Twenty-Fourth Session
Geneva, April 22 to 26, 2013

THE PROTECTION OF TRADITIONAL KNOWLEDGE: DRAFT ARTICLES

Document prepared by the Secretariat

1. At the Twenty-First Session of the WIPO Intergovernmental Committee on Intellectual Property and Genetic Resources, Traditional Knowledge and Folklore (the IGC), which took place in Geneva, from April 16 to 20, 2012, the IGC discussed all the working and information documents prepared for that session, in particular documents WIPO/GRTKF/IC/21/4, WIPO/GRTKF/IC/21/5, WIPO/GRTKF/IC/21/INF/4 and WIPO/GRTKF/IC/21/INF/8. The IGC developed, on the basis of these documents and comments made in plenary, the text “The Protection of Traditional Knowledge: Draft Articles” in accordance with the General Assembly mandate contained in document WO/GA/40/7. The IGC decided that that text, as at the close of the session on April 20, 2012, be transmitted to the WIPO General Assembly for consideration by the General Assembly in accordance with the Committee’s mandate contained in document WO/GA/40/7.
2. The text “The Protection of Traditional Knowledge: Draft Articles” was submitted to the WIPO General Assembly in 2012 as Annex B of document WO/GA/41/15.
3. The WIPO General Assembly in 2012 agreed “to continue intensive negotiations and engagement in good faith, with appropriate representation, towards concluding the text(s) of an international legal instrument(s) which will ensure effective protection of GRs, TK and TCEs”, and decided that the work of the IGC “will build on the existing texts submitted by the IGC to the General Assembly (Annex A, Annex B, and Annex C of document WO/GA/41/15)”. The WIPO General Assembly also decided that this Twenty-Fourth Session of the IGC should address traditional knowledge.

4. Annex B of document WO/GA/41/15 is annexed to the present document.

5. *The Committee is invited to review and comment on the document contained in the Annex towards developing a revised version thereof.*

The Protection of Traditional Knowledge: Draft Articles

Introduction

This text represents the results at the conclusion of the IGC's 21st session, in accordance with the mandate of the WIPO General Assemblies (contained in WO/GA/40/7). It represents a work in progress.

Facilitators' Notes

The method used by facilitators was to merge options where possible, and explicitly identify elements of convergence (labeled "Facilitators' Option (Convergent Text)") and divergence (labeled "Optional Additions to the Facilitators' Text"). These elements of divergence can be considered to be the main policy issues.

New language added by delegations in the last iteration of the document is underlined; the fact that any new language is not square-bracketed does not necessarily indicate that it represents an element of convergence.

Square brackets that were present in WIPO/GRTKF/IC/21/4 were not removed.

Series of terms separated by slashes (for example, [holders]/[owners]) indicate that either of those terms is supported generally by at least one delegation and/or that the choice of terms is a matter of terminology, or depends on the type of instrument or on outstanding policy issues being resolved.

[Protection under this instrument [should]/[shall] [take account of, and operate consistently with, other international [and regional and national] instruments [and processes]]/[leave intact] and in no way affect the rights or the protection provided for in international legal instruments [, in particular intellectual property instruments] [, in particular the *Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization* to the *Convention on Biological Diversity*].]

[End of alternative]

ARTICLE 12

TRANS-BOUNDARY COOPERATION

Facilitators' Option (Convergent Text)

In instances where traditional knowledge is located in territories of different [Member States]/[Contracting Parties], those [Member States]/[Contracting Parties] [should]/[shall] cooperate in addressing instances of transboundary traditional knowledge/by taking measures that are supportive of and do not run counter to the objectives of this instrument. This cooperation [should]/[shall] be done with the participation [and [prior informed] consent] of the traditional knowledge [holders]/[owners].

Option 1

[In order to document how and where traditional knowledge is practiced, and to preserve and maintain such knowledge, efforts [should]/[shall] be made by national authorities to codify the oral information related to traditional knowledge and to develop databases of traditional knowledge.

[Member States]/[Contracting Parties] [should]/[shall] consider cooperating in the creation of such databases, especially where traditional knowledge is not uniquely held within the boundaries of a [Member States]/[Contracting Parties]. If protected traditional knowledge pursuant to article 1.2 is included in a database, the protected traditional knowledge should only be made available to others with the prior informed consent of the traditional knowledge holder.

Efforts [should]/[shall] also be made to facilitate access to such databases by intellectual property offices, so that the appropriate decision can be made. To facilitate such access, [Member States]/[Contracting Parties] [should]/[shall] consider efficiencies that can be gained from international cooperation. The information made available to intellectual property offices [should]/[shall] only include information that can be used to refuse a grant of cooperation, and thus [should]/[shall] not include protected traditional knowledge.

Efforts [should]/[shall] be made by national authorities to codify the information related to traditional knowledge for the purpose of enhancing the development of databases of traditional knowledge, so as to preserve and maintain such knowledge.

Efforts [should]/[shall] also be made to facilitate access to information including information made available in databases relating to traditional knowledge by intellectual property offices.

Intellectual property offices [should]/[shall] ensure that such information is maintained in confidence, except where the information is cited as prior art during the examination of a patent application.]

Optional addition to either option

[Member States]/[Contracting Parties] consider the need for modalities of a global mutual benefit sharing mechanism to address the fair and equitable sharing of benefits derived from the use of traditional knowledge that occurs in transboundary situations for which it is not possible to grant or obtain prior informed consent.

Annex

The Facilitators' Notes and Comments

Notes

- Facilitators have systematically replaced iterations of “should” or “shall” with “[should]/[shall]”; “Member State” or “Contracting Party” with “[Member State]/[Contracting Party]”; and “holders” or “owners” with “[holders]/[owners]” to indicate that the issues behind those terms are still outstanding.
- The facilitators suggest that the Plenary consider how to address these and other drafting issues ([may]/[should]/[shall], [intend]/[undertake]/[endeavor], [Member States]/[Contracting Parties], [holders]/[owners]), and the use of the active voice as opposed to the passive voice.

Additional Observations

- Some delegations made proposals for new definitions. Facilitators propose that the Plenary consider whether and how to include those.
- A number of delegations made proposals for new objectives but without providing language for these beyond the title. Facilitators invite delegations that have made such proposals to provide language for those proposals.

COMMENTS BY THE FACILITATORS ON ARTICLE 1

DEFINITION OF TRADITIONAL KNOWLEDGE

- The facilitators believe that the phrase “are inalienable, indivisible and imprescriptible”, which was also proposed by the Delegation of Bolivia under Article 7, represents a substantive provision, which should therefore not be part of a definition but rather, perhaps, of the scope of the protection.
- The facilitators believe that certain phrases, such as
 - Traditional knowledge is part of the collective, ancestral, territorial, cultural, intellectual and material heritage of indigenous peoples and local communities.
 - and which may subsist in codified, oral or other forms, and
 - and which may be associated with agricultural, environmental, healthcare and medical knowledge, biodiversity, traditional lifestyles and natural and genetic resources, and know-how of traditional architecture and construction technologies

are descriptive or aspirational, and could therefore be better suited for any preambular language than for a definition of traditional knowledge.

- In the traditional cultural expressions text, both options for an article on the subject matter of protection contain clauses that note that the specific choice of terms to denote the subject matter of protection should be determined “at the national, regional or sub-regional levels” or “by national legislation”. The facilitators suggest that the Plenary consider whether a similar clause would be appropriate for the traditional knowledge text, and whether it could simplify that text.

CRITERIA FOR ELIGIBILITY

- Regarding 1.2(b) (“[integral]/[linked] to the cultural identity of beneficiaries”), the facilitators note that the equivalent provisions in the text on traditional cultural expressions (currently found in WO/GA/40/7 as Option 1, paragraph 2(c) and Option 2, Article 2) both refer to the “cultural or social identity” of the beneficiaries, and not strictly the “cultural identity”. The facilitators suggest that the Plenary assess whether the terminology used in the traditional knowledge text should match that used in the traditional cultural expressions text.

COMMENTS BY THE FACILITATORS ON ARTICLE 2

- Facilitators propose that the Plenary consider whether terms like “traditional communities” and “families” could be considered to be included as part of “local communities”.

COMMENTS BY THE FACILITATORS ON ARTICLE 3

Elements of convergence

- (i) concept of mechanisms to agree on use and/or access to traditional knowledge
- (ii) concept of acknowledgment of the source
- (iii) concept of respect for the cultural norms of the holders/owners
- (iv) provisions regarding mutually agreed terms
- (v) provisions regarding the sharing of benefits

Elements of divergence

- (i) measures-based approach (Option 1) versus rights-based approach (Option 2)
- (ii) concept of “use outside of the traditional context” as a trigger for provisions on acknowledgment of source, cultural norms, mutually agreed terms and the sharing of benefits (in Option 1 only)
- (iii) provisions regarding mandatory disclosure (in Option 2 only)
- (iv) provisions regarding prior informed concept (in Option 2 only)
- (v) whether or not benefit sharing should apply only to commercial use (in Option 2 only)

Other observations

- The Delegation of Morocco suggested the inclusion of a definition of “illicit appropriation”; however, that term is not currently used in the text. The Delegation of Morocco also submitted a definition of “utilization”, but this was already part of the text.
- Facilitators note that the terms “use” and “utilization” appear to be used interchangeably, and suggest that the Plenary clarify this matter.

COMMENTS BY THE FACILITATORS ON ARTICLE 4

Elements of convergence

[Member States]/[Contracting Parties] [should]/[shall] [endeavor to/undertake to] adopt [as appropriate and] in accordance with national law], the appropriate legal policy and/or administrative measures necessary to ensure the application of this instrument.

Elements of divergence

- (i) suitability of enforcement procedures
- (ii) concept of alternative dispute settlement mechanisms

Other observations

- The facilitators note that there is convergence on the suitability of Member States/ Contracting Parties adopting the measures necessary to implement any instrument.
- Article 4, paragraph 1 of the text is a broad provision, comprising text that the facilitators believe is convergent, and that contemplates the establishment of measures to ensure the application of the instrument.
- Article 4, paragraph 2, which the facilitators present as an optional addition to article 4, paragraph 1, contemplates the establishment of a further layer of application measures in the form of enforcement procedures, sanctions and remedies. Clauses 4.2.1 and 4.2.2 are optional additions to article 4, paragraph 2, and provide additional details regarding enforcement measures.
- Article 4, paragraph 3, which the facilitators present as an optional addition to article 4, paragraph 1, contemplates the possibility of alternative dispute settlement mechanisms.
- Article 4, paragraph 5 of former Option 2 reads as follows: “To promote relevant measures for the carrying-out of cultural expertise, that take into consideration customary laws, protocols and community procedures for the purposes of dispute settlement.” The facilitators were not able to include this language, and suggest that the proponent(s) clarify their intent.

COMMENTS BY THE FACILITATORS ON ARTICLE 5

Elements of convergence

- (i) general suitability of Member States/Contracting Parties establishing an authority (or authorities) in connection with this instrument

Elements of divergence

- (i) the specific functions of any authority
- (ii) concept of prejudice to national law and/or the right of owners/holders to administer their rights

Other observations

- With regard to former language stating that “In the case that the Member State decides thus that they should establish this authority”, the facilitators suggest to add the phrase “of any such authority” to make this concept implicit.
- The facilitators consider that the concept contained in the phrase “under protection of its beneficiaries” previously found in 5.1(a) could be captured by the phrase “to the extent authorized by the [owners]/[holders]”, which is now found in paragraph 1.
- While the list attached to 5.1 formerly contained alternatives, the facilitators considered that these alternatives were, in fact, distinct functions, and not simply alternatives. The facilitators therefore integrated these alternatives as distinct elements of the list.
- The language formerly found in 5.4 has been integrated in 5.1 by the facilitators.

COMMENTS BY THE FACILITATORS ON ARTICLE 6

Elements of convergence

- (i) former Options 1 and 2 were generally identical from paragraphs 6.1 to 6.3 inclusively, including the alternative language for 6.3, and have thus been merged

Elements of divergence

- (i) exception/limitation providing for the use of traditional knowledge in cultural institutions (was present only in former Option 1, currently paragraph 6.5)
- (ii) exception/limitation providing for the creation of an original work of authorship inspired by traditional knowledge (was present only in former Option, currently paragraph 6.5)
- (iii) concept of prior informed consent in the alternative language for paragraph 6.3 (was present only in former Option 2)

COMMENTS BY THE FACILITATORS ON ARTICLE 7

Elements of divergence

- (i) whether the term of protection should/shall be automatically linked to the fulfillment of the criteria for eligibility found in Article 1, or whether the term of protection may be set by Member States but also based on the fulfillment of the criteria for eligibility

Additional observations

- For Article 7, the facilitators note that two main positions were presented in Plenary (one that contemplates some form of perpetual protection, and another one that would allow Member States/Contracting Parties to limit the protection based on the “characteristics and value of traditional knowledge”).
- Option 1 is accompanied by optional additions. Facilitators believe that these represent proposals made during the current IGC session, and further believe that all of those optional additions would be part of Option 1, and not Option 2.
- Option 2 is not accompanied by optional additions.

COMMENTS BY THE FACILITATORS ON ARTICLE 8

- The facilitators understand that the Alternative seeks to merge 8.1 of Option 1 with 8.2 of Option 2.

COMMENTS BY THE FACILITATORS ON ARTICLE 10

- For Article 10, the facilitators note that two main positions were presented in Plenary (one that contemplates some international instruments that should/shall be consistent with the general legal framework, and another one that contemplates that the protection under any instrument should/shall not affect the protection provided in international instruments. The facilitators have merged these positions into a single provision.
- The language is accompanied by optional additions. Facilitators believe that these represent proposals made during the current IGC session.

COMMENTS BY THE FACILITATORS ON ARTICLE 11

The facilitators have removed language formerly found under this Article and which read as follows:

National treatment as to all domestic law or national treatment as to laws specifically identified to fulfill these principles; or

Reciprocity; or

An appropriate means of recognizing foreign rights holders.
