## Belt and Road IP Cooperation

### High level conference

- Held in 2016 and 2018
- more than 50 countries joined in
- 8 cooperation projects launched

### Training and Education

- 187 students for master's degree of IP law
- over 30 training courses
- Dispatch 18 IP experts to 6 countries

### Seminars and webinars

- Enhancing IP Awareness seminar
- Online Symposium on Genetic Resources, Traditional Knowledge, Traditional Cultural Expressions

## The CNIPA and WIPO

### Capacity Building

- November 2022, the CNIPA and WIPO co-organized an International Symposium on Intellectual Property, Traditional Knowledge and Genetic Resources
- Objectives: To share regional, national and local practices, experiences and substantive issues regarding IP protection of TK and GRs

### Technical cooperation

Patent and  
Technology  
Sector

- Disseminate CN patent information via PATENTSCOPE and build M2M
- Share IP legislation, practices, and experiences of China

Brands and  
Designs Sector

- Disseminate CN design information via Global Design Database and build M2M
- Work closely with WIPO and local communities to develop, protect and commercialize their geographical indications

Infrastructure and  
platforms Sector

- Exchange priority documents via WIPO DAS
- TISC in China

## The CNIPA and WIPO

### TISC

01

#### Build TISC network

- Started in 2017
- 101 TISC in 2021
- 200 planned TISC in 2025

02

#### Improve work mechanism

- TISC Coordination Workgroup and Expert Committee
- Implementation Measures

03

#### Traning and seminer

- Over 7,000 trainees
- 2,400 participants in 3 seminars
- Global TISC conference

04

#### Promote excellent cases

- 39 cases from TISC
- Best TISC practice in China
- TISC in China pamphlet

## The CNIPA and WIPO

### Background

- Invitation from Cambodia in 2017
- WIPO conducted a research mission

### Implementation

- 3 phases
- Challenges of COVID-19

### Outcome

- KTPA founded and GI registered
- Both sales and revenue increased

### Suggestion

- Further assistance
- Technical training

## Cambodia Koh Trung Pomelo GI Project ——supported by Funds-In-Trust China

## The way forward

Strengthening cooperation  
to build a balanced and  
inclusive IP ecosystem

Sharing the practice and  
experience of IP promoting  
economic growth and  
industrial innovation

Advocating the use of IP  
for SDG and 2030  
sustainable development  
agenda

# Thank you!
