

**Assemblies of the Member States of WIPO: Sixty-Fourth Series of Meetings
6-14 July 2023**

**General Statement by the Permanent Observer Delegation of the
Organization of Islamic Cooperation**

Madam Chair,
Director General,
Excellencies, ladies and gentlemen,

The OIC delegation thanks the Director General for his comprehensive report.

We recognize WIPO's essential role in advancing an effective and balanced global IP ecosystem for the benefit of all and commend the Organization's outstanding efforts in providing technical assistance and capacity building to its Member States, including particularly developing and least-developed ones.

We believe that WIPO has a unique role to play in facilitating the transfer of technology to developing countries in order to assist them in boosting their productive capacities and accelerating their economic, social and cultural development.

The OIC delegation congratulates WIPO on the successful launch of the Global Innovation Index 2022 and notes with appreciation that several OIC countries once again have made significant progress in their innovation ranking.

For its part, the OIC remains committed to implementing the relevant provisions of the OIC STI Agenda 2026, the Abu Dhabi Declaration of the second OIC Summit on Science and Technology and the pertinent resolutions adopted by the OIC Council of Foreign Ministers providing a framework for a strengthened cooperation between the OIC members in fostering innovation and creativity, promoting the scientific and technological development and expediting transition to knowledge societies.

Against this backdrop, we highly value the substantial contribution of the OIC Standing Committee on Scientific and Technological Cooperation (COMSTECH), the Islamic Development Bank (IsDB) and the Islamic World Educational, Scientific and Cultural Organization (ICESCO) in supporting the efforts of the OIC member states in the development of science, technology and innovation and the promotion of the joint Islamic action in these areas.

I thank you.
