

**WIPO Roundtable on Technical
Assistance and Capacity Building:
Sharing Experiences, Tools and
Methodologies**

**Implementation of Technical
Assistance Activities**

Geneva

May, 2017

Beatriz Amorim-Borher
Director of the Regional Bureau for Latin America and the Caribbean
Development Sector

WIPO Roundtable on Technical Assistance and Capacity Building: Sharing Experiences, Tools and Methodologies

Implementation of Technical Assistance Activities

PRINCIPLES OF THE DEVELOPMENT AGENDA FOR COOPERATION

■ DEMAND DRIVEN

- work with national partners for the delivery of the particular cooperation initiative.
- a joint exercise in which ownership of MSs is key.

■ SUSTAINABILITY

- development of indigenous capabilities and knowledge aiming at long term use of the results coming out of the cooperation exercise.
- make use of a significant number of local and regional experts.
- engagement with MSs in enlarging the participation of local and regional partners

WIPO Roundtable on Technical Assistance and Capacity Building: Sharing Experiences, Tools and Methodologies

Implementation of Technical Assistance Activities

■ TRANSPERANCY and ACCOUNTABILITY

- WIPO works closely with national and regional partners pursuing pre-defined objectives that should be in line with country's policy priorities.
- For the implementation of activities, WIPO makes use of a results-based management framework: clear definition of objectives, of expected results and of the indicators to assess impact
- WIPO and MSs discuss the general conditions for the delivery of the TA (such as the division of responsibilities; the availability of financial and human resources; and the timeline).

■ MAINSTREAMING TA INITIATIVES

- Implementers take note and assess the interest of MSs to mainstream particular cooperation experiences. Commonly, successful and relevant activities and projects demanded by MSs are later mainstreamed as a permanent tool or a regular TA program.

IMPLEMENTATION OF TECHNICAL ASSISTANCE

ELEMENTS TO BE CONSIDERED

- COORDINATION
 - WITHIN WIPO AND BETWEEN WIPO AND MSs

- IMPLEMENTATION VARIES ACCORDING TO
 - THE FOCUS OF THE ACTIVITY
 - THE SCOPE OF THE ACTIVITY

About Cooperation Icones...

“Nothing is possible without man and nothing can last without Institutions”

Jean Monnet

THANK YOU!

GRACIAS!
