where the particulars of the national/regional event are made public. IPOs will be able to provide additional associated data which is not specified in the "comment" entry. The "prior relevant event date" is the date of a prior event which is relevant to the current event, such as the start of a fee payment time period which has expired. The "relevant rule" is an Office-specific rule, regulation, law, or other principle which was applied to reach the event outcome.

2. The Table below shows what supplementary data fields may be used for different categories. The first row shows common elements that may be used in any category, and subsequent rows show the data elements specific to each category. Note that the supplementary data elements indicated in this Standard are general descriptions of the types of data that may be provided.

Category Code	Category Title & Description	Supplementary event data
n/a	<p>All categories</p> <p>This shows common data elements that may be used in any category.</p>	<ol style="list-style-type: none"> 1. Effective country or region 2. Gazette issue number 3. Comment (i.e. free text) 4. Prior Relevant Event Date 5. Relevant Rule (e.g. rule number)
A	<p>Application filing</p> <p>This category is a group of events related to the filing of an application. It covers any event that results in the creation of a new matter number, whether or not a new application document is filed at the IPO. For example, it includes when a national or regional IPO or the International Bureau of the World Intellectual Property Organization receives an application for the registration of a trademark together with any additional indications, elements, documentation and/or fees necessary to obtain a filing date under national or regional law or convention or the Madrid System as applicable. This category also includes events related to the creation of a subsequent designation, divisional application, continuation, or a conversion.</p>	<ol style="list-style-type: none"> 1. Related Document Identification (e.g. parent document ID) 2. Priority Date 3. International or Regional Application Filing Data 4. Applicant Data (e.g. name, contact info) 5. Divided Applications
B	<p>Application discontinuation</p> <p>This category is a group of events related to the discontinuation of an application. It includes, for example, when an application has been voluntarily withdrawn by the applicant, was deemed to be withdrawn, abandoned or lapsed or was refused by the IPO. The events in this category may move an application from the filing stage, examination stage or pre-registration challenge stage into the termination likely / termination stage.</p>	<ol style="list-style-type: none"> 1. Reason Not In Force
C	<p>Application revival</p> <p>This category is a group of events related to the revival, reinstatement or restoration of an application after it has been discontinued, where permitted by the IP Office. It includes, for example, when an application was revived following a request for application revival after payment of an outstanding fee, responding to an outstanding action or decision which had resulted in the application being discontinued, or following an appeal. The events in this category may move an application from the termination likely / termination stage into the filing stage, examination stage or pre-registration challenge stage.</p>	<ol style="list-style-type: none"> 1. Discontinuation Date 2. Reason Not In Force

Category Code	Category Title & Description	Supplementary event data
D	<p>Search and examination</p> <p>This category is a group of events related to the examination proceeding and prior rights searches that occur before the acceptance or rejection of the trademark. It includes, for example, a formality examination or a substantive examination. It also includes a request for a prior rights search and an announcement of the intention of the IPO to register the trademark and/or grant an IP right. The events in this category may move an application from the filing stage or the pre-registration challenge stage into the examination stage.</p>	<ol style="list-style-type: none"> 1. Search Origin Category 2. Requester of Search (e.g., applicant, third party, or independently by the IPO) 3. Requester of Examination (e.g., applicant, third party, or independently by the IPO) 4. Publication Data 5. Priority Data 6. Related Documents Data (e.g. regional filing data, international filing data) 7. Applicant Data
E	<p>Pre-registration review request</p> <p>This category is a group of events related to the request for a pre-registration review. It includes, for example, a request for a pre-registration opposition, pre-registration re-examination, or pre-registration limitation. It also includes when such a request was inadmissible, rejected or withdrawn. The events in this category may move an application from the examination stage or the termination likely / termination stage into the pre-registration challenge stage.</p>	<ol style="list-style-type: none"> 1. Details of Court/Tribunal (e.g., name of court, tribunal, IPO body) 2. Party Name(s) 3. Representative's Details (e.g.name(s) & contact Information) 4. Review Procedure Data (e.g. opposition date, reference, language)
F	<p>Trademark registration</p> <p>This category is a group of events which relate to the effective grant date of an IP right and/or the entry of the trademark into the IPO's register. It includes, for example, when a trademark is registered and/or an IP right was granted following an examination, an appeal, pre-registration review or inadmissibility, rejection or withdrawal of a pre-registration review request. The events in this category may move an application from the examination stage or the pre-registration challenge stage into the registration stage.</p>	<ol style="list-style-type: none"> 1. Name of Registered Owner 2. Reference to Pre-grant Review Decision (e.g., court or tribunal order following pre-grant review) 3. Priority Data 4. Classification Data
H	<p>IP right cessation</p> <p>This category is a group of events related to the cessation of an IP right. It includes, for example, the cessation of an IP right following an IP right review, an appeal, a refusal to reinstate, or a lapse or expiry. The events in this category may move an IP right from the registration stage or the post-registration challenge stage into the termination likely / termination stage.</p>	<ol style="list-style-type: none"> 1. Legal Effect Start Time 2. Decision Authority Category (e.g., national court, tribunal, IPO) 3. Reason Not In Force

Category Code	Category Title & Description	Supplementary event data
K	<p>IP right revival</p> <p>This category is a group of events related to the revival, reinstatement or restoration of an IP right after its cessation. It includes, for example, the request for the revival and the decision to revive an IP right, including by way of an appeal. The events in this category may move an IP right from the termination likely / termination stage into the registration stage or the post-registration challenge stage.</p>	<ol style="list-style-type: none"> 1. Reinstatement Reason Category (e.g., following payment of fee) 2. Cessation Date 3. Expiry Date
L	<p>IP right review request</p> <p>This category is a group of events related to a request for a review after registration of a trademark and/or the grant of an IP right. It includes, for example, a request for a post-registration opposition, post-registration examination, limitation, reissue, surrender, or invalidation. It also includes when such a request was inadmissible, rejected or withdrawn. The events in this category may move an IP right from the registration stage or the termination likely / termination stage into the post-registration challenge stage.</p>	<ol style="list-style-type: none"> 1. Party Name(s) 2. Representative's Details (e.g. name(s) & contact information) 3. Review Procedure Details (e.g. opposition date, reference, language)
M	<p>IP right maintenance</p> <p>This category is a group of events related to the maintenance of a granted IP right in full or amended form as the outcome of a post-registration challenge. It includes, for example, an IP right being maintained in full or amended form following an appeal, an IP right review or the inadmissibility, rejection or withdrawal of a request for an IP right review. The events in this category may move an IP right from the post-registration challenge stage into the registration stage.</p>	<ol style="list-style-type: none"> 1. IP Right Review Details (i.e. information about the IP right review, including court order details for example) 2. Decision Authority Category e.g., court, tribunal, IPO)
N	<p>Termination</p> <p>This category is a group of events related to the termination of an application or an IP right without a possibility of its revival. It includes, for example, when an application or IP right was terminated by the IPO or a court. The events in this category are not available to all IPOs.</p>	<ol style="list-style-type: none"> 1. Reason Not In Force
P	<p>Document modification</p> <p>This category is a group of events related to modifications of an application, IP right document or other document, which occur outside the context of a pre-registration review or IP right review. It includes, for example, amendments and corrections of errors in applications and IP right documents. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Publication identification 2. Modified Part of Document Category (e.g., bibliographic information, priority claim, specification, claims, drawings) 3. Modification Category (e.g., amendment or correction) 4. Previously Published (erroneous) Content 5. New (corrected) Content

Category Code	Category Title & Description	Supplementary event data
Q	<p>Document publication</p> <p>This category is a group of events related to document publication by the IPO. It includes, for example, publication of an application, IP right document or bibliographic information by the IPO. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Publication Identification
R	<p>Party data change</p> <p>This category is a group of events related to the IPO recording changes in party data. It includes, for example, when the IPO records changes to a party concerned with the application or IP right, e.g. the applicant(s), owner(s), or representative(s). It also includes events related to the recording of changes in party contact information. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Party Data Change Category (e.g., owner change, representative change, owner contact information change, representative contact information change) 2. Previous Party Details (e.g. name, contact information, country code) 3. New Party Details (e.g. name, contact information, country code) 4. Ownership Transfer Data (including assignment document number) 5. Legal Proceedings Details (if applicable)
S	<p>Licensing information</p> <p>This category is a group of events related to the IPO recording licensing information and amendments to such records. It includes, for example, when an IPO records that a license, pledge or security interest has been agreed to, amended, cancelled or transferred. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. License Data (e.g. registration number, record type, status, start and end dates) 2. Licensor(s) Data (e.g. name, contact information, country code) 3. Licensee(s) Data (e.g. name, contact information, country code) 4. Licensing Information Amendment Category (i.e. which terms were amended) 5. Territory of License Validity 6. Legal Proceeding Details (if applicable)

Category Code	Category Title & Description	Supplementary event data
T	<p>Administrative procedure adjustment</p> <p>This category is a group of events related to the adjustment of an administrative procedure conducted by the IPO. It includes, for example, granting an extension of an administrative time limit or continued processing of a necessary procedure. It also includes a suspension, stay or interruption of an administrative procedure, or the resumption of a suspended, stayed or interrupted administrative procedure. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Adjustment Category (e.g., time extension, suspension, stay, resumption, interruption, delay in communication services, as-of-right extension granted, IPO disruption, IPO irregularity) 2. Reason for Adjustment (e.g., natural disaster, IPO delay, court delay, applicant/owner delay) 3. Start and End Date (e.g., date at which the adjustment starts and date at which the adjustment ends)
U	<p>Payment</p> <p>This category is a group of events related to the payment of fees. It includes, for example, payment of a renewal, maintenance or other designation fee. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Fee Category (e.g., registration fee, maintenance fee, renewal fee, designation fee) 2. Payment Details (e.g. payment status, year of fee payment, ,) 3. Renewal Details (e.g., length of renewal, scope changes, next fee due date)
V	<p>Appeal</p> <p>This category is a group of events related to an appeal of a decision made during the prosecution of an IP right. It includes, for example, a request by the applicant, IP right owner, or third party for an administrative or court appeal of any decision made during the prosecution of an IP right and the procedural outcome of such an appeal. The substantive outcome of the appeal may be mapped to an event in another category, for example, application discontinued, application revived, IP right granted, IP right ceased, or IP right maintained. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Appellate body 2. Decision Being Appealed 3. Appellate Decision Details 4. Decision Citation
W	<p>Other</p> <p>This category covers events which cannot be categorized under any other category. It is recommended to use this category as a last resort for unusual cases, where a liberal interpretation of the description of all other Categories would fail to adequately describe the national/regional/international event (e.g. legacy events or interim/internal events).</p>	<ol style="list-style-type: none"> 1. National or Regional Event Description
Y	<p>Correction and deletion of event information</p> <p>This category is a group of events related to the correction or deletion of erroneous event information that the IPO previously provided. It includes, for example, correction in the status event code of an application or IP right provided under this Standard or the correction or deletion of an event that was announced erroneously in a gazette, IP register or other published documentation. The events in this category may occur during any stage.</p>	<ol style="list-style-type: none"> 1. Status Event Identification (Status Event Code and Date, or Unique Identifier) 2. Previously Published Erroneous Content 3. New Corrected Content

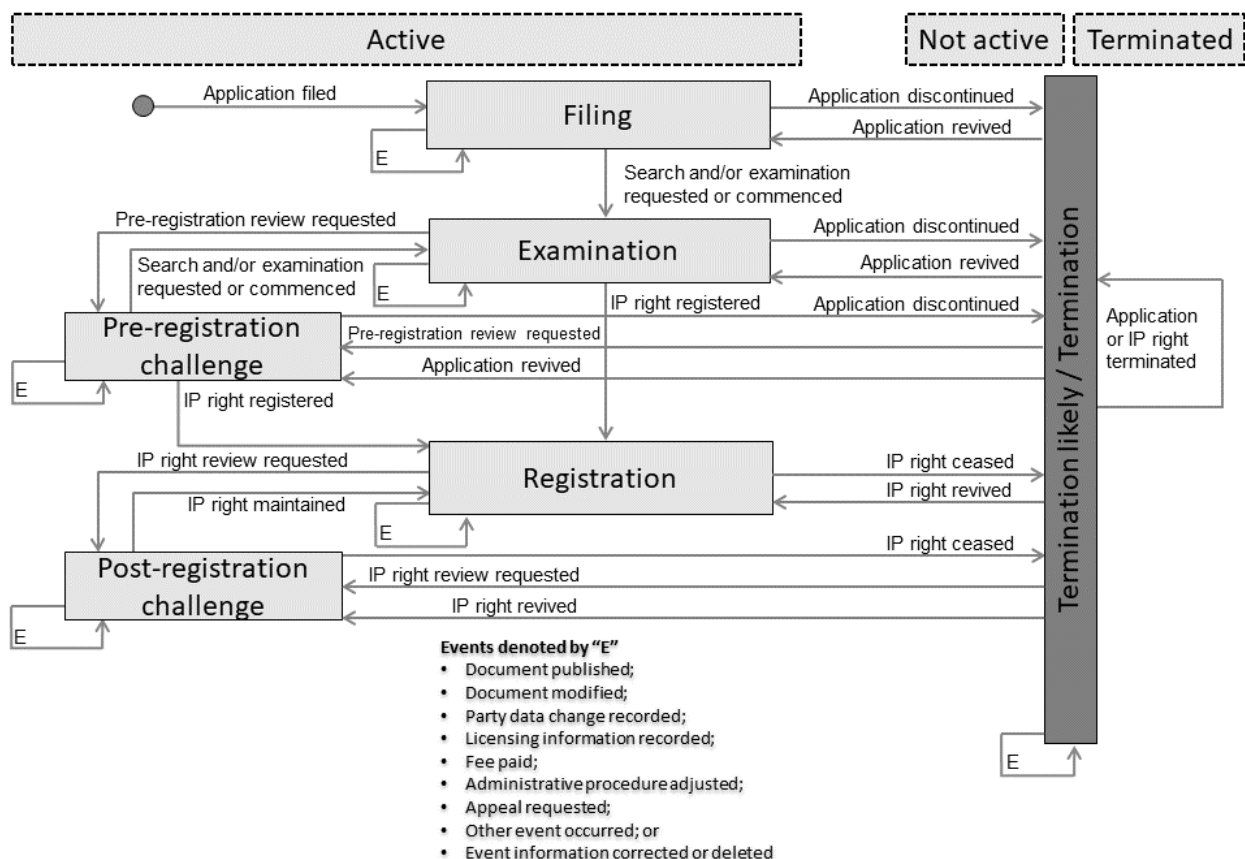

ANNEX III

OVERALL TRADEMARK PROSECUTION MODEL WITH EXAMPLES

Draft

1. This Annex provides examples of the types of national/regional/international events which can be mapped to the key events as they are used in the Overall Trademark Prosecution Model. The examples are not exhaustive and are only meant to be illustrative. The key events are numbered in the Overall Trademark Prosecution Model and examples of the national/regional/international events that correspond to these key events are provided below. The purpose of this Annex is to provide guidance on how multiple distinct national/regional/international practices can be subsumed in a single key event. For example, the key event 'B10. Application discontinued', occurs three times in the Overall Trademark Prosecution Model (numbers 2, 5, and 10). While the description of this key event covers all three scenarios, the examples below illustrate how three separate national/regional/international events can be mapped to the same key event. The examples below also illustrate why key event information by itself, without state and stage information, is insufficient to provide the full picture of the legal status of the application or IP right.

2. The Overall Trademark Prosecution Model is only meant to be illustrative and will not describe every situation for trademarks; there will always be exceptions to the general model. Nor is it possible for one prosecution model to describe the prosecution processes in all IPOs; however, this model describes the general prosecution of applications and trademarks used by many IPOs worldwide.

3. Application filed

- An international application was filed
- A national or regional application was filed with an IPO
- A divisional application was filed
- A conversion application was filed

4. Application discontinued (Filing stage → Termination likely / termination stage)

- An application was withdrawn by the applicant before examination had commenced
 - An application was deemed to be withdrawn, abandoned or lapsed because the applicant did not pay a necessary fee or did not request a substantive examination
5. Application revived (Termination likely / termination stage → Filing stage)
 - An application which was discontinued due to a non-payment of a filing fee was revived by the IPO following a request by the applicant and the payment of the necessary fee
 6. Search and/or examination requested or commenced (Filing stage → Examination stage)
 - A formality examination is initiated by the IPO
 - A prior rights search was requested by the applicant
 - A prior rights search was initiated independently by the IPO
 - A substantive examination is requested by the applicant
 - A substantive examination is initiated independently by the IPO
 7. Application discontinued (Examination stage → Termination likely / termination stage)
 - An application was discontinued because an examination could not proceed due to no response by the applicant to an office action within the required time period
 - Following a substantive or formality examination, the application was refused because of non-compliance with laws or regulations or failure to meet certain requirements imposed by the prosecuting IPO
 8. Application revived (Termination likely / termination stage → Examination stage)
 - An application which was discontinued due to failure to respond to an office action has re-entered into the examination stage after payment of a fee was made and a response was provided
 9. Pre-registration review requested (Examination stage → Pre-registration challenge stage)
 - Pre-registration opposition was filed by a third party
 - Pre-registration re-examination was requested
 10. Search and/or examination requested or commenced (Pre-registration challenge stage → Examination stage)
 - Following a request for a pre-registration review, the application was sent back for re-examination
 11. Trademark registered (Examination stage → Registration stage)
 - Following a substantive examination a trademark was registered and/or an IP right was granted
 - Following a formality examination a trademark was registered and/or an IP right was granted
 12. Application discontinued (Pre-registration challenge stage → Termination likely / termination stage)
 - A pre-registration opposition was successful and the application was discontinued
 13. Pre-registration review requested (Termination likely / termination stage → Pre-registration challenge stage)
 - Following the discontinuation of an application due to an IPO ruling that the application relates to more than one trademark, the applicant requested a pre-registration limitation
 14. Application revived (Termination likely / termination stage → Pre-registration challenge stage)
 - Failure to pay an annuity fee during the pre-registration challenge stage was rectified and the application was revived
 15. Trademark registered (Pre-registration challenge stage → Registration stage)
 - A pre-registration opposition was found to be inadmissible, was rejected or withdrawn and the trademark was registered and/or the IP right was granted
 16. IP right review requested (Registration stage → Post-registration challenge stage)
 - Post-registration opposition was filed by a third party against a granted IP right
 - A post-registration examination of a granted IP right was requested or commenced
 - Surrender of an IP right was requested
 - Limitation or reissue of an IP right was requested
 - Administrative revocation, cancellation, nullity, annulment, or invalidation of an IP right was requested
 17. IP right maintained (Post grant challenge stage → Registration stage)
 - An IP right was maintained in full or amended form following a post-registration opposition, or a request for an opposition was withdrawn, rejected or inadmissible
 - An IP right was maintained in full or amended form following a post-registration examination
 - A request to surrender an IP right was refused
 - An IP right was limited or reissued

- A request for a limitation or reissue of an IP right was withdrawn, rejected or inadmissible
18. IP right ceased (Registration stage → Termination likely / termination stage)
 - An IP right lapsed through neglect to maintain it, for example, an IP right owner did not pay the necessary maintenance fees
 - An IP right expired
 19. IP right revived (Termination likely / termination stage → Registration stage)
 - An IP right or part of an IP right was revived following payment of an outstanding maintenance fee or renewal fee
 20. IP right ceased (Post-registration challenge stage → Termination likely / termination stage)
 - A request to surrender an IP right was accepted and the IP right was surrendered
 - An IP right was revoked following an administrative revocation, cancellation, nullity, annulment, or invalidation proceeding
 - An IP right was ceased following a post-registration opposition
 21. IP right review requested (Termination likely / termination stage → Post-registration challenge stage)
 - Following an IP right ceasing, a limitation or reissue was requested by the IP right owner
 22. IP right revived (Termination likely / termination stage → Post-registration challenge stage)
 - Failure to pay a maintenance fee during the post-registration challenge stage was rectified and the IP right was revived
 23. Application or IP right terminated (Termination likely / termination stage → Termination likely / termination stage)
 - The IPO has determined that the IP right has ceased with no possibility of reinstatement (e.g. an expiry with no possibility of a term extension or renewal)
 - A court has determined that the IP right has ceased with no possibility of reinstatement (e.g. the highest court in the country has determined that a trademark is invalid and the decision cannot be appealed)

[Annex IV of ST.XX follows]

ANNEX IV

**MODEL TEMPLATE FOR MAPPING TABLE
BETWEEN NATIONAL/REGIONAL EVENTS AND STANDARD EVENTS**

Draft

When implementing this Standard, an announcement should be made and the International Bureau of WIPO should be informed by providing a mapping table of national/regional events to the Standard events on the basis of the suggested model template below. Note that it may be possible for an IPO to map multiple national/regional events to a single key or detailed event.

WIPO Standard Event		[ST.3 Office code]			
Code	Title (Description)	National or regional event title(s) in original language (Description(s) in original language)	National or regional event title(s) in English (Description(s) in English)	National or regional event code(s) (if applicable)	Remark
A10	Application filed (An application for an IP right was filed. This includes, but is not limited...)				
A11					
A12
