UK IPO: Sharing of information concerning corresponding foreign applications and grants

Sarah Whitehead

Sharing UK info

- Ipsum

Ipsum - Online Patent Information and Document Inspection Service

Welcome to Ipsum our new and FREE online service which lets you check the status and access information on UK patent applications. You can also get copies of [some documents](#) from the open part of the file.

Please enter either the publication number or the application number in the form below, then click Go to view the case file.

View

Help

The publication number must be entered in one of the following formats:

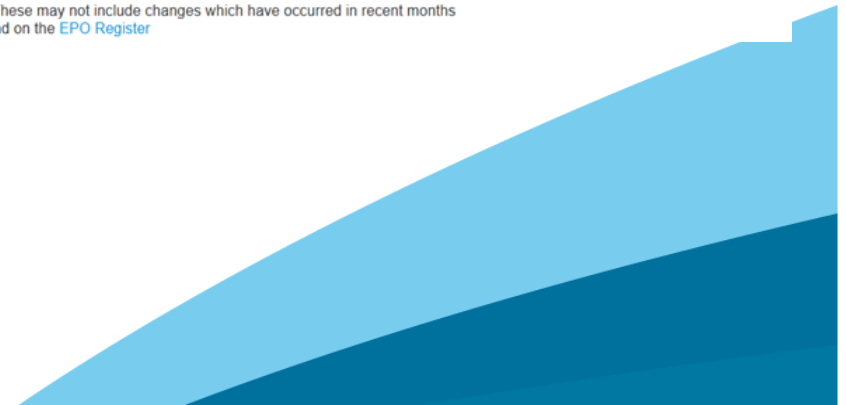

- GBnnnnnnn
- EPnnnnnnn

- EPO Utilization Implementation Project (UIP)

Using Ipsum you can:

- View patent status
- View up to date information on patents
- Access some documents from published patent applications
- See which classifications and fields of search have been used
- Send us observations about the patentability of a published patent application, before any patent is granted [Guidance on Section 21 Observations](#)
- Save your favourite patent applications in your bookmarks
- Get data on European Patents (UK). These may not include changes which have occurred in recent months before the EPO, but these can be found on the [EPO Register](#)

- WIPO-CASE

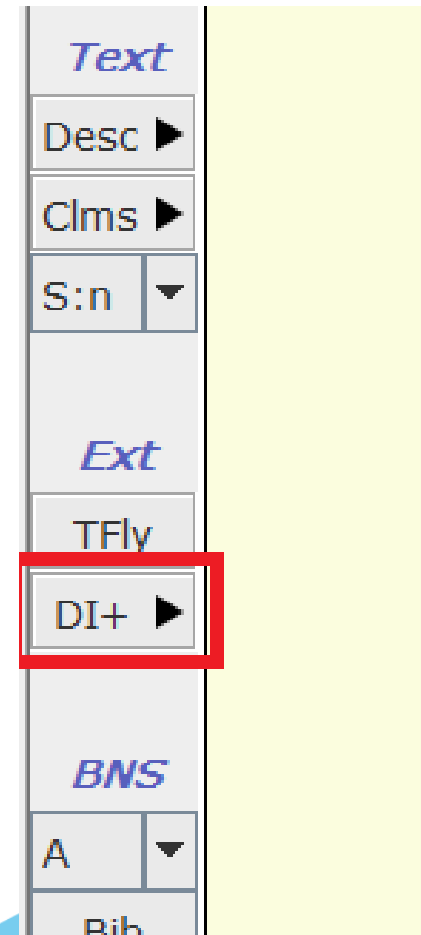

Accessing info from other offices

- WIPO-CASE (and by extension OPD)
- Global Dossier via Espacenet
- European Patent Register
- AIPN
- K-PION
- USPTO-PAIR
- CPES
- PATENTSCOPE

Accessing info from other offices (Cont)

- FAMI/REFI tool in Epoquenet
- Internal Electronic Case File Opening Tool
- EPOQUE DI+ Button

How do we use others info

- Taking into account the views and citations of other Offices
- Reissuing international work products
- Highlighting where amendment of claims to those granted elsewhere would overcome UK objections

Any questions?
