Background

• The XML4IP TF requested the IB to investigate the feasibility of Wiki to stimulate the its discussion (at its meeting, Feb. 2008)
• The ST.36 TF agreed that the Wiki would be trialed by the four XML-related Task Forces, i.e., the ST.36, ST.66, ST.86 and XML4IP TFs as pilot users. (at its meeting, Nov. 2008)
• The IB launched the Wiki eForum in March 2009
  – The former email-based electronic forum platform has no longer been available for discussions by the four Task Forces since the Wiki eForum was launched.
Current Wiki eForum Spaces

• Five Wiki Spaces has been created and operating for XML-related Task Forces
  – ST.36 Task Force Space
  – ST.66 Task Force Space
  – ST.86 Task Force Space
  – XML4IP Task Force Space
  – SDWG XML Task Forces Space
Main Features

• Restricted Space for TF members
  – Individual account for all eForums instead of one account for each eForum shared by all TF members (email-based platform)
• Web-based Platform
  – Anytime and anywhere accessible via the Internet
  – Email system independent
  – Collaborative works on-line
• Advanced Search
• Alert/ notification via email/ RSS Feed
• Forget the attached file size when uploading
• Don’t waste time deleting or archiving messages
• An easy way to see all comments at once
• An easy way to track history of discussions
  – Comparing two versions
