## PRACTICALADVICE

### ***Appointment of an agent to represent an applicant in relation to any international application filed by that applicant***

*Q: I am one of a group of patent attorneys which has, on several occasions, represented a particular client company. The company is filing an increasing number of international applications and now wishes to be represented by attorneys from my firm on a regular basis. Will we need to ask an authorized officer of the company to sign a separate power of attorney each time an international application is filed, or is there any simplified procedure available for appointing all patent attorneys of my firm to act on the company's behalf in connection with all subsequent international applications that are filed?*

A: A general power of attorney may be filed in cases where the same agent, or group of agents, is to be appointed by the same applicant or applicants for more than one international application. As detailed below, such a practice alleviates the multiple execution and deposit of separate powers of attorney or the multiple signing by applicants of request forms. This procedure is available under the PCT, even if it is not known in your national practice.

### **Appointment to represent applicant before all International Authorities**

If the appointment is for the purposes of the international phase generally, the original of the general power of attorney

must be deposited with the receiving Office with which the international applications are going to be filed, and a good copy retained by the agent for use in preparing further copies. Subsequently, upon filing each international application, a photocopy of the general power of attorney must be submitted along with the international application, and the relevant check-box in Box No. VIII of the request form (Form PCT/RO/101) should also be marked (see PCT Rule 90.5).

If more than one receiving Office is going to be used for filing international applications (for example, the receiving Office of the country of which the applicant is a resident or national, or the International Bureau as receiving Office) an original general power of attorney must

be deposited with **each** of those Offices. Any reference in the general power of attorney to the receiving Office should be to that with which the general power of attorney in question is deposited.

Although any number of applicants may sign the same general power of attorney, this may be impractical at times since the applicants or applicants/inventors will often vary for different inventions. It may, therefore, be more practical to have a separate general power of attorney executed by each applicant.

The general power of attorney will also be valid for representation of the applicant concerned before the International Bureau and the International Searching and Preliminary Examining Authorities (ISA and IPEA).

#### **Appointment to represent applicant specifically before an ISA and/or IPEA**

A different agent may be appointed if the ISA or the IPEA is not the same Office as the receiving Office, for example, where the receiving Office is the United States Patent and Trademark Office and the applicant wishes the international search or international search and preliminary examination to be carried out by the European Patent Office. An agent who is based close to an ISA or IPEA, and who has been appointed to represent the applicant specifically before that ISA or IPEA, may be in a better position to deal with certain situations, for example, if the applicant intends to protest against a finding of lack of unity of invention, or if the agent needs to have an interview with the examiner at the IPEA. A different general power of attorney may, in such circumstances, be executed specifically for the procedure before the ISA or IPEA (see PCT Rule 90.5(b)) and should be deposited with the ISA or IPEA directly. For the procedure before the ISA, reference to the general power of attorney should be made in the first communication/letter addressed to the ISA in respect of a given case, and a photocopy of the general power of attorney should be attached. For the procedure before the IPEA, upon filing the demand, in each case, a photocopy of the general power of attorney should be submitted and the relevant check-box in Box No. VI of that form should be marked.

Whenever a copy of the signed original of a general power of attorney is submitted in respect of an international application, that copy need not, itself, bear a fresh (original) signature (see PCT Rule 90.5(a)(ii)).

It is important to note that the general power of attorney does not extend beyond the international phase into the national phase, unless the form used specifically indicates this and unless permitted by the designated or elected Office concerned.

For suitable models of a separate or a general power of attorney, which may be photocopied for use, see Annex Z in Vol. I/B of the *PCT Applicant's Guide*.

#### **BUDAPEST TREATY**

A number of States have joined the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure since the publication in *PCT Newsletter* No. 09/1995 of a table setting out the States party to that Treaty. An update appears below.

**PCT INFORMATION UPDATE****France (all telephone and fax numbers)**

On 18 October 1996 (at 11.00 p.m.), all telephone and fax numbers in France will change.

**If calling from outside France**, only numbers outside the Paris area will be affected. The country code "33" remains.

**If calling from within France**, numbers will change to ten-figure numbers. Numbers to the Paris area will have the prefix "01".

For areas other than the Paris area, check with your contacts in those areas before 18 October 1996.

**New Zealand (competent International Searching and Preliminary Examining Authorities)**

The New Zealand Patent Office, in its capacity as receiving Office, has specified the United States Patent and Trademark Office, in addition to the Australian Patent Office and the European Patent Office, as competent International Searching and Preliminary Examining Authority.

(Updating of *PCT Applicant's Guide*, Vol. I/B, Annex C (NZ))

**Handling fee (European Patent Office)**

Pursuant to the fact that Greece will become bound by Chapter II of the PCT on 7 September 1996, the amount of the handling fee payable in GRD to the European Patent Office as International Preliminary Examining Authority, has been specified. The amount, payable as from that date, is indicated in Table II.

(Updating of *PCT Applicant's Guide*, Vol I/B, Annex E (EP))

**MAIL DISRUPTION AFFECTING THE USPTO**

As a result of an error by the US Postal Service, some mail directed, in late July 1996, to the United States Patent and Trademark Office (USPTO), Zip (postal) Code 20231, was returned to the sender as "undeliverable". The USPTO *Official Gazette* (1189 OG 92-93 of 27 August 1996) explains the procedures and conditions for resubmission to the USPTO of any correspondence affected by the disruption.

That issue of the USPTO *Official Gazette* advises that:

"... any patent ... correspondence affected by this disruption must be promptly resubmitted to the PTO in a new envelope addressed to the Assistant Commissioner for Patents, Box Postal Disruption, Washington, DC 20231.

"Such correspondence must be accompanied by the original mailing envelope or a copy thereof showing the original postmark date and by a certificate demonstrating the original mailing date. Applicant should retain a copy of the original mailing envelope in his or her file in case a question is later raised concerning the original date of mailing ...

"Questions concerning this notice should be directed to John F. Gonzales, Senior Legal Advisor, (703) 305-9285."

**MORE THAN HALF THE WORLD LIVES IN A PCT COUNTRY**

Based on estimated world population figures for 1995\*, nearly 55% of the world's population of 5.7 billion lives in one of the 87 Contracting States of the PCT and can thus take advantage of this system for simplified multiple filing of patent applications.

**POST VACANCY AT WIPO**

The World Intellectual Property Organization (WIPO) invites applications for the post of Senior Legal Officer, PCT Legal Division (PCT Department). For details, see vacancy announcement No. P1214 included as a tear-out sheet in this issue.

## EPO BOARD OF APPEAL DECISION CONCERNING PCT

### Time limit for payment of the protest fee relating to additional examination fees paid under protest

As indicated in the following headnote, an EPO Technical Board of Appeal has decided that:

“It is the responsibility of the European Patent Office, acting as International Preliminary Examining Authority, to ascertain whether the protest fee was paid in due time before referring a protest to the board of appeal for a decision.”

## PCT FEE TABLES

The following Tables show the amounts (including currencies – see the key to currency abbreviations following Table II) of the main PCT fees which are payable to the receiving Offices (ROs) and the International Preliminary Examining Authorities (IPEAs) during the international phase under Chapter I (Tables I(a) and I(b)) and under Chapter II (Table II). Fees which are payable only in particular circumstances are not shown; nor are details of certain reductions and refunds which may be available; such information can be found in the *PCT Applicant's Guide*, Vol. I/B, Annexes C, D and E. Note that all amounts are subject to change due to variations in the fees themselves or fluctuations in exchange rates. A 75% reduction in the basic fee, the supplement per sheet over 30, the designation and confirmation fees and the handling fee, as well as the transmittal fee payable to the International Bureau as receiving Office, is available to applicants from certain States; see footnote 2 for details. Footnotes to all Tables follow Table II.
