How KITR I S^{Plus} has innovated IP Business

by Hyekyung Kim Korea Institute of Patent Information 6/13/23

Contents

I. Introduction to Kirr I SPlus

Introduction to KITRIS^{Plus}

$\kappa i \mathbf{r} \mathbf{R} \mathbf{I} \mathbf{s}^{Plus}$ is an IP data providing service, released in 2012.

- D1 Bulk data Users can download vast amount of data from the KIPO's IP DB.
- Open API Users can access the KIPO's IP DB to retrieve or download specific data.

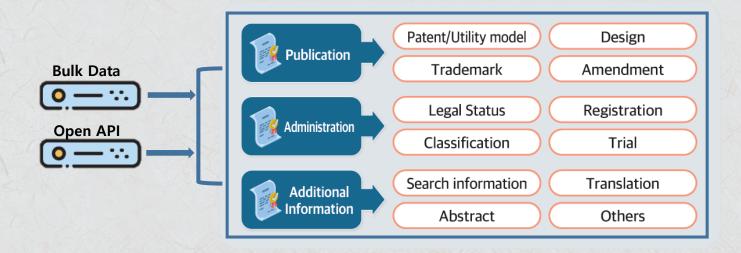

Korea Institute of Patent Information

Introduction to KITRIS^{Plus}

KiPR I **S**^{*Plus*} has provided various IP data since 2012.

K i R I S^{Plus} has publications, legal data, and others.
 IP data in high demand are added every year.

Introduction to KITRIS^{Plus}

KITRIS^{Plus} has provided various IP data since 2012.

14 innovative AI training data are provided.

П. кі́́́́́́́ R I s^{Plus} Open APIs

KiPRIS^{*Plus*} provides Open APIs for IP business.

- Open API system was built for IP companies to develop IP services.
- 860 Open API operations(SOAP: 472, REST: 388) for 50 IP data have been serviced so far.

02

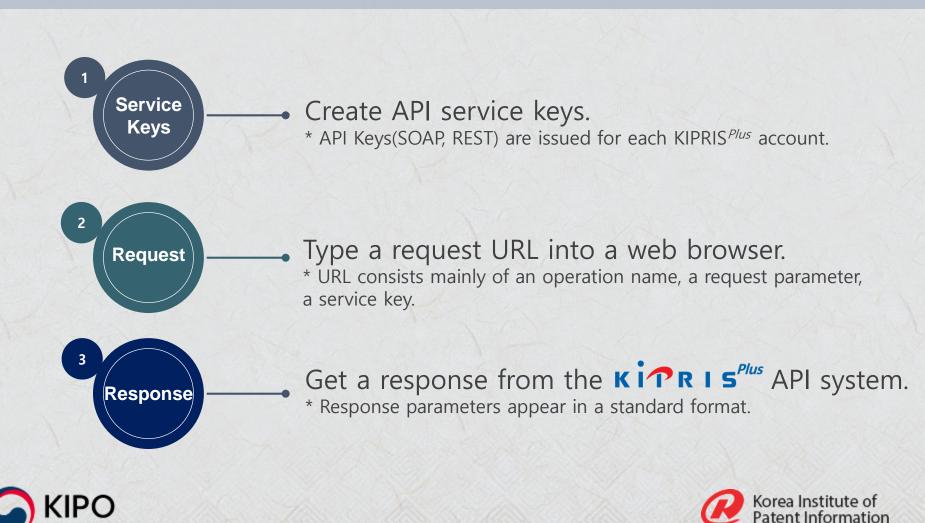

[EXAMPLE] Patent. Utility Model Publication (56 API Operations)

IP Data	Classification	Operation Name	
	General Search	· getWordSearch	
	Advanced Search	 getAdvancedSearch freeSearchInfo (omitted below) 	
Patent.Utility Model Publication	Bibliography	 getBibliographyDetailInfoSearch getBibliographySumryInfoSearch (omitted below) 	
	Drawing/Full-text	 getPubFullTextInfoSearch getAnnFullTextInfoSearch (omitted below) 	
	Utility	 getChangeInfoSearch patentTransferInfo (omitted below)

Improvement of KirRIS^{Plus}

$\mathbf{k} \mathbf{i} \mathbf{r} \mathbf{R} \mathbf{I} \mathbf{s}^{Plus}$ makes efforts to continuously improve.

1 **KITRIS^{Plus}** listens to users' opinions regularly and tries to help them use IP data conveniently.

Korea Institute of Patent Information

Improvement of KirRIS^{Plus}

$\kappa i \mathbf{r} \mathbf{R} \mathbf{I} \mathbf{s}^{Plus}$ makes efforts to continuously improve.

O2 API User Guide posts all of the $\kappa i \uparrow R \mid S^{Plus}$ API operations at one place.

IV. Innovation in IP Business

Improvement of KirRIS^{Plus}

Ki?RIS^{*Plus*} makes efforts to support innovative IP Business.

01

IP Business Idea Contest

- Started in 2015 to discover innovative IP business models.
- Supported the growth of 77 IP business models.

IP Business Growth Support

- Started in 2020 to foster the development of innovative IP business companies through financial support, education, mentoring, etc.
- Fostered 65 IP business companies.

V. Summary

Summary

- **K i r R I s**^{*Plus*}, an IP data providing service, was released in 2012 to promote the use of IP data and to support the growth of IP business.
- KirRIS^{Plus} was improved in many ways by releasing a new service, developing API operations, and increasing user convenience.
- KITRIS^{Plus} built 860 API operations for 50 IP data.
