TISC Project document

ESTABLISHMENT OF TECHNOLOGY AND INNOVATION SUPPORT CENTERS IN *[country]*

PROJECT DOCUMENT

1. SUMMARY	
Title:	Technology and Innovation Support Centers in <i>[country]</i>
Project Duration:	<i>[Please indicate the expected duration of the project.</i> <i>Example:</i> <i>[August 2013 to September 2015.]</i>
Brief Description of Project:	<i>[Please provide a summary of key points from the sections below.</i> <i>Example:</i> <i>The project aims to stimulate innovation and economic growth by facilitating access to technology information and by strengthening capacity to effectively exploit this information. Under this project, WIPO supports the establishment and development of Technology and Innovation Support Centers (TISCs) and associated networks on the national, regional, and international levels.</i>

Project document

- Introduction
 - Background information and rationale
- Project framework
 - Logical framework (Log frame)
 - Activity schedule
 - Monitoring and evaluation

Log frame structure

- Description of objectives, outcomes, outputs, and inputs and activities
- Clear linkages between objectives, outcomes, outputs, and inputs and activities to avoid any spare element
- Indicators (baselines and realistic targets)

Benefits

- Stakeholder involvement
 - Increased local ownership
- Greater consistency and transparency in project design
 - More efficient resource allocation
 - More efficient activity implementation
 - Better risk management
 - Improved opportunities for learning and sharing experiences
 - Better cooperation with internal and external partners

Challenges

- Data collection
- Data management
- Data analysis

TPPM platform

- TISC Project and Performance Management platform is designed to facilitate collection, management, and analysis of data from the national TISC projects to help establish and develop networks in WIPO member states

Key components

- Inbuilt TISC project document
- Digitized Log frame
- Secure access through login
- Assignment of tasks
- Dashboard to review status updates
- Staff (HR) information
- Archive of old project documents
- Certificate printing
- Survey templates

Potential users

- WIPO
- TISC coordinators (National Focal Points)
- National TISC managers and staff

Advantages

- Enable WIPO to effectively follow up on the progress of national TISC projects and have better assessment of their needs for assistance and capacity building
- Assist TISC coordinators (national focal points) in managing and monitoring their respective networks
- Assist TISC managers and staff in handling their activities in an efficient manner and sharing data with their national focal points

Implementation plan

- Development and testing phase
- Available in January 2022
- Rollout in pilot countries
- Preparation of user guide and training material
- Information webinars
- User feedback and system enhancements
