JEAN MICHEL JARRE

Jean Michel Jarre has always been ahead of his time in terms of technology and design.

- First musician over the world that designs his stages with videos, images and music.
- First musician over the world to choose his concert places depending on their design, historical image and to include them on stage.
- First musician to create the laser musical instrument 30 years ago.
- First and only musician to attract 3,5 million people in one concert (Moscow 1997).
- 70 millions records sold worldwide
- 16 millions Oxygen albums sold

CONCEPTS

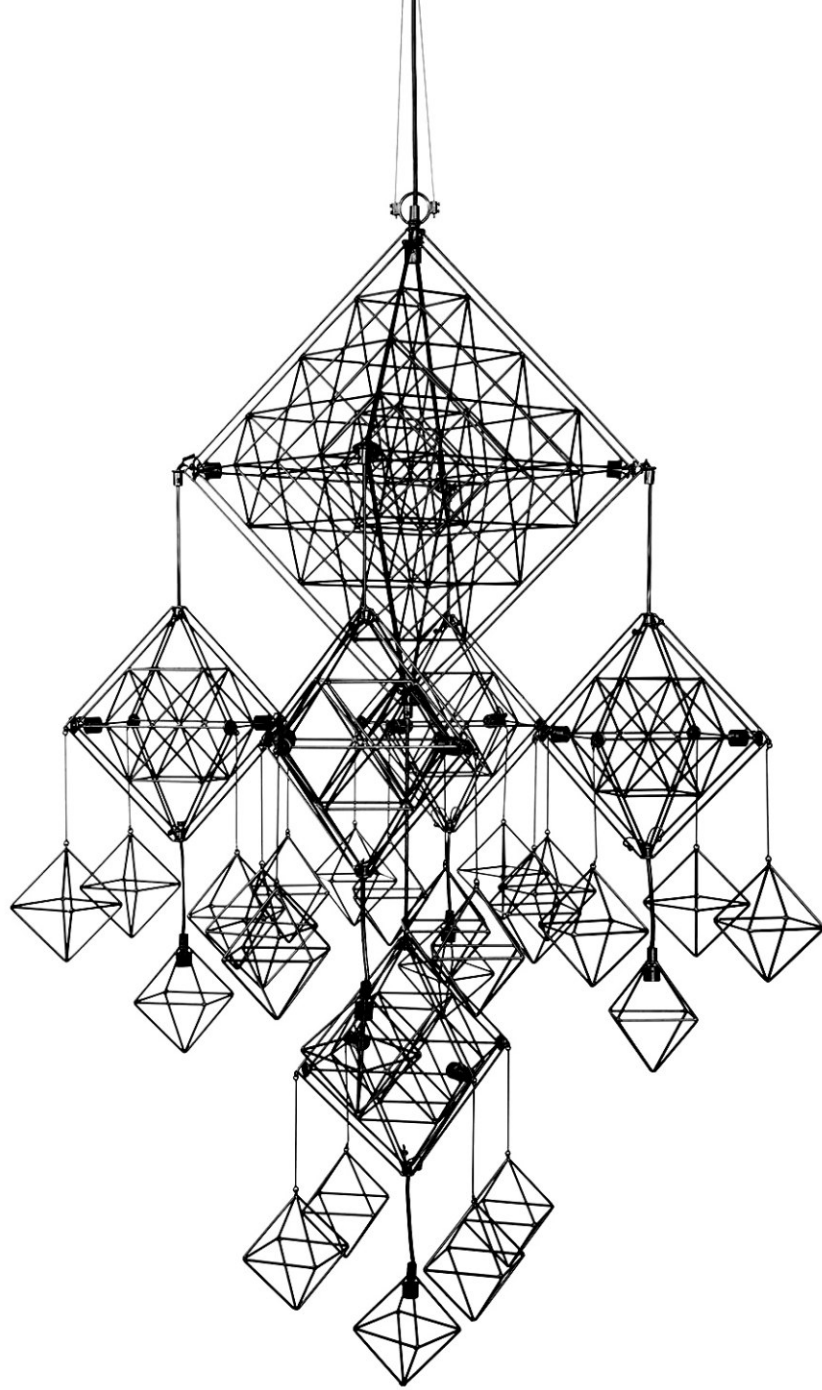

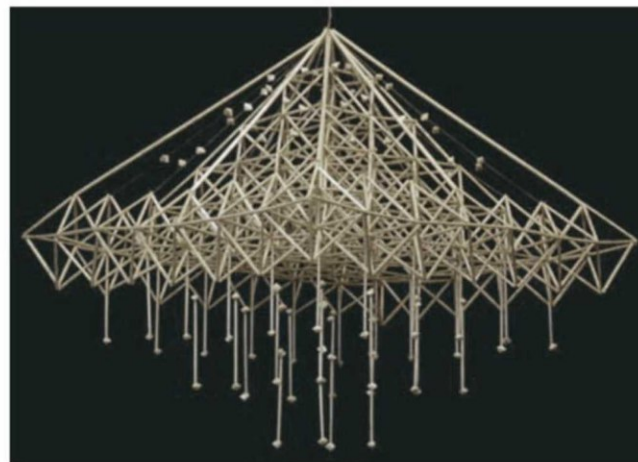

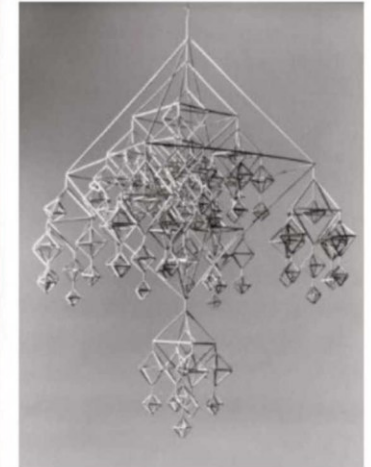

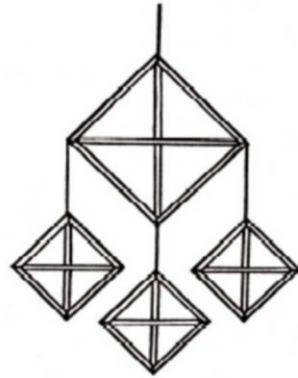

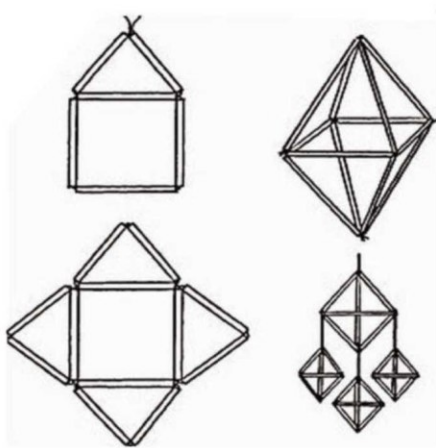

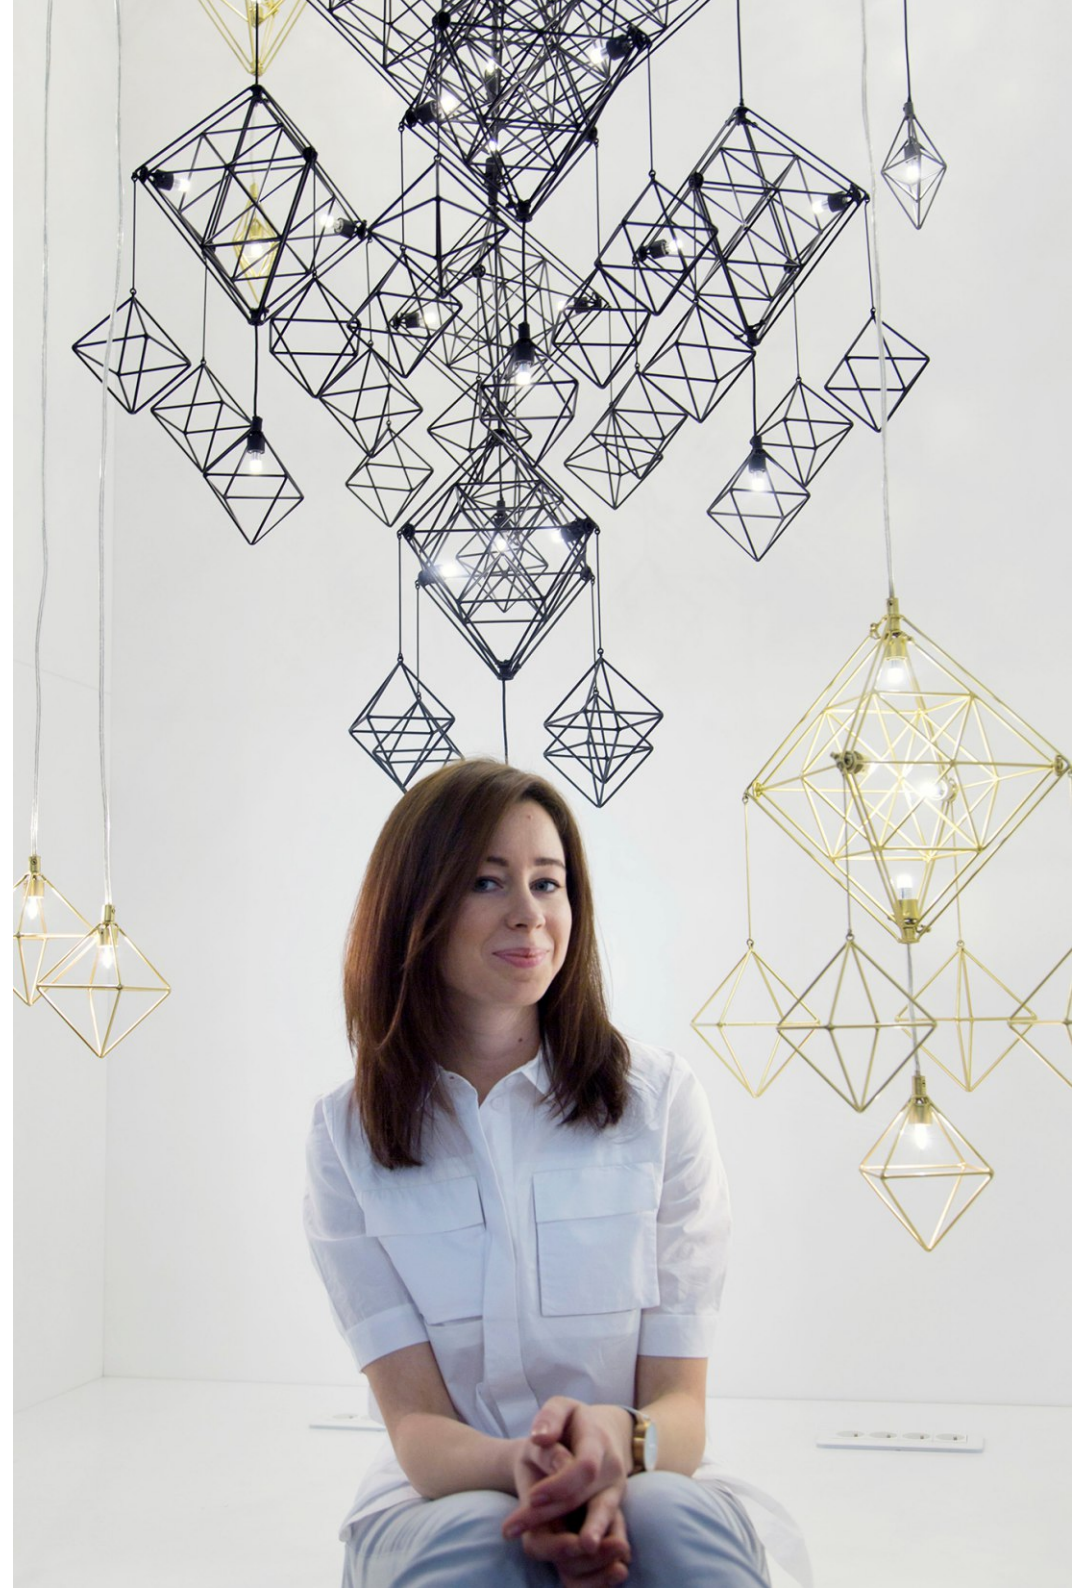

INSPIRATION AND CONCEPT

In Finland it calls "Himmeli", in Latvia it calls "Puzurs", in Lithuania it calls "Sodas", in Poland it calls "Pajak", in Ukraine it calls "Pauk". This is an ancient traditional interior decoration for Christmas and Easter known for Slavic and Scandinavian culture. Straw "Spider" has a symbolic meaning and is a talisman made to keep the house, and to ensure the well-being of the family. They absorbed the web of their construction all the negative things that could prevent the flow of a happy family life.

We propose to make lamps with accent of this beautiful ancient decoration. This elegant lamps will be suitable for modern, loft and for classical interiors. As a module of construction was taken frame octahedron. This module gives many variations of construction. Materials could be: painted metal or copper or brass with LED light.
