PATENT COOPERATION TREATY

INTERIM COMMITTEE FOR TECHNICAL COOPERATION

Seventh Session

Geneva, October 12 to 18, 1977

REPORT ON THE STATE OF COMPLETENESS OF THE SEARCH FILES
OF THE PROSPECTIVE INTERNATIONAL SEARCHING AUTHORITIES
IN RESPECT OF THE NATIONAL PATENT DOCUMENTS
TO BE INCLUDED IN THE MINIMUM DOCUMENTATION
UNDER PCT RULE 34.1(c)(i) TO (v) AND (e)

prepared by the International Bureau

Background to the Present Document

1. The PCT Interim Committee for Technical Cooperation (hereinafter referred to as "the Interim Committee"), at its sixth session, held in Geneva from November 3 to 8, 1976, asked the International Bureau to update the survey, relating to the period from January 1, 1920 to June 30, 1971, of the state of completeness of the documentation of the prospective International Searching Authorities (hereinafter referred to as "the prospective Authorities") in respect of the national patent documents pertaining to the PCT minimum documentation which had been presented to the Interim Committee in document PCT/TCO/VI/4.

2. The Interim Committee decided that, when carrying out this task, the International Bureau should proceed as follows (see document PCT/TCO/VI/16, paragraphs 33 and 34):

(i) invite the PCT minimum documentation countries to submit a complete listing of their patent documents issued from July 1, 1971 to December 31, 1976 (any unused numbers being indicated);

(ii) communicate to the prospective Authorities the information received, draw their attention to the urgency in filling gaps, if any, and invite such Authorities to submit updated information on the completeness of their patent documentation with respect to the national patent documents of the PCT minimum documentation countries issued for the period 1920 to 1976.

Request for Information to the PCT Minimum Documentation Countries and the Prospective Authorities

3. The International Bureau sent to the PCT minimum documentation countries Circular Letter No. 2664, dated December 5, 1976, inviting each of those countries to submit a complete listing of its national patent documents published from July 1, 1971 to December 31, 1976.

4. The International Bureau, by Circular No. 2844, dated June 1, 1977, communicated to the prospective Authorities the listings of the national patent documents received in response to its invitation mentioned in paragraph 3 above, and asked the said prospective Authorities to submit information on the completeness of their patent documentation with respect to the patent documents indicated in the said listings. The International Bureau also by Circular No. 2846, of the same date, invited those prospective Authorities to submit updated information on the completeness of their patent documentation with respect to the national patent documents of the PCT minimum documentation countries for the period January 1, 1920 to June 30, 1971, and drew their attention to the urgency in filling gaps, if any, in their said documentation.

5. The present document contains a compilation of the information received so far, relating to the national patent documents published by the PCT minimum documentation countries from January 1, 1920 to December 31, 1976, with the exception of the patent documents published by Japan and the Soviet Union which have not yet been included in the survey of the completeness of the patent documentation of the prospective Authorities.

6. Attached to the present document are the following annexes:

Comments

7. The information contained in Annex Q is set forth separately for the period from January 1, 1920 to June 30, 1971, and for the updating period from July 1, 1971 to December 31, 1976. C. 2664
PCT 21

December 5, 1976

Sir,

The PCT Interim Committee for Technical Cooperation at its sixth session held in Geneva from November 3 to 8, 1976, entrusted to the International Bureau the task of updating, as of December 31, 1976, the information previously obtained by it in relation to the period up to June 30, 1971, as to the completeness of the search files of the prospective International Searching Authorities with respect to the national patent documents referred to in PCT Rule 34.

The Interim Committee decided that, in carrying out this task, the International Bureau should first invite the PCT minimum documentation countries to submit to it a complete listing of patent documents issued from July 1, 1971 to December 31, 1976 (any unused numbers being indicated) and to convey the information received to the prospective International Searching Authorities with a request for updated information on the completeness of their patent documentation. (see document PCT/TCO/VI/16, paragraph 34).

Since, after receipt of the necessary information from the PCT minimum documentation countries, an updated listing of the documents relating to the PCT minimum documentation under PCT Rule 34 will have to be established and submitted to the prospective International Searching Authorities, I should be pleased if you would send to the International Bureau the complete listing of patent documents issued in your country in the period from July 1, 1971, to December 31, 1976, including the indication of any unused numbers, as soon as possible, and, at the latest, by March 15, 1977.

Sincerely yours,

Felix A. Sviridov
Deputy Director General

C. 2844
PCT 081.3

June 1, 1977

Sir,

The PCT Interim Committee for Technical Cooperation at its sixth session held in Geneva from November 3 to 8, 1976, entrusted to the International Bureau the task of updating, as of December 31, 1976, the information previously obtained by it in relation to the period up to June 30, 1971, as to the completeness of the search files of the prospective International Searching Authorities with respect to the national patent documents referred to in PCT Rule 34.

The Interim Committee decided that, in carrying out this task, the International Bureau should first invite the PCT minimum documentation countries to submit to it complete listings of patent documents issued from July 1, 1971 to December 31, 1976 (any unused numbers being indicated) and to convey the information received to the prospective International Searching Authorities with a request for updated information on the completeness of their patent documentation (see document PCT/TCO/VI/16, paragraph 34).

In accordance with this decision, the International Bureau invited, by its Circular No. 2664, dated December 5, 1976, the PCT minimum documentation countries to submit to it the said listings. The information supplied by the PCT minimum documentation countries in response to the above-mentioned circular is annexed to the present circular in tabular form.

./.

Table I sets forth the range of numbers of the patent documents issued during the period from July 1, 1971, to December 31, 1976, in the following countries: France, Germany (Federal Republic of), Switzerland, United Kingdom and United States of America. The numbers contained in the above-mentioned range of numbers for which no patent documents were published during the period considered (numerical gaps) are indicated in Appendixes I and III to V. In one situation, where no range of numbers can be indicated, the list of numbers of patent documents published during the period considered is indicated in Appendix II.

Table II shows the range of numbers of the patent documents issued during the same period in Japan and from July 1, 1971 to December 31, 1975 in the Soviet Union. The numerical gaps are indicated in Appendixes VI and VII.

I should be pleased if you would assist the International Bureau in carrying out the task entrusted to it by supplying information as to the following matters:

(i) whether or not your Office has all of the patent documents specified in Table I (columns 2 and 3); if your Office does not have all these patent documents, please indicate the ranges of numbers of the missing documents;

(ii) which of those documents included in your documentation are not arranged in the form of systematic documentation (search files); please provide this information by indicating, in the column entitled "Documents available, but not in systematic documentation" the range of numbers of patent documents which are not so arranged;

(iii) how the patent documents mentioned in (ii) are maintained at present in your Office (e.g., bound volumes, separate numerical files, etc.).

An extra copy of Table I has been included for notation of the relevant information and return to the International Bureau.

Since the question of the completeness of the search files in respect of Japanese and Soviet Union patent documents can be considered only in conjunction with the question of the availability of English language abstracts for these documents, Table II is submitted only for information purposes and no reply is required with respect to these documents in the present context.

- 3 -

In order to permit an evaluation of the collected updated information before the next meeting of the PCT Interim Committee for Technical Cooperation, you are kindly requested to reply by July 15, 1977.

Sincerely yours,

Felix A. Sviridov

C. 2846
PCT 081.3

June 1, 1977

Sir,

The PCT Interim Committee for Technical Cooperation, at its sixth session held in Geneva from November 3 to 8, 1976, entrusted the International Bureau with the task of obtaining from the prospective International Searching Authorities updated information on the completeness of their patent documentation with respect to the national patent documents of the PCT minimum documentation countries, issued from January 1, 1920 to December 31, 1976 (see document PCT/TCO/VI/16, paragraph 34).

A survey of the completeness of the patent documentation of the prospective International Searching Authorities was carried out in 1976 with respect to the national patent documents pertaining to the PCT minimum documentation issued from January 1, 1920 to June 30, 1971. The purpose of the present Circular is to obtain updated information on the completeness of your search documentation with respect to the said documents. Circular No. 2844, which is issued at the same time as the present Circular, relates to the period from July 1, 1971 to December 31, 1976 in respect of which no previous survey has been made. The information resulting from Circular No. 2844 and the present Circular will be presented in a consolidated form to the PCT Interim Committee for Technical Cooperation.

./.

./.

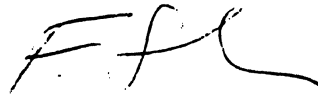

You are kindly requested to submit the updated information mentioned above (relating to the period from January 1, 1920 to June 30, 1971) by reference to the summary of the previous survey annexed to this Circular. This summary consists of a revised version of Annex J to document PCT/TCO/VI/4 reflecting changes indicated by some delegations at the sixth session of the PCT Interim Committee for Technical Cooperation. Since this summary refers to other Annexes of document PCT/TCO/VI/4, a copy of that document is also enclosed herewith.

I should be grateful to you if you could submit comments and observations on the annexed summary and to indicate in particular the extent to which the gaps set forth in this summary in relation to your search documentation (if any) have been filled.

I should like also to draw to your attention the urgency of the filling of gaps expressed by the PCT Interim Committee for Technical Cooperation at its said sixth session.

In order to permit an evaluation of the collected updated information before the next meeting of the PCT Interim Committee for Technical Cooperation, you are kindly requested to reply by July 15, 1977.

Sincerely yours

Felix A. Sviridov
Deputy Director General

Re: Updating of the PCT-minimum documentation covering
the period from January 1, 1920 to June 30, 1971

Ref.: Circular No 2846 PCT 081.3

Encl.: - 1 -

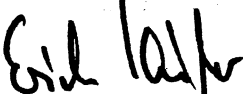

Dear Sir,

In answer to your above mentioned circular I should like to refer to the survey of completeness of the patent documentation of the prospective International Searching Authorities which was carried out last year, and which already showed that the search documentation of the German Patent Office did not have any substantial gaps with regard to the PCT-minimum documentation according to Rule 34.1(c)(i) to (v) (excluding Japanese and Soviet Union patent documents).

This situation did not change in the meantime.

/ Therefore the enclosed copy of the annex is returned unchanged.

Sincerely yours

Dr. Häusser

Dear Sir:

In reply to your Circular 2846/PCT 081.3 of June 1, 1977, I wish to inform you as follows:

Of the US documents mentioned as missing in the column for missing documents for our Patent Office on page 4 of the Annex attached to your above Circular, the numbers from 1,439,739 to 1,447,854 have been obtained. The remaining US documents and French documents missing from us will be acquired within this fiscal year. The missing documents of Federal Republic of Germany are expected to be acquired during the fiscal years 1978 and 1979.

Further, as regards searching for examination of applications, we are employing Two Steps Search System (to use secondary documents for scanning and then access is made to primary documents for searching) in general, and to facilitate it, we have almost completed a systematic documentation of secondary documents pertaining to patent documents that we possess.

As to the secondary patent documents of foreign countries classified by classification of such countries, we are thinking of reclassifying them by IPC and refiling them by using the data to be supplied by CAPRI Project.

Yours truly,

Dear Dr. Sviridov,

In reply to your letter No. 2846 of June 1, 1977, I should like to inform you that we agree with the information indicated in the search documentation summary table sent to us.

During recent months our searching authority has received the specifications of inventions which were previously missing of amended patents of the USA from No. 14785 to No. 21426 (with very small gaps) as well as 11275 specifications of inventions for additional patents of France from 1920 to 1927.

We have all the specifications of the inventions of Switzerland for applications relating to textile fabrics and time measuring instruments.

Our searching authority does not have the published applications for inventions of the Federal Republic of Germany from 1955 to 1965 for which patents have not been granted. On March 4, 1977, we wrote to the Patent Office of the Federal Republic of Germany requesting them to inform us of the possibility and conditions under which we could complete our collection of their patent documents. Unfortunately, we have not received an answer up to the present time.

Sincerely yours,

Offenlegungsschriften published from October 23, 1969
to February 26, 1970.

Recognizing the urgency of the filling of this gap,
we are requesting the Patent Office of the Federal
Republic of Germany to provide the U. S. Patent and

Dear Mr. Sviridov,

In reply to your circular n° 284⁶, I have the honor to send you a copy of the annex to this circular, on which has been indicated the present state of the IIB Search documentation with regard to the minimum documentation.

The IIB is at present processing the missing documents in order to fill the two gaps in its documentation (120.000 CH patents and 3.000 old US patents); this is reflected in the appropriate columns of the annexed summary.

Yours sincerely,
