First Annual Meeting
November 11, 2026

The Artificial Intelligence Infrastructure Interchange (AIII)

Launched on March 17, 2026, the Artificial Intelligence Infrastructure Interchange (AIII, pronounced “A-triple-I”) is a WIPO initiative that facilitates global dialogue on the technical and operational aspects of the intellectual property system in the context of artificial intelligence.

WIPO

Join us at the AIII: Annual Meeting on November 11, 2026

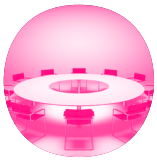
The AIII: Annual Meeting 2026 will provide an opportunity to receive updates on the work of the Technical Exchange Network (TEN) – the global collection of technical experts that is meeting to discuss the technical and operational aspects of the intersection of IP and AI – and to provide input and feedback. Member States and Observers will have the opportunity during the event to engage with the work of the TEN through a series of presentations and panel discussions featuring members of the TEN providing direct updates and sharing progress on the initial deliverables.

Practical Information

The AIII:Annual Meeting 2026 will be held from 10:00 to 18:00 CET in a hybrid format, at WIPO's Headquarters in Geneva, combining in-person participation with virtual access via Zoom and webcast. Interpretation in all six UN official languages will be provided (Arabic, Chinese, English, French, Russian and Spanish). The webcast will also be recorded and available for later viewing.

We also welcome participants to join the evening reception on November 10, 2026, which brings together participants from both the Global Forum on IP and AI and AIII: Annual Meeting.

At a glance



Neutral Forum
For creators, rights-holders, innovators, AI developers, and other experts to exchange ideas and explore practical solutions

Focus on Technical System and Tools
To effectively support creators, rights holders and innovators while also promoting the development of AI technology in a rapidly evolving environment.

Not Policy or Legal
Will not set policy or legal standards

Join us at our Inaugural Annual Meeting November 11, 2026

The AIII annual meeting provides Member States and other WIPO stakeholders a focused opportunity to stay informed about ongoing technical discussions, provide input through interventions, including questions and suggestions for future areas of investigation, and benefit directly from shared global technical expertise.
