

## Комитет по стандартам ВОИС (КСВ)

Восьмая сессия

Женева, 30 ноября – 4 декабря 2020 г.

### ПРЕДЛОЖЕНИЕ О ПЕРЕСМОТРЕ СТАНДАРТА ВОИС ST.27

*Документ подготовлен руководителем Целевой группы по правовому статусу*

#### СПРАВОЧНАЯ ИНФОРМАЦИЯ

1. На своей пятой сессии, состоявшейся в 2017 г., Комитет по стандартам ВОИС (КСВ) просил Целевую группу по правовому статусу провести консультации с Целевой группой по XML для IP в целях разработки элементов XML-схемы (XML – расширяемый язык разметки) на основе нового стандарта ВОИС ST.27, облегчающих обмен данными о правовом статусе патентов. Руководителем Целевой группы является Международное бюро. (См. пункты 50 и 53 документа CWS/5/22.)

2. Эта работа входит в сферу охвата задачи № 47, которая сформулирована следующим образом: «готовить предложения по пересмотру стандартов ВОИС ST.27 и ST.87 по мере необходимости; подготовить предлагаемый документ с методическими указаниями в отношении данных о правовом статусе промышленных образцов; подготовить рекомендацию по порядку обмена данными о правовом статусе товарных знаков между ведомствами промышленной собственности; оказать помощь Целевой группе по XML для ИС в разработке XML-компонентов данных событий, касающихся правового статуса» (см. пункт 114 документа CWS/7/29).

#### ПРЕДЛАГАЕМЫЕ ПОПРАВКИ К СТАНДАРТУ ВОИС ST.27

3. В ходе работы над элементами XML-схем для данных о правовом статусе патентов Целевая группа по XML для ПС обнаружила, что в полях для дополнительных данных стандарта ST.27 должна находиться дополнительная информация. По итогам обсуждения данного вопроса Целевая группа по правовому статусу рекомендует внести в приложение II к стандарту ST.27 поправки с целью более полного отражения этой новой информации, а также его согласования с соответствующими элементами XML стандарта ST.96, отраженными в новой версии 4.0. Описание изменений, которые предлагается внести в приложение II к стандарту ST.27, содержится в приложении к настоящему документу.

4. Поправки, которые предлагается внести в приложение II к стандарту ST.27, распространяются на следующие категории дополнительных данных. Как и в случае с существующими полями для дополнительных данных, их заполнение не является обязательным. Каждое ВИС решает вопрос о предоставлении тех или иных дополнительных данных по своему усмотрению. В число новых элементов данных входят:

- дата предшествующего события, связанного с событием, о котором делается запись;
- ссылка на соответствующее правило, норму, статут, нормативное положение или другое основание для принятия решения;
- причина того, почему заявка или охрана права ИС не являются действительными (например, отзыв, отказ, несоблюдение предельного срока);
- указание на то, что с заявкой или правом ИС связаны или могут быть связаны права преждепользования (если ВИС располагает такой информацией);
- данные о публикации, документы о приоритете или другие аналогичные документы;
- данные о проводившейся процедуре обзора (например, дата подачи возражения, язык, порядковый номер);
- данные, связанные с заявкой: название изобретения, информация о приоритете, классификация;
- данные об изобретателе (например, фамилия, месторасположение, работодатель);
- данные о передаче прав собственности, включая, например, порядковый номер записи о передаче прав;
- более подробные данные о лицензии, включая даты начала и окончания ее действия; и
- подробные данные об уплате пошлин, включая, например, год оплаты и состояние платежа (например, «платеж произведен», «платеж находится в обработке», «платеж не производился»).

5. Стандарт ST.27 содержит лишь общую информацию о категориях данных, относимых к дополнительным. Подробное описание данных, которые подлежат хранению, можно найти на веб-сайте ВОИС в том разделе, который содержит элементы XML-схем, соответствующих версии 4.0 стандарта ST.96.

6. Кроме того, в правила, касающиеся существующих элементов дополнительных данных, были внесены следующие улучшения:

- общие элементы данных, относящиеся ко всем категориям, включены в отдельное поле в начале таблицы (ранее они повторялись в рамках каждой категории);
- информация об именах и/или контактах была сведена воедино и объединена. Так, например, поле «Имя заявителя» стало полем «Данные о заявителе», поля «Название лицензиата» и «Код страны лицензиата» стали полем «Данные о лицензиате» и т.д.;
- индикатор *Ex tunc* или *Ex nunc* стал полем «Время вступления в силу»; и
- колонки с названием и описанием были объединены, в результате чего соответствующая таблица стала более удобной для ознакомления и занимает на 33% меньше страниц, нежели раньше.

7. Для того, чтобы отразить эти поправки, основной текст стандарта ST.27 будет изменен следующим образом:

«49. Минимальные дополнительные данные о событиях в той или иной категории содержатся в приложении II. Данные разделены на две группы: данные в первой строке таблицы – это общие дополнительные данные о событиях, которые могут предоставляться ВИС в отношении любого национального/регионального/международного события; данные в строке каждой конкретной категории относятся к этой категории».

## ПЛАН РАБОТЫ

8. Если КСВ утвердит предлагаемые поправки к приложению II стандарта ВОИС ST.27, Целевая группа предлагает пересмотреть приложение II к стандарту ST.87 и приложение II к новому стандарту о правовом статусе товарных знаков (см. документ CWS/8/8) в сотрудничестве с Целевой группой по XML для ПС в целях их согласования.

9. *КСВ предлагается:*

*(a) принять к сведению содержание настоящего документа;*

*(b) рассмотреть и утвердить предлагаемую новую редакцию «Стандарта ВОИС ST. 27: Обмен данными о правовом статусе патентов», которая разъясняется в пунктах 3-7 и воспроизводится в приложении к настоящему документу; и*

*(c) рассмотреть и утвердить предложение Целевой группы по правовому статусу, изложенное в пункте 8 выше.*

[Приложение следует]

## ANNEX II

## SUPPLEMENTARY EVENT DATA

*Proposal by the Legal Status Task Force for consideration at CWS/8*

1. Each status event code may be accompanied by supplementary event data. There is supplementary event data that is specific to events in a particular category and there is common supplementary event data which is common to all events. The common supplementary event data includes: (1) the effective country or region, (2) the gazette issue number, and (3) comment (i.e. free text); (4) a prior relevant event date and (5) a relevant rule. The "effective country or region", is the country or region where the event has legal effect, which is particularly relevant for regional IPOs where the effect of an event, such as discontinuation due to non-payment of renewal fees, only has effect in some of the countries where the IP right is active. The "gazette issue number" is the issue of the national/regional gazette where the particulars of the national/regional event are made public. IPOs will be able to provide additional associated data which is not specified in the "comment" entry. The "prior relevant event date" is the date of a prior event which is relevant to the current event, such as the start of a fee payment time period which has expired. The "relevant rule" is an Office-specific rule, regulation, law, or other principle which was applied to reach the event outcome.

2. The Table below shows what supplementary data fields may be used for different categories. The first row shows common elements that may be used in any category, and subsequent rows show the data elements specific to each category. Note that the supplementary data elements indicated in this Standard are general descriptions of the types of data that may be provided. The particular formats and allowed values for supplementary data are defined in data representation standards, such as WIPO ST.96 for eXtensible Markup Language (XML).
