Project Management

FOTODIASTASI ILLUMINATION is a full-service **design and manufacturing** company based in Thessaloniki Greece since 1987. We operate 2 factories in Greece and 3 factories in Bulgaria.

Our team of professionals are specialized in taking your project from design concept to manufacturing and installation.

We've worked with some of the world's top cities, shopping centers and other commercial and governmental venues, to create amazing experiences in locations both large and small.

Our past projects include:

- City Center Berlin
- Glasgow Scotland, George Square
- Cardiff, England
- Exeter, England
- Melbourne, Australia
- Dublin, Ireland
- Budapest, Hungary
- Istanbul, Turkey.
- Mall of Emirates,
- Dubai LeMall, Lebanon
- Baneasa Shopping City, Romania
- Galleria Commerciale Porta di Roma
- Piazza Campania, Naples
- Le Gru, Torino
- Nave de Vero, Venice
- Grand Emilia, Modena

and many others cities and shopping malls in more than 80 countries like Germany, Netherlands, Italy, Israel, Australia, South Africa, England, Greece, Russia.

When the world's biggest cities and malls, need a team of experts to create a compelling festive experience in their venues, FOTODIASTASI ILLUMINATION is who they turn to!

It is refreshing to work with a company that is focused on quality and providing unique Christmas solutions to the commercial market.

We are proud to be associated with FOTODIASTASI and look forward to working together on many more exciting projects in the future.

Alexander Serbu,
Marketing Director
Baneasa Shopping City,
Bucharest RO

We have been working closely with FOTODIASTASI over the last number of years. We have always found them to be efficient and understanding of our needs for the Irish market. Product quality and service is first class and their pricing structure is extremely competitive!

Paul Byrne, Ireland,

Design

Our creative team will work with you to flesh out your concept through whiteboard and computer design sessions. Our experienced designers together with the latest technology in design software, are able to create lifelike visualisations and animations to show exactly what the completed project will look like. All decorations are first designed in 3D software to get a real feeling of the final product before it's even made.

Manufacturing - Quality Control

Our 5 factories are equipped with the latest technology in manufacturing and LASER cutting machinery, which combined with the experience of our skilled workers and the highest quality raw materials, enable us to produce illuminated decoration that has been recognized around the world for its quality and durability. Finally, before every decoration is packed and shipped to our customers, our quality control has to ensure that all the finishing details comply perfectly with **Fotodiasiasi's** high standard requirements of perfection .

Consulting

When custom decoration needs to be created from zero, there is no alternative but to combine the creativity and brainpower of different professionals to transform something abstract, a thought or an emotion, to an engagement of beautiful architecture and astonishing decoration surrounded by bright LED light. Together with your ideas, we can reach the required end result that moves people. Our team will help you choose the best decoration to fully complete your theme.

Installation - Dismantling

With respect to the structures and with the advice of your technical department, our own crew or local partner, will install the decoration on time and dismantle it after the festive period.

After Sales

Our people will provide all the support you need, even after installation of the decoration. For any questions you might have, you can always reach us on the phone or e-mail to help you with your questions and queries.

Logistics

Our logistics partners will safely transport the decoration so that arrives on time, with minimal fuss or disruption. We have patented diverse ways to minimize transport volume for our decoration and save you costs.

WHY ALL THIS MATTERS TO YOU

“We create innovative decoration solutions with illumination technologies that raise the attractiveness & value of your city or property.”

This way you:

Increase visitor numbers

Improve shoppers experience

Raise retailer revenue

Create a tourist attraction

Grow rental income and profits

Experience

Thessaloniki Greece has been the point of origin for amazing creations from a world brand in illuminated decoration, **FOTODIASTASI**. We've been creating illuminated decoration to decorate the world for the past 30 years, and in that time, we have developed expertise in unique designs in order to amaze. You know you're getting the best of the best when you work with us. We dedicate our Time, Expertise and Resources to complete your project the way you have visualized it.

Convenience

Because we handle everything from design concept to production and installation, you save precious hours of your time (and undue stress).

Communication

Each of our clients is assigned to a **Project Manager**, whose task is to communicate with you throughout the process and keep you updated at every step. Wherever possible our local partners handle the communication with you regarding the project.

Technology

We've invested in cutting edge manufacturing technology to create true 21st century experiences.

Team

We're from a variety of technical and creative backgrounds in the design, manufacturing and retail industry. Our collective decades of experience and wide variety of skills means your illuminated decoration will be truly memorable. In our 5 factories, 400 employees create decoration products with unparalleled detail.

Project Management

Your Project Manager

Will be directly responsible for your project's success. He'll work with you and your team through the creative process, coordinate and plan all the details with our specialized internal and external teams, and provide management and support throughout the project.

THANK YOU
