#### **AGENDA ITEM 10: FUTURE WORK**

22. The Committee decided its future work as follows:

- The non-exhaustive list of issues will remain open for further elaboration and discussion at the next session of the SCP.
- Without prejudice to the mandate of the SCP, the Committee agreed that its work for the next session be confined to fact-finding and not lead to harmonization at this stage, and would be carried out as follows:

##### Exceptions and Limitations to Patent Rights

- In accordance with the agreement within the Committee at SCP/28, the Secretariat will continue to work on a draft reference document on exceptions and limitations to patent rights in conjunction with patent protection, and will prepare a draft reference document on the exception regarding compulsory licensing for SCP/30. The Secretariat will invite Member States to send any additional inputs for the preparation of the draft reference document on the exception regarding compulsory licensing. The draft reference document on the research exception (document SCP/29/3) will be kept open for future discussion by the Committee. At SCP/30 the Committee will decide on the topic for SCP/31.

### Quality of Patents, including Opposition Systems

- The Secretariat will prepare a further study on inventive step (part 3), giving a particular attention to the topics suggested in paragraph 8 of Annex to document SCP/24/3 (Proposal by the Delegation of Spain).
- The Secretariat will prepare a background document on patents and emerging technologies and submit it to SCP/30.
- With a view to prepare a study based on paragraph 7(b) of document SCP/28/8 on approaches to the quality of the patent grant process, to be submitted to SCP/31, the delegations will continue sharing their practices on this issue, including opposition systems. As a next step, special attention should also be given to the capacity building of patent examiners and offices.

### Patents and Health

- The Committee will carry out a work program contained in the proposal by the Delegations of Argentina, Brazil, Chile and Switzerland (SCP/28/10 REV) regarding a regular update on publicly accessible databases of patent status information concerning medicines and vaccines, which was revised during SCP/29.
- The Secretariat will commence work on a review of existing research on patents and access to medical products and health technologies, as contained in document SCP/28/9, as revised during SCP/29, and will present a final report at SCP/31.
- The Secretariat, as well as invited relevant institutions, will share their experiences on capacity building activities relating to negotiating licensing agreements at SCP/30, giving a particular attention to paragraph 20(a) of Annex to document SCP/24/4 (Proposal by the African Group for a Work Program on Patents and Health).

23. The Secretariat informed the SCP that the dates of its thirtieth session, to be held in Geneva, were tentatively scheduled from June 24 to 27, 2019.

24. The SCP noted that the present document was a summary established under the responsibility of the Chair and that the official record would be contained in the report of the session. The report would reflect all the interventions made during the meeting, and would be adopted in accordance with the procedure agreed by the SCP at its fourth session (see document SCP/4/6, paragraph 11), which provided for the members of the SCP to comment on the draft report made available on the SCP Electronic Forum. The Committee would then be invited to adopt the draft report, including the comments received, at its following session.
