

# Using copyrighted materials to train AI

Dr. Lital Helman  
Ministry of Justice, Israel

# The problem

---

How can creating a dataset be infringing?

---

Copying

---

Derivative work

---

Moral right? Credit?

# Potential exceptions under Israeli Law

---

Fair use

---

Incidental copies

---

Temporary copying

# Fair use

- First prong – purpose of use
- Second prong – 4 factors:
  1. The purpose and character of the use
  2. The nature of the copyrighted work
  3. The amount and substantiality of the portion taken
  4. The effect of the use upon the potential market

# Conclusion

- In most cases, creating the dataset will be PERMITTED
- SOMETIMES not. We can define some of those cases
- SOMETIMES you can share your dataset with others
- Terms of use of third-party websites CANNOT impede right

Why opinion

rather than statute?

Thank you!
