Global Launch of Global Innovation Index 2019

24 July 2019; Sovereign Hall; Hotel Le Meridien, New Delhi

OPENING SESSION **1000 – 1100 Hrs**

Overview of Global Innovation Index: Journey so far

GII since its inception in 2007 has tried to capture the multi-dimensional facets of innovation in countries. The index has gone a long way in tailoring the national policies of various countries to champion innovation towards promoting long-term growth, improved productivity, and job creation. GII has helped countries benchmark them against the ones with superior performance and has been a great measure of country's competitiveness, ease of doing business, creativity, knowledge and technology among others. This session will unveil the historical perspectives of GII till 2019 and how it has helped countries improve their innovation prowess.

24 July 2019; Sovereign Hall; Hotel Le Meridien, New Delhi

PANEL DISCUSSION 'Asia: The future hub of Innovation' 1145 – 1300 Hrs

Asian countries are poised to be the economic power-houses in the coming years. A few countries have already positioned themselves in the upper echelons of GII for their complete commitment to innovative business practices. For an Asia-centric economic future of the world, it is imperative that the success-stories in innovation from the select Asian countries are discussed and deliberated upon to delineate the way forward for others to emulate.

PANEL DISCUSSION

‘Creating Healthy Lives - The Future of Medical Innovation’

1345 – 1500 Hrs

Countries, where innovation has been the cornerstone of their national priorities, have vied for the top ranks? in the GII. These innovation driven economies have immensely been successful in designing and delivering a superior quality of life to all their citizens. Healthcare is witnessing unprecedented breakthroughs to cure diseases and helping people live longer through disruptive healthcare innovations. Such inspirational journeys of medical transformations through the portals of innovation would help to solve many of our most pressing health-care problems. The countries aspiring to reach the next level of healthcare innovations stand to learn from such discourses.
