\* The figures do not include interest and exchange rate adjustments. It should also be noted that these funds generally provide for activities spanning a period of time exceeding or overlapping a single biennium, and income is received, and expenditure incurred and accounted for, according to different financial reporting periods. Consequently, some of the balances at the end of 2005 may appear artificially high. There are a number of other fund-in-trust arrangements whereby WIPO's expertise and assistance is provided to support the development of national IP capacity in certain countries, funded through a series of funds-in-trust. These are reported in more detail in the WIPO Financial Management Reports.

\*\* The figures in these two columns are purely indicative and do not intend to comment on the intentions of potential donors.
